COOLIDGE THANKS PERSHING FOR HIS SERVICES

COMMITTEES NAMED FOR SYNOD TO MEET IN THIS CITY

PLANS PERFECTED IN LARGE WAY FOR GREAT SESSION

Plans are being carefully worked out to insure real hospitality for the Synod of Texas while that body is in annual session in Mexia October 8-13.

The Rotary club, the Lions club and other civic clubs and organizations have pledged their whole heart ed cooperation and enthusiastic support of plans for the entertainment of this important assemblage of leading laymen and ministers of the Presbyterian Church, U. S. A.

The Chamber of Commerce assisted in bringing the 1924 meeting to Mexia, the invitation being extended by H. L. Hall, who pushed the cause to success.

The Retail Merchants Association the Manufacturers and Jobbers Association and the Chamber of Commerce are all interested in the success of the city in taking care of the delegates and visitors, several hundred of whom are expected to be here the week of the Synod and who will widely advertise Mexia to hundreds of thousands of citizens throughout the jurisdiction of the Synod and beyond its borders wherever there are Presbyterians. In pulpit and press, the event here will be given wide publicity.

Every section of Texas will be represented at the conference, as well as parts of other states.

The accessibility of Mexia and the reputation of the city will bring more than the usual number of delegates and visitors, it is thought.

The following committee chairmen have been appointed from the local church: General Chairman, R. F. Babb; Arrangements, H. L. Hall; Reception, Roy Jordan; Finance, Phil Kainer; Women's Synodical, Miss Mamie Kennedy. Under the leadership of the Chamber of Commerce headed by Jere Cason, Secretary, the following General Committee representing the community interests has been appointed:

General Committee:

Jere Cason, Chairman.
N. Hollingsworth
R. F. Babb
B. W. Simmons
H. L. Hall
Phil Kainer
V. K. Aubrey
Miss Mamie Kennedy
J. I. McElroy
Paul Harper
Roy A. Jordan
V. B. Gardner
Dr. T. F. Oates
Mrs. S. S. Cox
Mrs. Jack Womack
Mrs. John Sweatt
Mrs. W. B. Kendrick
Mrs. Val Horn
Mrs. Carl Davis
Mrs. W. M. White
Mrs. Ab Steele
Mrs. Jim Patton
Mrs. W. W. Barnett
Mrs. R. J. Ellington
Mrs. J. P. Reynolds
Miss Catherine McGrad
A. H. Berry
F. P. Hachmeister

An Executive Committee composed of:

J. H. Cason
V. K. Aubrey
R. F. Babb
B. W. Simmons
H. L. Hall
Roy Jordan
Phil Kainer
Miss Mamie Kennedy

A preliminary conference was held Friday at the Chamber of Commerce Mr. Cason has called another meeting of this Executive Committee at his office Monday afternoon at 3:00 p. m.

The General Committee will be called together in the near future to carry out plans outlined.

Fires Are Raging In Many Places In Timber Land

SAN FRANCISCO, Sept. 13.—Six distinct forest fires are raging in California timber, dry from six months drouth. It is estimated that 5000 volunteers and ranchers are battling the blazes.

Limestone County Institue Held The Past Week

Mrs. Cora Ferguson of Groesbeck, county school superintendent and reelected for the next term, states that she was much pleased with the County Institute which was held in Groesbeck this past week. The attendance was very gratifying and the program included features presented by experts in their line from all over Texas. Mrs. Ferguson announces that another institute will be held early in September next year and it is hoped that it will be as great a success as the one held this year.

EFFORTS START TO SAVE BOY FROM DEATH PENALTY

(By United Press)

CHICAGO, Sept. 13.—Public interest here is being focussed on a slight, 19-year-old boy, with prematurely white hair, who sits in "death row" in the county jail, under sentence to hang on Oct. 17. The boy is Barnard Grant, from "Back of the Yards" Chicago, who was forced to give up school at the age of 11 to help support his family, and who can't see why Nathan Leopold and Richard Loeb, millionaire sons, escaped the death penalty, to a confessed murder, while he is sentenced to hang on what his attorney terms very flimsy evidence.

Attorney Thomas E. Swanson is preparing to go before Governor Small with a request for a commutation of sentence. Swanson said he would point to the Leopold-Loeb case as the latest precedent of Chicago court against hanging boys under the age of 21.

"If this boy Grant hangs it will convince many people that we really have one law for the rich and one law for the poor," Swanson told the United Press today. "This boy was convicted on very flimsy evidence which has been largely repudiated since the trial and our vain appeal to the Supreme Court. In December of 1922 two boys held up a cleaning kin a chain grocery store. Patrolman Ralph S. Couder, who was in back of the store, came out and was ordered to hold up his hands. This he did but he attempted to seize the gun pointed by one of the boys and was shot and killed.

"A little later Walter Kraused and Bernard Grant were arrested. Krauser pleaded guilty to the murder. Grant denied having been with Krauser. But Krauser's confession implicated Grant. Grant stood trial.

The clerk of the store testified that Grant looked something like the boy who with Krauser. The only other witness was a man who said he had seen a person resembling Grant in the neighborhood of the store earlier in the day.

The jury returned a verdict of guilty and ordered a sentence of death. Since then Krauser has made a statement denying Grant was with him.

"Here is a boy born back of the yards, raised back of the yards, with no advantages of education and refinement, who was taken from school after finishing the seventh grade to help support his family, who was found guiltly on evidence so transparent as to be ridiculous and ordered hanged.

"We will now see whether there is such a thing as justice.

"We will now see whether money is one thing."

Grant's shock of hair has turned white.

"I don't want to die," Grant said. "I don't have a hand in this, "I'm innocent."

WORLD BIRDMEN ON THE HOPE ONCE MORE

(By United Press)

WASHINGTON, Sept. 13.—The round the world flyers hopped off from Bolling Field for Dayton, Ohio, 200 miles away, at 10:30 this morning. Final reports indicated unsettled weather along the way. Under ordinary conditions the flight should take five or six hours. No stops are contemplated.

MAN KNOWN HERE CHARGED WITH CRIMINAL LIBEL

(By United Press)

OKLAHOMA CITY, Ok., Sept. 13. The third charge of criminal libel to be filed within three months against Howard A. Tucker, editor of The Record, former Governor J. C. Walton's publication was on file here today.

The charge was made by William A. McClaren, former linotype operator at The Record. He alleged that a story under the caption "Millionaire Involved in Corrupt Ku Klux Plot to Hi-Jack Editor," accused MacClaren and Dutch Utterback, another former employe of attempting to criminally extort $1,500 from Tucker and his mother, Charlotta I. Tucker.

Tucker is alleged to have charged in the story that McClaren attempted to gain control of The Record to throw its support in favor of C. J. Wrightsman, Tulsa millionaire, then a candidate for the Democratic United States senatorial nomination against the impeached governor.

Tucker was formerly engaged in the oil business at Mexia, the head of what was known as the Mexia Fish Pond Syndicate.

LARGE ESCORT TO MEET U. S. FLIERS

DAYTON, Ohio, Sept. 13.—Headed by a gigantic Barling bomber twelve airplanes left McCook Aviation Field here this morning to meet and escort the world flyers to Dayton. Present plans are for the flyers to remain here until Monday, while a new motor is being installed in Lieut. Wade's plane.

SMITH KENNEDY TEST IN AREA THAT LOOKS GOOD

The T. Frank Smith test on the Kennedy tract, southwest of Mexia and in the Groesbeck territory has reached a depth below 1300 feet.

This is the second test for Frank Smith et al in that area. The first was made on the Arnett.

The Texas Company and Pure Oil Company also made tests in that region. The Arnett well was several thousand feet west of the Texas Stroud 1. The Kennedy location was made with the aid and information gleaned from these other tests.

FRIENDS TO TRY TO KEEP BUTTE OUT OF THE CAMPAIGN

AUSTIN, Texas, Sept. 13.—Dr. George Butte, republican nominee for governor, is scheduled to arrive here Sunday. A move is on foot, according to close friends, to have him reconsider the acceptance of the nomination and decline. The plea will be based upon the grounds that he can better serve the state by remaining with the University as dean of the Law School, it was said. Dr. Butte said yesterday in New York that he would resign his post and accept the nomination.

Brotherhood In Michigan Favors The Third Party

(By United Press)

LANSING, Mich., Sept. 13.—The Michigan Brotherhood of Railroad Trainmen, through the legislative meeting here, unanimously endorsed Senator Robert LaFollette and Burton as the independent party leaders.

Butte's Resignation May Be Received By Faculty on Tuesday

AUSTIN, Texas, Sept. 13.—It is announced that the regular meeting of the board of regents of the University of Texas will be held next Tuesday in the office of the president of that institution. This will be the frist meeting of the board since Dr. W. M. Splawn assumed the duties of president. So far as publicly known only routine matters will be considered. It is asserted, however, that there is a possibility that the resignation of Dr. George C. Butte as dean of the law faculty of the University, in order that he may enter upon an active campaign for governor as the nominee of the Republican party, may be presented and considered. There are also a number of new appointments to the instruction staff which will be acted upon.

RAIN GENERAL IN ALL LIMESTONE COUNTY LAST FRIDAY

Rains fell generally throughout Limestone County practically all day Friday, the largest that has fallen in this immediate section since last Spring.

Cotton picking has been retarded several days as a result.

The cotton crop has not been helped by the rain, according to farmers of the county, however, they speak gladly of the downpour, claiming it will be of much help othrewise.

The precipitation at Mexia for Friday and Friday night was 4.05.

ELECTROCUTION TRIED OUT BY GEORGIA ON SATURDAY

MILLEDGEVILLE, Ga., Sept. 13. Georgia's first legal electrocution is scheduled to take place at the state prison farm here late this afternoon, when Howard Hinton, negro, will be put to death for attacking a white woman. The electric chair succeeds the noose as a means of inflicting capital punishment.

Germany May Have Another Cabinet

BERLIN, Sept. 13.—Germany is confronted with the making of still another cabinet. Foreign Minister Stressman's insistence upon sending a note to the powers denying Germany's war guilt, plus his disinclination to permit this country to join the League of Nations, has caused fresh talk of dissolution of the Reichstag, and new elections. The breach is widening between Stresseman and Chancellor Marx.

TEXAS COMPANY PLANNING NEW WAREHOUSE HERE

J. W. Elliott of the Texas Company offices here states that the company is planning at present to build a new sales station building in the railroads yards, south of the compress. Efforts are being made to secure a lot near the T. & B. V. on which to build the station and warehouse and also on which will be located the new storage tank. The tank will have a two car capacity.

When this move is made, the station now used south of the Pure Oil Company's yard lenses will be abandoned. Material out of the plant now accommodating the company will be utilized in the new quarters.

DEFENSE DAY IS DISAPPOINTING TO OFFICIALS OF ARMY

By LUDWELL DENNY.
(United Press Staff Correspondent)
(By United Press)

WASHINGTON, Sept. 13.—A general shake up of the reserve organization of the army seemed probable today as a result of certain disappointments in the defense test.

Although War Department termed the general results satisfactory it is understood that the turn out of "one day" volunteers and the number of communities participating were not entirely what was hoped for.

Out of the 16,792,672 persons who participated," in the test throughout the country, only 838,000 actually offered themselves for one day service with any of the regular military organizations.

With 30,000 regular army troops and 272,000 National Guard troops, the actual military mobilization was only 1,220,000 men.

Inasmuch as the War Department's plans for the defense test emphasized a desire that participants in the test offer themselves to parade for the day with one of the regular organizations the result was not wholly pleasing.

Another feature of the test that was disappointing was the relatively small proportion of American communities which held services.

Though all the large ones held imposing demonstrations, the total numberof communities engaged was only 6,535, or about one-eighth of the 52,000 incorporated communities of the country.

TEXT BOOKS TO BE SHORT FOR A WHILE IN TEXAS

AUSTIN, Texas, Sept. 12.—There will be a shortage of free text books with the opening of the school term, the State Department of Education indicated. Delayed deliveries and confusion resulting from litigation recently on final decision for text revision, will throw the children without complete texts temporarly.

Wet Spell Causes Farmers To Lose On Cotton Baled

(By United Press)

DALLAS, Texas, Sept. 13.—Farmers will lose from ten to fifteen dollars a bale on cotton wet by rain the past 36 hours, John T. Orr, president of the Texas Farm Bureau Cotton Association, estimated here after receipt of rain reports throughout the state. Rain over a large part of the state Saturday and Saturday night is in prospect, the weather bureau here indicated.

GIRL THREATENS DOCTOR'S LIFE BUT PISTOL FAILS

CHICAGO, Sept. 13.—A psychothic examination was made today of Miss Rosalie O'Reilly, pretty 21-year-old graduate of the University of Chicago who last night attempted to kill Dr. Alexander C. Weiner, 62, staff physician at the West Shore Hospital.

Miss O'Reilly said she wanted to avenge the death of her mother who was treated by Dr. Weiner.

Dr. Weiner was seated in his office when the girl walked in, pointed a revolver at him and pulled the trigger twice. The weapon failed to go off and the girl fled but was captured by Dr. Weiner after a short chase.

"I meant to torture him," Miss O'Reilly told police.

"In her bag was found an assortment of poisons, which she said she had planned to use on the doctor. Doctor Weiner explained that he treated the girl's mother for an incurable disease and that she died about three years ago.

Miss O'Reilly is librarian at a public library branch here.

The girl is a brilliant student and has distinguished herself in Latin and Greek, her father, Attorney George B. O'Reilly stated.

JIMMIE'S CAFE GETS NEW COAT OF PAINT

Jimmie's Cafe has received an attractive coat of paint and interior decorations that add much to the attractiveness of the place. The walls are cream colored, with a border of orange and black, so popular at this time, and is indeed striking judged by the attention they draw and comments made.

PERSHING IS NO LONGER ON THE ACTIVE ARMY LISTS

(By United Press)

WASHINGTON, Sept. 13.—President Coolidge, today issued the order which retired General John J. Pershing from active service with the army and at the same time extended to him "the thanks of the nation for his eminent services."

Though Pershing's connection with the army was automatically severed at midnight last night, the President gazetted his retirement to the army today with a detailed review of Pershing's career. A tribute rarely received by an army officer from his commander-in-chief.

The order follows:

"The White House, Washington Sept. 13, 1924.

"General John J. Pershing, General of the Armies, having this day reached the age of 64 years, is retired from active service in conformity with the requirement of an act of Congress approved June 30, 1882.

"In announcing the termination of this distinguished soldier's active military career, it is deemed appropriate to remind the country of his eminent services and of the nation's obligation to one whose accomplishments contributed so largely to the defense of the world's liberties.

"Entering the army as a commissioned officer, after graduation at the United States military academy in 1866 he endured the hardships of the Indian campaigns then necessary for the pacification of the western frontier. In the war with Spain he participated in the Santiago campaign in Cuba. In the Philippine Islands. After their acquisition by the United States it fell to his lot to assist in the suppression of the native insurrection and his remarkable success in bringing under control some of the most turburlent tribes is a matter of history.

"Becoming a general officer in 1906, he was entrusted with many important commands and when the unsettled conditions on the border of Mexico in 1916 made it necessary to send a military expedition into that country he was selected for its command. In exercising this command, as well as in the others that had fallen to him, he demonstrated his capacity for the highest military functions and his selection as the commander of the American expeditionary forces in the World War was a natural consequence.

"His conduct of that high command fully justified the selection as well as his elevation to the highest rank in our military service which was conferred upon him permanently, under authority of a special act of congress, in recognition of his fulfillment of his country's expectations.

"The American troops under his command, by their presence, high qualities and skilful management, assisted materially in the defeat of the central powers of Europe which resulted in the freedom of civilization from autocratic rule.

"He is one of the very few officers who have held the rank of General in the permanent military establishment and the one who has exercised supreme command over much the largest body of troops ever called into action by the United States Government. His services to the world in the the greatest conflict in which military forces have ever been engaged have been recognized through the award of the highest decorations by the governing authorities of Belgium, Great Britain, China, Czecho-Slovakia, France, Greece, Italy, Japan, Montenegro, Panama, Poland, Rumania and Serbia.

"General Pershing has already received from the Congress the thanks of that body and of the American people and now I extend to him anew the thanks of the nation for his eminent services and feel certain that I voice the sentiment of the entire citizenry of the republic in wishing him long life, happiness and prosperity in the retirement he has so richly earned.

(Signed) CALVIN COOLIDGE.

EUBANKS ACKNOWLEDGES WITH THANKS $100 CHECK AND ENCOURAGING LETTER FROM HUGHES FOR DEMOCRATIC FUND

A. H. Eubanks, Chairman of Limestone County Finance Committee of the Democratic party, is receiving much encouragement in his work of raising the county's quota for the campaign of the party this fall. Several letters have been received by him during the past few days and within a few days, he states he will be ready to announce precinct chairmen all over the county.

"The cry of the masses for relief from the oppression of Republican misrule," Mr. Eubanks stated Sat., is to be heard so diligently above all other campaign clamors that every loyal Democrat should be aroused to contribute his bit to a worthy cause."

Continuing, he voiced the opinion that the statement of the party were correct in their belief and statments that only the Democratic parties can offer the relief needed.

"The Democratic party, since the days of Thomas Jefferson, has been found to be the real friend of the toilers of all classes in this nation, while the Republican party has been recognized as the political denomination, the faith of which is subscribed to only by those who believe in government for the special interests at the expense of the real wealth producers of the land."

He further stated:

"Right now, when the world is crying from war wounds, when unrest and strife are so common, a change of administration is needed in national affairs and the feeling that this is true is so rampant among the sovereign voters of this country that Democrats everywhere with their ears to the ground and their hands on the pulse of the people see a wonderful opportunity for the Democratic party to triumph in November."

Just before he left for New York this morning, J. K. Hughes sent Mr. Eubanks a check for $100 to be added to the Democratic fund, together with a letter congratulating Democrats for having such splendid candidates to present to the nation in November. Mr. Eubanks expresses much appreciation to Mr. Hughes for his check and for the words of encouragement and is expecting to see the fund grow rapidly within the next few days.

The letter of Mr. Hughes, which was given to the press by Mr. Eubanks Saturday was as follows:

Dear Sir:

I am very glad indeed to have an opportunity to contribute to the National Democratic Campaign Fund and it is with pleasure that I hand you herewith my check as my contribution to the fund.

I think the Democratic Party is very fortunate inded in having as its candidates for President and Vice President two such strong and able men as the Hon. John W. Davis and the Hon. Charles Bryan and I feel that all true and loyal Democrats should put forth every effort to bring about their election.

Very truly yours.
J. K. HUGHES.

WESTMINSTER TO OPEN SESSION WEDNESDAY MORNING

Westminster College at Tehuacana opens its doors for the session of 1924 25 next Wednesday, September 17.

The frist chapel exorcises will be held at ten o'clock that morning, according to Dr. E. R. Biggs, President of the institution.

He issues a cordial invitation to the public to be present on that occasion.

The session bears the promise of being the best in the history of the institution, judged by the number who have signified their intention to attend this year.

The faculty is said to be most creditable and the equal of any set of professors and teachers in any Junior college in Texas. The faculty is as follows:

Ernest R. Biggs, M. A., B. D., President, Economics Ph. B., 1911, Kansas City University. M. A., 1921, University of Texas. B. D., 1916, Westminster Theological Seminary. Additional studies in Economics, University of Texas.

John Ardis Phipps. A. B., D. D., Dean, Bible. A. B., 1908; D. D., 1919, Westminster College. Dean and Prof. of Pedagogy and Psychology, Westminster College, 1908-11.

Rena Rae VanFossen, A. B., M. A., English A. B., 1901; M. A., 1923, University of Michigan. Fourteen years successful experience as a teacher of English.

Louise Bryan, A. B., M. A., History A. B., 1923; M. A., 1924, Southern Methodist University.

James G. Willis, A. B., B. S., Mathematics and Education, A. B., 1912, Westminster College. B. S., George Peabody College for Teachers. Graduate study in George Peabody College.

Wayland Moody, A. B., Modern Languages, A. A., 1921, Westminster College, A. B., 1923, University of Texas. Graduate study, George Peabody College.

Mary Allen, A. B., Science, A. B., University of Texas. Graduate study in University of Colo.

Lillian Pierce, Piano and Musical Sciences. Special student, Ward-Belmont College and Southern Methodist University. Three years teaching experience.

Lydia Moody Scott, Instructor in Voice. Diploma in Voice, Westminster College. Special study in Baylor University and Southern Methodist University.

Allie Brandt Floyd, A. A., Expression, A. A., 1916, Westminster College. Diploma in Expression, 1920, Westminster College. Special study, Curtis School of Expression.

Alma Johnston, Secretary to President. Commercial subjects. Diploma in Bookkeeping and Stenography, Monroe Business College. Special work in Conway, Arkansas School of Teachers.

Mrs. P. A. Phipps, Librarian.

Charles L. Lewis, Coach, Supt. of Moody Hall.

Mrs. Minnie Reck, Matron, Louisiana Hall.

No Professional Wanted In Game

(By United Press)

SAN ANTONIO, Sept. 13.—The death knell for professionalism in high school athletics has been sounded.

Changes in eleigibility rules in the Texas interscholastic league are explained at a recent gathering of coaches, athletic directors, and principals of southwest Texas schools by Roy Bedichek, head of the league.

The most important and strictest rule is that in which an athlete becomes ineligible by playing with or against professionals or semi-professionals whether he accepts money or not.

Jazz May Be Useful For Something Yet

(By United Press)

TEXARKANA, Sept. 13.—Proof that the bovine family is susceptible to the charm of music is put forth by D. C. Welty, dairyman here, and may lead to the installation of a jazz band to dairy equipment hereafter.

Welty conducts dances for the young social set in his barn loft regularly. When the cows are "juiced" at midnight after an evening of music, they give an average of a quart more than upon musicless evenings, Welty says.

HONOLULU HAS EPIDEMIC OF AUTOMOBILE THEFTS

(By International News Service.)

HONOLULU, Sept 13.—Sheriff David K. Trask will ask the Supervisors for twenty additional policemen to patrol the city as plain-clothes men, in an effort to stop an epidemic of auto thieving. The sheriff is of the belief that most of the thefts are by boys who want to use the cars for joy riding.

Students Scale Lofty Peaks In The Canadian Rockies

Five peaks in the Canadian Rockies have just been conquered for the first time by three Harvard and Hotchkiss students who were accompanied by their Swiss guides. The students who climbed and named the new peaks in the famous Columbia ice field are Osgood Field, Frederick Field and Lemond Harris of Boston. They were led by the noted Canadian Pacific Railway guide, Edward Feuz, the oldest guide in point of service in the Canadian rockies. Two of the newly conquered peaks have been named Mount Harvard and Mount Hotchkiss after the two American universities.

The party made five first ascents including the hitherto unconquered Mount Patterson, 10,400 feet, Mount Sir James Outram 10,700 feet, the South Twin, 10,600 feet and the unnamed peaks, Harvard and Hotchkiss. Besides all this they discovered a new route to the top of the second highest peak in the Rockies, Mount Columbia, 12,-000 feet, which was made in a return journey of twenty-three hours. The aim of the exploring party, to conquer the South Twin, was successfully attained.

The Field-Harris party left Lake Louise accompanied by two guides, five packers and nineteen horses, and travelled 200 miles into the Columbia ice field. Their progress was halted several times by the terrific winds from the ice fields and once they were forced to halt a day at Mistayah lake in order to make rafts with which to get their horses across. Here, at the foot of Mount Patterson, they put up a bivouac camp and accompanied by the weird howling of the wild ice winds of this district spent most of their night thrumming a ukelele and singing warm southern songs.

Lemond Harris had his own Swiss guide with him, Joseph Biner, who has guided him for many years in the Swiss Alps. Edward Feuz who has been guiding in the Canadian Rockies since 1908 was the man who successfully maneuvered this valuable expedition. The greatest novelty of the trip, he stated on his return, was the meeting of fourteen American girls on the lonely forks of the North Saskatchewan River, who were travelling alone with their packers. The girls insisted that the party stop off for dinner with them that night, following which a note of civilization was added to their wild northern environment by the sound of the ukelele and the swish of dancing feet over pine needles dimly lighted by a blazing log camp fire.

JUDGE HAS SET OF RULES FOR BOTH SEXES TO DECREASE DIVORCE SUITS

(By International News Service.)

SAN FRANCISCO, Sept. 9.—Judge Thomas F. Graham, famous as "the great reconciler" through his success over many years in divorce courts in bringing estranged couples together, believes that a policy of "look before you leap" would do much to prevent marital smashups.

From his twenty years' study of the divorce problem and handling thousands of divorce and annulment cases he has evolved a set of warnings for both girls and young men. If those are followed "the great reconciler" believes the divorce courts will have less business in the future. Here are his suggestions:

"Bewares" For Girls.

1.—Never marry a man who does not read the sport section of the newspapers. Young fellows who profess no interest in manly, outdoor athletic sports are not apt to be interested in anything or anybody but themselves. They make poor husbands.

2.—Never marry a man who plays cards for money. Love for games of chance is almost certain to supplant all other loves, greater than love for home, wife and children.

3.—Never marry a man who says he has no bad habits. He is pretty sure to have a vice much worse than smoking or even drinking. If he's of the "holier than thou" variety he soon will become a pest.

4.—Never marry a man your parents object to, unless your parents are most unreasonable. It is court history that 65 per cent of all elopements end in the divorce courts.

5.—Never marry a man who says he does not care for children. He's an unnatural, selfish man and not to be trusted.

6.—Never marry a man because he is a good dancer. Perhaps that is the only thing he can do well. Men who have intelligent feet seldom have anything in their heads.

7.—Never marry a man who detests dogs. If you do you'll find he is incapable of loving anything, even himself. Something is wrong with that sort of man.

8.—Never marry a man who drinks on the sly. If he isn't fair and square on that subject, he'll deceive you and cause you many a heart break on other accounts. The "silent drinker" never makes a good husband. He can't.

9.—Never marry a man who speaks slightingly of your parents or of old people. He's not the man for any woman. He'll neglect you when you begin to get wrinkled and gray.

10.—Never marry until you are old enough to know what you are doing. Sixteen-year-old brides too often are 17-year-old grass widows.

"Bewares" For Men.

1.—Never marry a girl who has lily white hands when her mother's are calloused and roughened by hard work. That girl won't be a good helpmate.

2.—Never marry a girl who wants you to take her to a show every night and is never content to let you "sit up" with her in her own home. She's not the type that will make a home for you.

3.—Never marry a girl who keeps her room or the parlor littered with signed photographs of former or present beaux. She's a collecter of heart throbs and she, more than likely, won't stop flirting after she marries you.

4.—Never marry a girl who is ashamed of her parents and does not want you to meet them. She's the wrong sort of a girl for any man.

5.—Never marry a girl whose only thought is clothes. If that is the calibre of her brain she'll never be a real wife or mother. Always she will be a clothes hanger and she'll keep you broke.

6.Never marry a girl who insists that you take her to places of amusement that are beyond your means. If she is that thoughtless before marriage, she will not bother about your financial affairs after your marriage.

7.—Never marry a girl who is immodest in her dress. No man wants to blush because of his wife's appearance. And never marry a girl who is slovenly and untidy. That, in a short time, will kill even the most ardent love.

8.—Never marry the promiscuous kisser. She'll cause you lots of grief and heart pangs later on.

9.—Never marry a girl several years older than yourself or many years younger. The difference in ages will cause many a "spat" later on and "spats" are the harbingers of alimony.

10.—Never marry a girl who is not fond of children. That sort of girl is not natural. Childless homes, except in unusual cases, are not enduring.

GATHERED CROP OF COTTON IS MUCH SHORT OF 1923

The cotton crop now in the bale in Limestone county is less than half as large as it was this time last year. Tom L. Cox of this city, special agent for the Census Bureau in the county states that there have been 12,126 less ginned this season than last. His statement is as follows:

Mexia Evening News,
Mexia, Texas.
Dear Sir:

There were 8,330 bales of cotton ginned in Limestone County, from the crop of 1924 prior to Sept. 1st, 1924, as compared with 20,456 to the same date last year.

Very respectfully,
TOM L. COX,
Special Agent.

Episcopal Ladies Organize Guild.

The ladies of the Episcopal church met Thursday afternoon with Mrs. Pipkin to organize a Guild. Mrs. Givens was elected president and Mrs. Floyd Miller secretary-treasurer. The work outlined for guilds three out the diocese and a study of church history and church activity will be pursued.

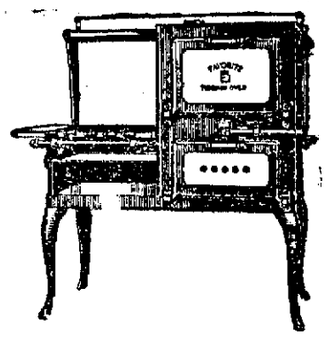
The membership consists of Mrs. Richard McGowan, Miss Fern Massie, Mrs. Givens, Mrs. Pipkin, Mrs. Hicks Allen, Miss Whitaker, Mrs. Pluger, Mrs. Brown and Mrs. Floyd Miller.

The next meeting will be with Mrs. Givens at 714 E. Titus St. Monday, Sept. 23 at 3:30 o'clock.

FURNISHED room close in also light housekeeping rooms. See them 401 E. Palestine or call 592W.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

Favorite Thermos Oven



A Revelation in Gas Cooking!

—You must see this wonderful stove to appreciate its beauty and utility. We have both the full enamel and semi-enamel styles.

—The Thermos Oven simply means that the oven is lined with one and one-half inches of a heat resisting compound which holds the heat.

—This oven will cook for an hour and a half after the gas has been turned off. This feature alone saves one-fourth the gas.

—We will gladly show this wonderful stove and explain the many advantages if you will only drop in to see us. There is no obligation on your part.

—Remember—we take your old stove.

In The Height of Fashion

Dame Fashion has decreed fur collars and trimmings on the Coats this season, the more fur—the more stylish the coat.

And you will find us ready with an unusually large assortment of the season's newer cloth Coats, with trimmings of Beaver, Squirrel, Muskrat, Marmink, and Jap Mink.

Some have only fur collars—others have bands of fur around cuffs and bottom, some have sleeves trimmed with 6 to 10 inch insert of fur—others have fur trimmed lapel.

The Cloths that are in popular favor this season are Downywool, Flamingo, Monticello, Delucia, Lustrosa, Velnewvo, Suava and Rubiat Larmen.

Colors run to Brown and Tan, with the new names as:: Corona, Pheasant, Perry, Sepia, Penny, also we are showing the new shades of grey, and the ever popular black and navy.

As to prices of coats—we show a complete line at every price range from $19.50 to $145.00, so whatever price you may wish to pay, you will find a coat to meet your requirements from among our large assortment.

Each Day The New Dresses Arrive

Each day we receive the New Dresses, always, you will find the very newest here—for no sooner are the new styles brought out in New York, than they are forwarded to us in Mexia.

Complete lines are shown at all prices from $12.50 and up to $65.00.

✧ ✧ ✧ ✧ ✧

Dawes is described as a "Son of Thunder" who with great advantage "to supplement the still small esident Coolidge", but there are increasing signs blic, particularly in the West, restively desires to rom the head of the ticket.

✧ ✧ ✧ ✧ ✧

at individual negroes have declared for John W. e Klan issue, but the Association for the Advance- ored People has officially endorsed La Follette. To the rank and file will vote the Republican ticket, remains to be seen.

The heads of the Society of Mayflower Descendants are said to be worried because the membership has increased 710 in three years and now numbers 5077. Unless the race has long been dying out it is likely that there are several times that number of unknown descendants of the Pilgrims landing from that one small ship.

✧ ✧ ✧ ✧ ✧

We read of "a daily $5 award" for the best letter in answer to this question: "If you were a young lady sitting alone at a dinner table in a restaurant and from three tables simultaneously Rudolph Valentino, Jack Dempsey and the Prince of Wales should beckon to you, whose table would you honor?" It seems to have been quite forgotten that a "lady" in the old-time sense could not be "beckoned" by any one of these or other potentates and would allow no man to come to her own table in a public place unless he had been properly introduced. Obviously the Prince of Wales is less likely than the prize ring champion or the movie favorite to be greatly flattered by this extraordinary inquiry.

CENTRAL TEXAS PRESS
By N. P. Houx

WITHOUT COMMENT

The Republican carried Maine by an increased majority, yet the Republicans opposed by the anti-Klansmen. Now will Coolidge come out and denounce the Klan, as Davis has asked him to do? We know not, but we have our suspicion that Cal will continue to keep silent. There are close states Cal needs where a fight on the Klan would result disasterously.—Bonham Favorite.

An east Texas girl married five years ago and went into another state She came back home this summer with four little girls, all with double names. The local editor got his wires crossed and lost the good will of the entire family when he noted that she was home again with her little girls, Betty, Ann, Martha, Lou, Peggy, Jane, Mary and Elizabeth. —Sam Miller in Mineral Wells Index.

—o—

The prince of Wales gives evidence of being quite a likable young chap and would be thoroughly democratic in his habits were it not for the sycophancy displayed by a lot of Americans who persist in dogging his footsteps wherever fancy leads him. The toadyism manifested by some people in the presence of royalty and of nobility is nauseating to the true American who regards his soverignty equal to that of any king, prince or potentate.—Denison Herald.

—o—

The folks here are too busy right now to talk politics. There is lots of time for that between now and the general election in November, and there will not be any warm campaign down here.—Riesel Rustler.

—o—

Former Governor Cole L. Blease of South Carolina won the nomination for United States Senator in the primary held Tuesday. Coal Blaze has been a stormy petrel in South Carolina politics for years. He gained fame when, replying to a critic that the constitution forbade some intended act, he boldly declared, "To hell with the constitution." Strange things have happened in politics this year.—McKinney Courier-Gazette.

—o—

It is said that Henry Ford "layed aside" twenty four million dollars recently that he had no particular urgent need for at this time. Well, if Henry has more cash than he knows what to do with, he might divide with all us 4rd owners who spend all we can get trying to keep the flivvers going. Franklin Texan.

—o—

Every man owes a part of his time to the development of the community in which he lives. There are many people in Bryan who give many hours of overtime on community work but there are others who would have to work every day for a long time to get even. All together—let's pull and pay our debt to our community.—Bryan Eagle.

—o—

One farmer in the section around Groesbeck has this year demonstrated that two crops can be grown where one was grown the year before. Mr. J. S. Gayden this year plantend a crop of onions. When cotton planting time came he planted a crop of cotton on the same land just as if no onions were there and as a result he made just as good a cotton crop as he otherwise would have and at the same time made a fine onion crop. What Mr. Gayden did can be done by every cotton farmer in Limestone county.—Grosbeck Journal.

—o—

We want the political correspondents to quit sending their stories about our candidate being a "good mixer" to these parts. This is dry territory, and to call a man a good mixer makes the drys suspicious, and exasperates the wets.—Geo. Bailey in Houston Post-Dispatch.

A DEED to a HOME

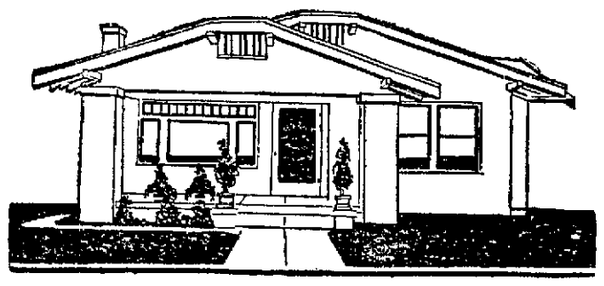
—If you have, the world bows to your success and your are rightfully entitled to the proud position you occupy and the happiness you enjoy.

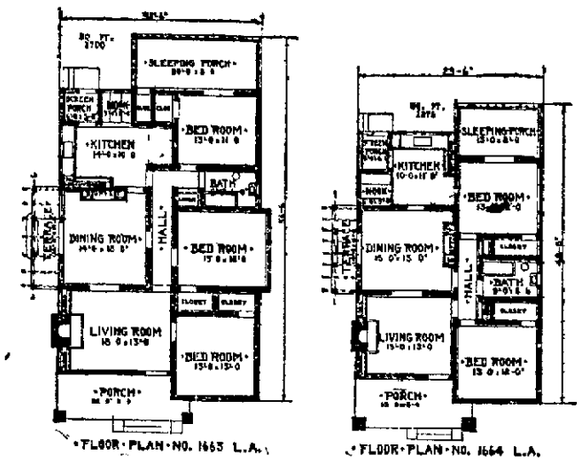
—For Home Ownership made a reality by consistent thoughts, ,tireless efforts and willing sacrifices represents the fulfillment of life's greatest ambition, an achivement worthy the name of Success.

—A deed to Home is more than title deed to property; this instrument fails to recite Americanism, Progressiveness, Thrift, Honor, Contentment, Protection, Environment, Etc. They are all a part of ideal homes that come with home ownership.

—This love for home has and always will be the most dominating force to spur men on to continuous success, for Home Ownership instills new thoughts, desires, determination and fires ambition to a point of action that cannot help but be productive, and when home is warmed by embers of love, devotion and affection, it is an inspiration for man to do his best, and is a haven for those who call it Home.

—When two hearts are joined in love and life the home instinct is liberated and false indeed is love's dream where the planning and building of an ideal home is not paramount. There is no other possession or desire that we can aspire to in this world that means so much to us as Home Ownership and the things Ideal Homes stand for. Appreciating this we should all give immediate consideration to acquiring or building a home.





PLAN NO. 1663-1664

—We know you will welcome the opportunity of studying the exterior illustration and alternate floor plans featured this week because it shows one of the most compact and convenient arrangements that is possible for you to have incorporated into a home The exterior is more attractive and to those who are able to find in the room arrangement sufficient pace in meeting their individual needs will want to adopt this practical plan for their new home. We are going to endeavor each week to feature a home that will meet with the requirements of the public. We appreciate the fact that most people have pet ideas they are desirous of incorporating into the home they are to build, but we are sure, with minor alterations, the changes you have in mind can easily be applied to one of the homes we will show you. Remember, this campaign is being conducted for your convenience and we will welcome the opportunity of assisting you in any reasonable way.

Woman Wept Seven Years For A Dog Grave That Was Empty

(By International News Service.)

NEW YORK, Sept. 13.—The dog is man's best friend. He comforts us in our trouble and when we have no trouble he goes out and digs up some for us.

There's the case of Mrs. Margaret E. Green. Seven years ago a bull pup on which she had been lavishing a lot of high priced affection climbed the golden stairs of the canine New Jerusalem and Mrs. Green was disconsolate.

She had the body buried in the Hartsdale Canine Cemetery, in Hartsdale, N. Y., in a rosewood box with a metall lining, and every week, rain or shine, she journeyed to Hartsdale to go over the years and daily hand in hand with sadeyed memory, at the dog's grave.

Recently rs. Green thought it would be a touching and appropriate thing to have the defunct pet laid out in a more pretentious resting place. So she went to the cemetery with a friend recently and sat on a rustic seat near the grave while the workmen were digging. When the pick of one of the excavators struck the top of the coffin with a hollow sound she approached the grave and gave close attention to the rest of the work; but when Superintendent Hunt removed the top from the little box it was found to be empty.

Mrs. Green is too well bred a woman to make a scene, but to say she was incensed was putting it mildly.

She has joined with other Hartsdale Cemtery plot owners and an investigation is under way to ascertain how many widowed and orphaned pet owners have been weeping over wrong graves in the last ten years.

It's a solemn and substantial thing to place a wreath and drop a tear over the grassy mound of a deceased animal and then come to find out that through a clerical error or a misplaced lograithm you've got your graves mixed.

There are 4,000 pets buried in the Hartsdale Cemetery, not all dogs. A lion, several monkeys, a parrot, cats, pet hens, two horses and other animals and birds sleep side by side.

It's the biggest place of its kind in the wrold. Plots have sold at the rate of $.250 a square foot, and the five acres which comprise the cemetery, at that rate, net the owners of the project more than $500,000. There's a charge of $3 for digging a grave and a charge for upkeep that runs anywhere from $5 to $500 a year.

Ethel Barrymore has a plot there. So has Irene Castle, whose collection consists of four pets, including one whose marble headstone is inscribed: "Rastus, the smartest, most lovable monkey that ever lived."

One of the most elaborate plots is owned by James S. Sherman, former Vice-President of the United States. Other lot owners include the Schuyler family, the Everard family, the Mesereles, Elbridge Gerry Snow, Mrs. M. Orme Wilson, Mrs. Ada Van Tassel Billington, William Primrose, minstrel, and Florence Reed.

HOOVER AND DAVIS TO DISCUSS SAFETY

(By International News Service.)

LOUISVILLE, Sept. 13.—Secretary of Commerce Herbert Hoover and Secretary of Labor James J. Davis will be two of the principal speakers ath the Thirteenth Annual Safety Congress of the National Safety Council to be held here from September 29 to October 3. Many leaders in American public, industrial and educational life, best on the correlation of efforts to rid the country of the 80,000 fatalities caused by avoidable accidents each year, will be present.

For the first time in accident prevention history there will be brought together all national bodies which have been devoting efforts toward minimizing the 20,000 annual automobile accident death rate.

The trend of public accidents during the last year will be dwelt on at length at the various sessions of the congress. Recent analyses of automobile and other public accidents have resulted in the general conclusion that most accidents were due to mental causes and this general conclusion will be reflected in addresses and discussion.

214 East Palestine

WANTED—Several good agents, ladies or gentlemen, to sell the best selling invention on the market, unlimited territory. See C. B. MASTERS at the Lone Star Market or Colwell Hotel.

Mrs. W. A. Phillips, Teacher of ... Term starting Sept. 15. Foundation for beginners a specialty. Phone 404J or call at 1107 E. Titus. 6X7

Mrs. W. B. Landrum will open her class in Expression, Sept. 11, at 309 East Milam St. Telephone No. 206. Voice training, expressive reading and interpretation of literature. 8X6

FOR SALE—Two small houses with garage, lot 115x100 feet. Will sell right, going away. Situated on Main St., 2 blocks E. of Ross.

STOP THAT ITCHING

Use Blue Star Remedy for eczema, itch, tetter, or cracked hands, ring worms, chapped face, poison oak, sunburns, old sores or sores on children It relieves all forms of sore feet. For sale by Mexia Drug Co.—(Adv.)

DROPSY TREATED ONE WEEK FREE

Short breathing relieved in a few hours; swelling reduced in a few days, regulates the liver, kidneys, stomach and heart, purifies the blood, strengthens the entire system. Write for free trial treatment. Collum Dropsy Remedy Co., Dept. 65, Atlanta, Ga. (Established 1895—28 years of success in treating Dropsy.)

Announcing==

The Opening

Of Our Ladie's Ready-to-Wear Department

—For months we have been planning this addition to our store. Our buyer has just returned from New York where he spent 3 weeks making purchases for this department and for many days loads of express has been piling into our store. We are now ready for you. We show beautiful lines of—

Dresses == Coats == Suits

—We invite you to attend our opening and view the many garments which we have on display.

NEW MILLINERY DEPARTMENT

We now have on display a complete line of ladies and misses hats for Fall wear. These lines have just been added and are very attractive indeed. All hats moderately priced.

NEW PIECE GOODS DEPARTMENT

—In this department we will handle all the staple lines of Cotton and Wool Goods. We will also handle the finer grades of Silks, Linens, Crepes, Tissues, etc.

—When in need of anything in this line drop in to see us. Our prices are very moderate.

NEW BOYS' DEPARTMENT

—Yes, we have added a Boys' Department. Suits, Overcoats, Blouses, Overalls, Stockings, Underwear, Shoes, in fact, everything that a boy needs — for school, work or dress. Bring him in and let us fit him up.

—We have new lines of Shoes for every member of the family. Also a full line of Ladies', Men's and Children's Hosiery.

FIVE GAMES ALREADY SCHEDULED BY BLACK C

THIRTY ONE MEN WORKING FOR PLACES ON ELEVEN

The 1924 football season has become a reality in Mexia. The Black Cats promise to have one of the most successful years in the history of the institution under the able direction of Coach Ernest Poteet. Like all early season "dope" furnished to football fans the squad does not look the best in the world right now, but it is early and difficult to predict anything at this time.

The thirty one boys reporting for workout with the High School squad are all determined, and willing to obey training rules. They realize that they have a hard schedule to buck up against and are all willing to do their best. Of course there are some of the squad that will be disappointed in not being able to make the treasured "M" this season, but those boys should realize that even though they never play in a game this season the training and experience will be worth many times more than the effort put forth, and they will be first in consideration in next years squad.

The twenty boys who attended the Black Cat training camp at Lampasas just before school opened derived much benefit in a physical way as was shown when they were given a thorough examination by Dr. C. P McKenzie on two afternoons of the past week. Captain of the squad Wane Thompson had the distinction of being the most perfect physically on the squad as selected by Dr McKenzie.

Six out of the thirteen letter men of last years squad have reported for training These men are: Capt Thompson, Bennett, Buford, Lucas, Perkinson, and Glover Others with aspirations of wearing the coveted "M" are Corley, Arrington, Storey, Weason, Aulds, Karner, Beason, McKenzie, Wright, Knox, Walker, Byrd, Davis, Dupuy, Cox, Murphy, Pelz, Skeen, Robinson, Colgin and Parker

Jim Karner is coming along fine at punting and will handle most of the toe work this year Marvin "Bozo" Bennett is hard to beat at center and Wane Thompson is still playing his tackle position like a veteran.

The two Scotys will be missed from the squad this year, they have moved to Rio Hunda Herman Adames was scheduled to show up this year but finished out his course in summer school and will not return Barney Treadway has not shown up as yet and will be missed Jack Mills has moved to Mart

Perkinson will be moved from end position to the backfield Glover and Beason will beat quarter, and Dick Buford will hold down full back position Karner will also be in the backfield and some of the new material will be tried out behind the line The worst squad will average about 170 pounds

Five games have been scheduled so far, by the High School and others are almost a sure thing

Chilean President Quits; Army Wins.

ARTURO ALESSANDRI.

A group of young army officers of Santiago forced Arturo Allesandri President of Chile, to reorganize his Cabinet according to their choice, but declined to accept when he also tendered his resignation. It was announced, however, he will not be permitted to attend official functions generally demanding the President's presence.

PROMINENT FIGURES IN DAY'S NEWS

Above: FREDERICK H. GILLETT & COUNTESS GLADYS SZCHENYI.
Below: RHINELANDER WALDO & VERA MILNE HALL. INTL.

Frederick H. Gillett, Speaker of the national House of Representatives, has been nominated by Republicans of the State of Massachusetts as their choice for the United States Senate. The Countess Szechenyi, formerly Gladys Vanderbilt, of New York, may become Queen of Hungary. Her husband is prominent as pretender to the throne. Vera Milne Hall, New York actress, wielded a horsewhip on Eddie Hurley, press agent, in his office on Broadway because, she says, he made disparaging remarks concerning her. Rhinelander Waldo, Deputy New York Police Commissioner, has resigned to take part in the national Presidential campaign.

Macedonians Thrive On American Dollar

(By International News Service.)

BELGRADE, Sept. 13.—American dollars have given new life to the ancient Macedonian district of Ressen, according to the newspaper "Vremy."

"The entire district has been Americanized, thanks to the return of many of its inhabitants with pocketsful of dollars," says a dispatch published in the "Vremy."

"With American dollars these inhabitants have renovated their dilapidated estates and managed to enlarge and beautify them.

"Many a poor fellow who went to America ragged is now lord of his own little farm, with a cozy cottage perched at the head of it. The "lord" is often seen smoking an American pipe in his American overalls, and with his American-shaved face beaming with a broad but self-contented American smile. The Macedonian loves the soil. He is happiest when adding another patch to his old one. No matter where he goes he is sure to return to his old homestead as soon as he has swelled his purse to a proportion which he has thought big enough. And, what is more interesting still, is that he comes home with a stock of new ideas about modern farming which he had eagerly picked up, usually in the United States. One can easily tell a locality peopled by such modernized farmers from the older ones who evidently had no American dollars or American science to back them. Its houses are far better and bigger and more elaborately fitted. There you will notice the American stove, the American lamp, the American axe and shovel and, last but not least, what seems to be the greatest pride of all—the American willing plow. The street are clean, the shops more respectable looking, and the schoolhouse and the church are freshly painted. In front of many homesteads there stand up boldly the American artesian well instead of the old oaken bucket that used to emrge from a nasty and foul-smelling, dilapidated well. Yes, Ressen is a veritable American outpost in Southern Macedonia."

Paul Lobbitt, manager of the Mexia Drug Company, has returned from a few weeks spent in Galveston and other coast cities.

The New Studebaker Standard Six Five-Passenger Duplex-Phaeton

very finest closed cars are present in all the new Studebakers.

Three of the closed models in the Standard Six chassis introduce an innovation in beautiful colors. The lower panels are in light gray and the upper panels in dark gray. The separation is marked with parallel hair line red striping.

All of the Studebaker closed bodies are made by the Studebaker Corporation in its gigantic new body plant, the last of which, costing ten million dollars, was finished in 1923. It is claimed that these modern plants with the very latest modern machinery are responsible for great savings effected in manufacture and this accounts for the obvious splendid quality of Studebaker cars at the prices offered—the prices for the Standard Six three-passenger Coupe roadster to $2860 for the Big Six seven-passenger Berline.

Real Balloon Tires Regular Equipment.

Studebaker was among the very first of automobile manufacturers to introduce genuine balloon tires as regular equipment. Instead of the compromise on low pressure cord tires Studebaker has gone all the way and offered the public big genuine balloon tires on 20 in. and 21 in. wheels.

Lines Designed to Harmonize With Big Tires.

Studebaker probably is the first American manufacturer to design a car, not only mechanically but from the standpoint of appearance for genuine balloon tires. Big wide fenders which deeply crown over the tires are the first designed by any manufacturer for balloon tires, so Studebaker claims. Body lines are low and massive and doubtlessly balloon tire equipment was held in mind by the designer in shaping the new Studebakers. Wood wheels in especially light natural finish, together with full nickel plated radiators, are in bright and sparkling contrast with jet black fenders and the dark blue of the bodies and they blend especially well with the light gray and jet black bodies of the Standard Six models.

Suedebaker Hedges On Four-Wheel Brakes.

Although the new Stuebakers are regularly equipped with bigger and better two-wheel brakes than ever and with an entirely new emergency brake which operates on the propeller shaft, there is optional equipment offered in four-wheel brakes.

The new Studebaker four-wheel brakes are not only of the hydraulic type but hydraulic power is developed by engine power and not by the driver's foot. Great braking force can be applied instantly and almost without effort by operating a valve which turns on the hydraulic power. The brakes are unique in this respect and different from anything on any other American Car. Inasmuch as the braking power instantly stops when the wheels stop turning, the rear wheels cannot remain locked and the front wheels cannot lock at any time. There are no adjustments necessary for the front wheels and only two points which require lubrication. Undoubtedly a tremendous amount of interest will be created by the new Studebaker four-wheel brakes.

Studebaker advises its public, however, that two wheel brakes are all that is required. But in the event four-wheel brakes are demanded it is able to give,so it claims, the simplest, most effective and most durable and safe system ever put on an American Car.

Changes in Stubaker Engines

Of course Studebaker has made a great many minor changes, betterments and refinements in all the mechanical parts of its car.

Notably the engine now is in unit with the clutch and transmission, but even more important than that a new force feed oiling system has been designed introducing an entirely new feature. The returning oil is strained before it goes back to the crank case; thus the pump has the entire crankcase supply of oil strained and cleaned. There is no possibility of clogged screens or a lack of supply of oil for the highest speeds.

The entire amount of oil is pumped through the motor thre times for every mile of travel under a varying pressure of fifteen to twenty-five pounds, according to the speed.

Studebaker still retains the medium compression low speed design the same as that employed by practically all of the leading makers of this country. There has been an increase in the weight crank shafts on all models. There are bigger bearing and longer connecting rods in two models. Studebaker is one of the very first manufacturers of medium priced cars that uses the expensive system of machining its crank shafts on all surfaces. By this process it secures perfect balance and thus reduces vibration to the lowest possible minimum.

It is expected that the Studebaker display rooms throughout the country will be the mecca for thousands of people who are interested in new and unusual designs in motor cars for the next several weeks.

AUTO ACCIDENT ON ROSS AVE. FRIDAY NIGHT

An old Overland automobile occupied by two boys and two girls from a neighboring town, collided with a cut down Ford car contaiaing two Mexia boys, the accident took place early Friday night near the intersection of the Teague pike with Ross avenue. The Ford was turned over two or three times but fortunately neither of the boys were injured.

It is reported that the Overland car was coming down the wrong side of the street and in an attempt to get out of the way of the big car, the Ford was hit broadside.

Several incidents of the same nature in regard to driving were reported on the Reunion ground road Friday night and in every case the description answered to that of the Overland car. Such driving as this should not be tolerated on the streets of Mexia, and if such is witnessed it is the duty of the citizens to report it to the proper authorities.

NOTICE, I will dip cattle at Reunion Grounds Tuesday, Sept. 16th., Springfield, Wednesday 17th., L. C. Estes Vat Friday. For the convenience of those who are too busy to dip on above dates I will leave the vat charged for three or four days. Will give any one a special dipping at any vat not included in quarantine. NEWSPAPERARCHIVE®

15 New Studebakers

Including an entirely new type of car—the DUPLEX-PHAETON

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before.

Three completely new chassis!.. 15 completelv new bodies!
Completely new lines! . . . Marvelous new performance
Completely new *open-closed* car!

Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines

Real balloon tires, not low-pressure cords. Sizes—21"x 5.25" to 20"x 7.30".

New Studebaker automatic hydraulic 4-wheel brakes—optional.

New values, never before equaled—even by Studebaker!

TODAY Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American body designers without following precedent or imitating or adapting what has been done before.

Today Studebaker proves that a practical and beautiful type of car can be made to combine the pleasure and performice of the open car and the comfort and protectic of the closed car—and this without excessive price or compromised quality—a car "duplex" in openar smartness and convenience and closed-car elegance and comfort—and at a price no higher than that of an open car!

Today Studebaker proves, in its new Standard Six Duplex model, that six-cylinder car of fine quality, great power, plent of room and impressive appearance can be made and marketed at a price of $1145.

Today Studebaker proves in its new Special Six and its Big Six Duplex models that the ultimate in all the essential features of quality in five- and seven-passenger cars can be made and marketed at a price of $1495 and $1875 respectively.

And this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in the country, 70 per cent of which is new within the past six years.

Every modern method of manufacture and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the highest grade closed car body—framed in selected hard woods, cushioned with the best cushion work, upholstered in fine mohair fabrics and fitted with expensive appointments—can be made and marketed on superlatively good chassis at moderate prices.

This is now possible by the new $10,000,000 Studebaker closed body plants. Studebaker designs and builds all its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis

THE STUDEBAKER STANDARD SIX—113 in. wheelbase, 5-passenger. Engine, 3⅜x4½, 50 b.h.p.—with different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe-Roadster, Coupe, Sedan, and Berline.

THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, 5-passenger. Engine, 3½x5, 65 b.h.p.—with 5 different bodies, including Duplex-Phaeton, Duplex-Roadster, Victoria, Sedan, and Berline.

THE STUDEBAKER BIG SIX—127 in wheelbase, 7-passenger. Engine, 3⅞x5, 75 b.h.p.—with 4 different bodies, including Duplex-Phaeton, Coupe, Sedan and Berline.

The Ten New Closed Bodies

COMPLETELY NEW BODIES—each car a masterful expression of modern style, yet distinctly original in beautiful lines—individual, conservative, impressively elegant, but crisp enough in its departure from imitation to be entirely distinctive.

The Five New Duplex Bodies

(A new type of car originated by Studebaker to take the place of the open car)

SO ENTIRELY NEW and so different from any other body ever made before that a new name had to be created—the DUPLEX.

The upper structure is shaped in pressed steel and covered with the finest water-proof fabric. The steel construction permits the use of another radical Studebaker creation, the new roller enclosing curtains. There is the permanent beauty and durability of the steel top plus the instant convenience of the roller curtains.

Thus Studebaker engineers have solved the open-closed car problem.

The buyer who wants the airiness and practical convenience of the open car and who also wants the comfort, protection and beauty of the closed car can now get both in one car and at the price of an open car.

One moment the new Studebaker Duplex is a beautiful open car—a touch of the hand to the overlapping roller curtains and it is a snug weather-tight closed car.

Balloon Tires

Genuine and full size balloon tires on all models. Every part that functions with the tires has been specially designed for balloon tire equipment—steering gear, steering knuckles, spindles and springs, even the fenders.

New Lacquer Finish

The Standard Six closed bodies are beautifully finished in semi-glaze, satin lacquer. The hood and lower panels are in light gray, the upper panels in darker gray. Hairline parallel striping in oriental red. Burnished nickel radiators, jet black fenders, light golden finished, natural wood wheels and big balloon tires are contrasting touches.

The Standard Duplex Models are finished in glossy jet enamel—lasting, lustrous and wear-resisting.

The Special Six and the *Big Six* Duplex models are in soft satin lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the sparkle is added with burnished nickel radiators and light, natural wood wheels in contrast with jet black fenders and big, black balloon tires.

More Power

The universally famous Studebaker engine is more than ever a peer among power plants. The crankshaft is heavier. ALL surfaces are perfectly machined to exact dimensions and balance. The bearings are larger.

The engine is in unit with the clutch and transmission. There is a force feed lubrication system with clean, strained oil always in reserve. There are many changes and improvements which result in MORE POWER, MORE QUIETNESS and SMOOTHNESS and STILL BETTER PERFORMANCE in every way.

New Brakes

Larger, more powerful, simpler and much easier operated two-wheel brakes. An entirely new emergency brake is operated from the instrument board, instantly convenient to the driver's hand where it simplifies the control and frees the floor board from the old style lever. It acts on the propeller shaft. There is uniform pressure at each wheel—equalized through the rear axle.

The regular two-wheel Studebaker brakes with their simplicity, safety and great braking power are entirely adequate.

But Studebaker 4-Wheel Hydraulic Brakes (with disc wheels) can be furnished as optional equipment on all models at extra charge if desired.

Studebaker 4-Wheel Brakes have three exclusive features not found on any other system in this country.

1. Braking pressure is furnished by hydraulic power automatically developed. A light touch to the braking pedal controls its great force like a touch to the throttle controls the power of the engine. This feature will appeal instantly to women.
2. The front wheels cannot lock.
3. There are only two adjustments required—one at each rear wheel. The front brakes are permanently adjusted at the factory. The oil in the transmission is used to generate the hydraulic power; the action of the gears and the pump keep it in circulation: it cannot congeal or freeze. Braking power is always instantly ready—in winter as well as in summer!

New Ease of Operation

New Ease of Gear Shifting—New power in braking, a touch to the pedal exerts a giant's strength at the rear wheels—New clutch action, soft as velvet—A new steering gear and steering knuckles designed for balloon tires—A new grouping on the dash, including ALL the usual instruments plus a gasoline gauge that always works accurately.

Lighting Control Switches—all on the steering wheel—instantly handy.

Automatic Spark Control—No manual attention required, so the lever is eliminated. Automatically governed to all speeds with the precision of machinery.

And the Details

The new cars are longer and lower to the ground. The line from the radiator to the rear is nearly straight. The wheelbase of all models is increased.

The fenders are much wider and deeper crowned to cover the width of the tires. They fit more closely over the wheels. The rear fenders are long and gracefully curved into the running boards.

The radiators are high and set low in the frames and convex curved just below the filler cap. The design is strikingly original and beautifully distinctive.

Entirely new head lamps and cowl parking lamps designed by Studebaker—artistically appropriate and in perfect keeping with the originality of the body and fender design.

Deeper, stiffer frames, more cross members; shorter, flatter springs for balloon tires. All bodies lower, all roomier, better and more comfortably cushioned. Seats are lower, backs and sides are higher.

Look Forward Into Next Year

The new Studebaker is here today! And no matter how sweeping your ideas of what a new model should be this car will satisfy you. It will thrill you with the very newness and originality of its beautiful lines!

You may not be in the market now, or even this year. But to see the new Studebaker is to look forward into next year—and the year after! SEE IT TODAY!

LIMESTONE CO. TEACHERS MEET IN GROESBECK PAST WEEK

(Groesbeck Journal.)

More than 225 Limestone county teachers have been in Groesbeck since Monday attending the annual meeting of the Limestone County Teachers' Institute. For the past several years the institute has been held in Waco jointly with several other counties. At the meeting last year an effort was made by County Superintendent Mrs. Cora Ferguson and Mr. J. E. Farrow, Secretary of the Groesbeck Chamber of Commerceto have the institute meet in this city in 1924. The teachers accepted the invitation of Groesbeck at their meeting last year and have spent the entire week here.

A very interesting program was arranged for the meeting which included several prominent speakers, chief among whom were: Mr. Camp, representatives of the Texas Outlook, the state teachers publication; Mr. Woodruff of Texas university and Rev. Murray A. Travis who spoke Wednesday on the subject "Community Center."

Perhaps the most important action taken by the institute this year was the organization Wednesday of the Limestone County University interscholastic League. The following directors for the league were elected:

Director General—Supt. Puckett, Mexia.

Director of Athletics—Supt. D. M. Major, Groesbeck.

Director Declamation—Miss Agnes Unger, Forest Glade.

Director of Essay—Mrs. M. H. Martin, Groesbeck.

Director of Spelling—Mr. Dupree, Personville.

Director of Music Memory—Mrs. W. W. Brown, Groesbeck.

Director of Debat—J. O. Black, Tehuacana.

Mexia was selected as the place for holding the meet next year and date was set for the fourth Friday and Saturday in March. Every school in the county will be represented at this meet.

The following is the faculty holding the institute:

Mr. W. I. Woodson, M. A., Professor of Education, Southwest Texas Teacher's College, San Marcos, Director.

Miss Mamie Patrick, B. A., Primary Education, North Texas State Teachers College, Denton, Primary Supervisor.

Dr. O. B. Douglas, M. A., Professor of Educational Psychology in State University, Austin, High School Supervisor.

Mrs. Maud W. Gordon, Intermediate Supervisor of Houston Schools, Houston.

Entertainment for the visitors has been provided by the different civic organizations of the city under the direction of Mr. J. E. Farrow, Secretary of the Chamber of Commerce and among other things has consisted of free passage to the Yale Theatre, a visit to Limestone County's new court house now under construction, and a big barbecue at the new municipal park now under construction.

ING.

Postmaster Isidore Newman has been requested to warn the public against the practice of mailing letters at the trains, because in many cases the mail is delayed from 12 to 24 hours by being carried beyond the place for which it was intended, the train men do not have time to work up the drop mail between stations.

The public is requested to mail all letters and parcels at post office, 30 minutes before train time and attention is again called to the fact that all night mails should be deposited in post office by 9 o'clock.

Rids White House of Bug Brigade.

Victor in a battle with cockroaches and water bugs which infested the White House at Washington, P. F. Harris, expert vermin slayer, drew the attention of the country. More than five pounds of insects were found to have comprised the total casualities after the offensive.

NOTICE TO BATHERS!

After Sunday, September 14th, the Bath House at the Reunion Grounds will be closed. All those desiring to take the last dip of the season should come out Sunday. (11t3)

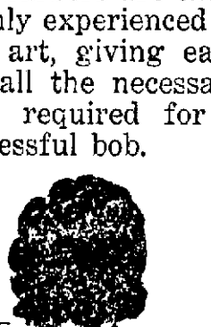
HAIR BOBING

AN ART

—Not every barber can bob ladies' hair; it takes training and the proper equipment. Our barbers are thoroughly experienced in this art, giving each cut all the necessary time required for a successful bob.

—Then we are prepared to give Rain Water Rinse, Shampoos, Marcels, Curls and within a few days will install a Permanent Waving Machine.

—Come to our shop for your work. Ladies department separate from men's.



Your Hair Will Be Cut Right at This Shop. TRY US NEXT TIME!

BARBER SUPERIOR SERVICE SHOPS

From the People

DOES A HEN SIT OR DOES SHE SET?

Mexia, Sept. 12, 1924.

Editor Mexia News:

In my letter in Thursday's News, in referring to the peculiar "logic" of Robin and Bob, I dramatically exclaimed, "O, Solomon! O, Socrates! O, Robin and Bob!" but through an oversight you had it "O, Robin and rob." You no doubt sub-consciously had in mind the chief characteristic of the methods used by the "delegate grabbers" at the Austin convention, which probably accounts for the error.

Where I referred to a certain noted Texas politician as "wishy washy Mac," meaning of course that he is unstable politically, you set it up as "whiskey mash Mac." Now, I never would call anybody that—after an election is over—and I am at a loss to know what could have suggested such a radical error as that, unless you were sub-consciously thinking of some of the "full democrats" who are now in real control!

But worst of all, your version of my original text said "they sat a bad example for the rest of us." I did not say "sat." I said "set." Set means to place or put in any position; to fix; to place a thing aside or up, as a standard; to compose, as type; but sit means to rest on the lower part of the trunk of the body.

Sat is the past of sit. A man never sat an example for us, unless by example we mean "the lower part of the trunk of his body." Our Groesbeck friends, for whom I have a warm friendship in spite of good humored thrusts at one another, frequently sit down; and by sitting down they set us an example. They sat down on us at Austin, and by so doing they bolted the Groesbeck convention and thereby set up—not sat up—a bad example for us to follow. Let's not set a bad example for them by saying sat when we mean set. Your linotypist sits down, whenver he can, but he sets type. He is caller a typesetter, not a type. He is called a typesetter, not a eggs but she sits down on them to set them. By sitting down she sets us an example—which we frequently follow.

I am writing this to set—not to sit—the record straight.

Yours truly,
BEN B. HUNT.

Tonsils and Adenoids

Letter No. 6

Giving the Child a Better Chance.

IS YOUR CHILD HANDICAPPED?

Does your child's nose run or is it sore? Does the child snuffle?

Are the eyes red? Are there fever sores or eczema around the nose and mouth?

Does the child seem dull? Does it stand and look at you with open mouth?

Does it put its hands to its head as though it had earache? Does it take cold easily?

Does the child sleep with its mouth open? Does it snore?

If the answer to any of these is Yes, ask the doctor if the child has adenoids or large tonsils.

Tonsils

Tonsils often become diseased and stick out into the throat. Sometimes they do not get any larger but become diseased and contain little cups filled with infection. These diseased tonsils often hold poisonous germs which may cause throat trouble or may be carried to other parts of the body and cause sickness.

Adenoids

Adenoids look like a little head of cauliflower, colored red. They grow in the back part of the throat where the nose and throat join, and can be seen only by the doctor with a special mirror. They stop up the nose and make the child breathe through its mouth.

When the child breathes through the mouth, much dust and many germs get into the body.

Adenoids should always be removed.

Earache

Earache often means that the child has adenoids. Earache always means that the child is in danger of getting deaf. Also the child is in danger of getting a running ear and there is danger of the disease reaching the brain. A running ear should always be treated by an ear doctor, it will not get well without good care.

Large Glands

Often poison gathers in the nose, throat or ears. The glands of the neck try to carry this poison away. This overwork makes the glands enlarge and lumps often form.

Other Diseases

Diseased tonsils and adenoids hold poisonous germs which frequently are carried to other parts of the body and cause sickness. Rheumatism and heart disease often come in this way. These germs also cause stomach, bowel or lung diseases.

A child with adenoids and diseased tonsils can get diptheria, scarlet fever, measles and whooping cough very easily. Such a child will have the disease worse than a child who has had adenoids and diseased tonsils removed.

Stupid Children

Often children who seem stupid and who do not learn rapidly can be made healthy and normal by the removal of diseased tonsils and adenoids.

It is wrong to blame children for backwardness when they cannot hear, see or smell properly or are suffering from pains from diseased tonsils or adenoids.

Have Them Removed

Adenoids and diseased tonsils can be removed at any time of the year. Don't wait, thinking they will get better. It is dangerous. The child may lose its hearing if you put it off.

Watch carefully for the danger signals—mouth breathing and earache.

Always go to a good doctor at once.

Will be glad to make examination free and explain in detail.

Groesbeck Working To Beautify Park Near County Seat

J. E. Farrow, Secretary of the Groesbeck Chamber of Commerce, speaks with considerable pride over the Groesbeck city park about two miles southwest of the county seat. The spot he declares to be unrivalled in scenic beauty in this section of the state the rustic advantages having been utilized well in the plans for further beautification by the park committee. The citizens of Groesbeck, he says, are expending quite a sum in park improvements and when they finish, the site will ha adjuncts necessary to a wo amusement center.

MEXAI SCHOOL ADVANTAGES OFFERED TO ENTIRE COUNTY

TRIP THROUGH THE HI SHCOOL INSPIRES ONE WITH THE BEAUTY AND EFFICIENCY OF INSTITUTION

Leta Mae McCravey.

The Mexia Public School System, which consists of two complete grammar schools and one high school of first rank, is guided in its progress by a superintendent of marked ability, who is supported by a board of education of progressive ideals, and followed by an executive and teaching staff of loyal, intellectual men and women. Mr. C. A. Puckett, ex-student of Harvard University and a man whom the educators of Texas recognize as an authority as an executive, serves as superintendent. He is aided in carrying out his plans by the Mexia Board of Education: W. M. White, President; A. D. McDonald, Vice-President; David Murphy, Secretary; A. H. Berry, Gene Sinclair, R. B. Bass and Jack Womack. The principals who have been so well chosen by these men are: G. W. Perkins, Principal of McKinney Street Grammar School; Mrs. Georgia Bergerson, Principals of the Sampter Street Grammar School; and R. M. Andrews, Principal of the Mexia High School. Before a teacher can qualify for a position in the elementary school system, he must have had two years of college work and at least two years of experience, while all High School teachers have had teaching experience and possess at least one college degree.

In each grammar school all grades from the first through the seventh are taught in comfortable, well equipped buildings. All work is carefully supervised, and the student completes his work in the grammar school well qualified for entrance into the high school. Here he finds himself matriculated in a school which has to its credit at present thirty-one affiliated units:

When one considers the beautiful, well equipped [illegible] building in which the [illegible] work is carried on, [illegible] given here [illegible] Upon one [illegible] the [illegible] good [illegible] the [illegible] laboratory [illegible] domestic science room, he is not surprised at the [illegible] the Mexia High School pupil [illegible] Upon entering the [illegible] one [illegible] planning the [illegible] wardrobe and planning and preparing the proper foods for their [illegible] and that the boys are able to [illegible] and sofa of their [illegible] and then [illegible] and [illegible] pupils [illegible] he will [illegible] in the [illegible] [illegible] that the boys are not only [illegible] [illegible] the floor, in close proximity to the [illegible] where each student may purchase warm, wholesome food for lunch at a very nominal cost. This hall is [illegible] for lunch and [illegible] at work for the remainder of the day.

If the visitor would then continue his journey to the third floor and enter the spacious library decorated with pictures to please the most refined taste and contained upon its shelves two thousand volumes of the best reference books, including poetry, fiction, biography, history, and drama, he will consider it only the natural thing for such a school to possess the only honor unit in the high school curriculum, a fourth unit in English, and to find inspiration sufficient for successfully sponsoring three school publications: The Me Hi News, the school magazine, and the annual. He would also find ample reasons for the present standing in mathematics, history, and the language (Latin and Spanish).

In another section of the building is found the gymnasium, one of the most prized possessions of the school. It is here that the girls get some of their most valuable training for physical development. Before they take up this work, however, they are given a thorough physical examination free of charge. In this way, any undiscovered physical defect may be brought to light, and, by careful training, corrected.

The interested person might then walk into the beautiful auditorium, seat himself in student assembly, listen to the music from the baby grand piano which graces the stage, bow his head in devotional service, listen to a rousing lecture, or witness the enthusiasm of a student pep meeting. Any one of these experiences would cause himto go away with a keener insight into the spirit of the institution.

It is the desire of the Superintendent, the Board of Education, the teachers, and the patrons of the town to share these advantages with the people all over the county. It is their dream for the Mexia High School to serve as a stepping stone between the elementary grade work taken in the rural districts and college just as surely as it is the stepping stone between their own grammar schools and college. Any student interested in taking advantage of these opportunities may obtain all desired information by writing in to the Superintendent's office and securing the bulletin which will be supplied him there.

Turkey Wins New Place In The Sun

NEW YORK, Sept. 12.—Dr. James I. Vance of Nashville, Tenn., former Moderator of the Presbyterian church in America, returnedtoday aboard the steamship California from a four months' study of conditions in Bible Lands. He visited eight countries on behalf of the Near East Relief and is one of the first Americans since the war to be permitted freely to tour across the whole breadth of Turky-in-Asia. Summing up his impressions, Dr. Vance said:

"I made a special study of the Armenian question and its relation to Turkey. Turkey is coming strong. Armenia is fading out. Turkey is a nation with its face toward the morning. Armenia is a nation without a country. Turkey is Moslem, Armenia, is Christian. Turkey has won, whether by fair means or foul, a new place for itself in the sun.

"On one occasion I traveled by train for three days across Turkey. The trains have no diners or sleeping cars, and there are great inconvenlences and discomforts. But the trip is worth all its risks and dangers. I have rarely seen scenery more picturesque and terrifying.

"While I was in Adana I saw an Armenian who was shot down in the market-place by a Turk. Three bullets went through his stomach and his condition was precarious. A Turk was asked why he was shot, and with a shrug of the shuolders and a lift of his palms replied, 'He is an Armenian!'

"What should be America's attitude to Turkey? Shall we continue to put the 'unspeakable Turk' outside the pall and say he has a bloody heart and a black creed that admit of nothing short of anathemas? One's answer to this depends largely on the people with whom he talks, and I have talked with hundreds.

"Certainly there can be no apology for the Turks' past, and there are those who despair of any sincere and permanent change of heart. Nevertheless, he seems now to be making a desperate effort for a place in the fellowship of nations. It would seem that the Turk might be given a chance, with the understanding that he must bring forth fruits meet for repentance before he can expect the fatted calf to be killed.

"Meanwhile, what of the Armenians? If the Turk is to be given a chance, shall the Armenian be denied a chance?

"If one thinks that the Armenians are a people without a future, he will grievously err. True today they are down and out. They have no country and no nation wants them. In Syria and Russia they have a meagre industrial opportunity; in America only 100 can be admitted each year; and already there are 50,000 too many in Greece. Like Noah's weary dove, the poor Armenian seems to find no place on which to rest the sole of his foot.

"But if you think you can keep him down, you need to think again. He has his faults. He is stubborn and individualistic, but he is industrious, capable, clever in skilled trades, self-respecting, saving and deeply religious. He does not beg and he does not despair. You cannot keep him down.

"The Armenians are a great race, with a fiery-furnace history of 2,000 years during which the common ore has been acquiring the temper of finest seel. I saw a boy drawing a portrait of Washington in one of our Near East Relief orphanages. It was not a bad portrait. The boy is 12 years old and speaks five languages. He is entered for the American University in Beirut next year. There are many others as gifted. The 100,000 Armenian children Near East Relief has been caring for are not the scum but the cream of a great race. They are the survival of the fittest. As I have spoken to thousands of these boys and girls and watched them at their work, I have said 'Thanks to America is far from dead.'

"Their future is not a thing to be settled by theorists. They will settle it themselves, and they will probably be a long time settling it, but in the long sweep of time, they will prove to the world that the greatest American effort in their behalf has been throughly worth while. The completion of this task of training the future Armenian nation confronts America today the real task is just emerging. Near East Relief has become one of the biggest and most pressing humanitarian opportunities in the world today."

ELEANOR MOORE CHOSEN MISS MEXIA FOR FAIR

In a spirited election held this week at the High School to determine which young lady should represent Mexia in the magnificent Pageant of Texas, a crowning feature of the Freestone County Fair, Miss Eleanor Moore received a majority of the votes. "Lady Eleanor" will select from among her friends a "Knight" who will attend her at the coronation ceremony of the Queen, a dazzlingly beautiful culmination of the Pageant. Visiting knights and ladies from every neighboring city and county will make up the royal assembly of which Miss Moore has been chosen a member, and the affair will be staged in the huge pavilion newly enlarged for the occasion. Thousands of spectators will come from far and near to view the beautiful spectacle many cars of Mexiaites among the number. Miss Moores many friends are enthusiastic over her approaching appearance in the Pageant and will attend the performance in large numbers.

New Type Car By Studebaker Is Real Surprise

Rumors confirmed Studebaker will bring out open-closed car embodying new principle and design. To be called "Duplex Phaeton."

SOUTH BEND, Ind., Sept. 14.—A sensational development in motor car design [illegible] is now definitely known will be announced by Studebaker this coming Sunday. The car, which is said to be entirely unlike anything ever offered before, is solution which the open-closed car problem which motorists have known since the "horseless carriage" first came into being.

The name of this revolutionary car, it is known, will be the Duplex Phaeton, and there will also be Duplex Roadsters, combining the outstanding advantages of present-type open cars with the snug comfort and all-weather protection of the closed car.

Besides this new-type car, reliable sources confirm the rumors that Studebaker will announce a new Six and 15 all new body styles.

It is the first far-reaching announcement to be made by this famous manufacturer of fine cars since 1918.

Studebaker, ever noteworthy for its innovations in motor car building, offered several revolutionary changes in automobiles in 1918. Then, in 1918, after a series of additional refinements in its models, Studebaker gave to the world an entirely new model.

Now, in 1924, comes the third cycle in Studebaker progress which has maintained an important influence on the automobile industry as a whole, and on the [illegible] which the public has shared.

News Carefully Guarded!

From a high Studebaker official came advance word today of [illegible] which should prove the outstanding automotive event of 1924.

Exact information regarding the [illegible] is being carefully withheld until [illegible]. And Studebaker officials declared today that there will not be a paper advertisement exclusively to inform the motor car public of the new motor car.

While whispers in motor car circles for several months have connected the Studebaker Corporation with some unusual activity in the way of new types of cars, the statement today is the first [illegible] by the corporation, and comes as a surprise to the general public.

However, it was admitted by Studebaker officials that the amazing new type of car, which is already in process of quantity production at the huge plants here and in Detroit, will be called the "Studebaker Duplex Phaeton". Those who have seen pre-exhibition models say it is the most advanced achievement in motordom, and feel confident that it will supercede the present touring car. Nothing like it has ever been seen on the streets of America before.

Instant closed-car comfort

Imagine riding in an open car, that, in five seconds, at the first hint of rain or snow—becomes a snug, dry, luxurious closed automobile! Women motorists it is believed will be the first to sing the praises of this new accomplishment in motor car designing and construction.

For rumor has it that the new "Studebaker Duplex Phaeton" combines the advantages of the open and the closed in motor cars. Quantity production—plus remarkably efficient engineering and the remarkable Studebaker facilities in modern plants and equipment—will keep the cost low, the price being that customary for open cars.

Besides, it is reported that the new Studebaker Standard-Six will be another instant success. It is a powerful vehicle—bigger and more roomy, with many charming new features. [illegible] the Standard-Six, there will be introduced handsome new models of the Special-Six and the Big-Six.

[illegible] the great Studebaker creative staff of designers, engineers and production executives have worked intensively toward this achievement, said a Studebaker official today. "The fifteen new Studebaker cars to be announced in a few days will make history in the automobile industry, we sincerely believe.

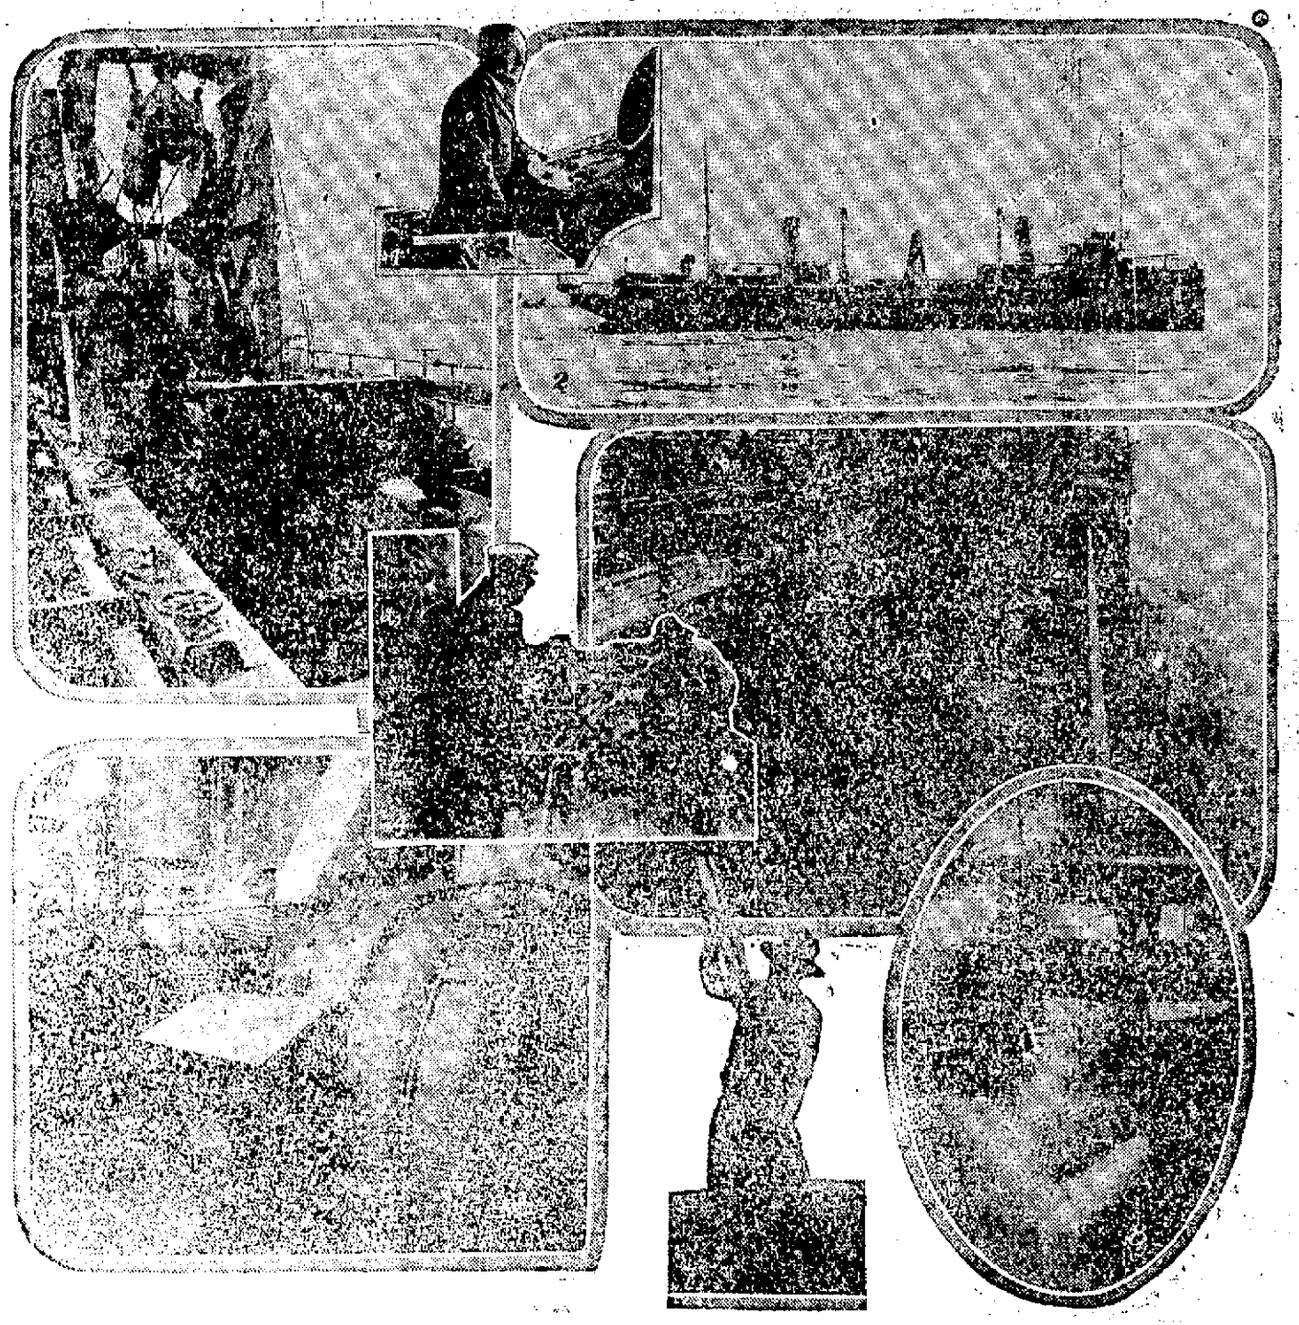
"In design, materials, workmanship, beauty, mechanical efficiency, and durability they set new standards of quality and value. Moderate prices on the new models are made possible by $32,000,000 invested in plants and equipment, 70 per cent of which are new since the War. Hence the savings of most modern methods and operations are made possible."

Fifteen bodies, it is reported, have been designed by Studebaker. All will be built complete in the modern new $10,000,000 body plants here in South Bend. Significant of the new trend in motorcars is the fact that all the new cars weigh from 100 to 200 pounds more than previous models, are longer and lower.

By those who have seen the new models, their beauty is said to be of the most unusual character. Straighter lines, higher radiators of new and distinctive design, higher, body-sides, new lights, curves that are extraordinary graceful, with unusual effects in new colors and finishes are said to be the more outstanding details of appearance that many judges pronounce the most distinguished ever offered here or abroad.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

Four All-Electric Seagoing Dredges Will Soon Be in Operation to Help Keep Principal American Channels Open for Commerce



THE four all electric sea-going hopper dredges that will soon be operated by the U. S. S. Engineers' Corps from the various ports, namely, "A. Mackenzie," at Mobile, Ala.; "W. L. Marshall," at New York; "Dan C. Kingman," at Savannah, Ga., and "William T. Rossell," at Seattle, Wash., to help keep the principal channels open in the North Atlantic, South Atlantic, Gulf and Pacific ports for coastwise and seagoing commerce, and the first of their kind ever built, are illustrated above as follows:

(1) The Ward-Leonard electrical system of pilot house control that enables the master of the dredge to have direct control over the Diesel Electric propulsion equipment, which consists of twin screw Westinghouse 800 hp. propulsion motors supplied with power by three McIntosh and Seymour Diesel engines directly connected to three 700 KW Westinghouse generators which individually or collectively supply power for the propulsion and dredging operations. By turning the wheels mounted on the control station in front of the master and by operating the lever at his right hand the loaded dredge can be operated at any speed up to full speed and maneuvered as required for dredging and safe navigation.

(2) One of the dredges during a dredging test. These dredges move slowly along under their their own power during the dredging operation, and when loaded with about two thousand tons of sand and mud speed at 11½ knots to the deep sea for dumping and at a greater speed when returning. They are designed to operate at congested and distant points of channels where this form of dredging is the safest and most economical.

The principal dimensions and particulars of all the four dredges are the same, namely, overall length, 268 ft. 5 in.; length between perpendiculars, 254 ft.; breadth molded, 46 ft.; depth molded, 22 ft. 6 in.; dead weight, 2,000 tons on a draft of 19 ft. 6 in.; capacity of hoppers, 1,250 cu. yards (usually weighs about 2,000 tons), and a loaded speed of 11½ knots. All four dredges were built by the Sun Shipbuilding and Dry Dock Corporation at Chester, Pa.

(3) The drag, in the mid-ship section of the dredge raised by an electric motor for inspection. During the dredging operations this drag is pulled through the sand, mud etc., at the bottom of the channel, and a motor driven centrifugal pump pumps the dredgings into the four hoppers, or bins, which have doors at the bottom for dumping the dredgings at sea.

(4) Opening the door at the bottom of the filled hopper to dump the sand, gravel, mud and goodness knows what into the deep sea. Sometimes money, relics, skeletons, etc., are recovered.

(5) Two of the hoppers filled with dredgings taken from a shallow channel and ready to be dumped into the deep sea to a depth of a mile or so.

(6) The 800 hp. Westinghouse motor driving the 26 in. centrifugal suction pump that can fill up the four hoppers with water in several minutes and with dredgings, depending upon the class of material, in fifteen minutes to several hours.

(7) Sampling the dredgings for estimating weight, density of material and classification.

(8) Where the sand, gravel, etc., mixed with water flow into the hoppers. The water quickly drains off and flows back into the channel, leaving only the solid matter for conveyance into the deep sea.

DELEGATIONS FROM MORE THAN FIFTY NATIONS; IS TURNING POINT IN LEAGUE

By HENRY WOOD.
(United Press Staff Correspondent)

GENEVA, Sept .2.—With MacDonald, Herriot and Massolini as headliners, to say nothing of Prince Ras Taffari of Ethiopia, and minor notable to fill in the bill, the Fifth Assembly of the League of Nations convened here today for what is scheduled to mark the turning point in the League.

From the tribune of the assembly in the famous Reformation Hall, built to commemorate the 400 anniversary of Calvin, three prime ministers of England, France and Italy have announced their intention of declaring publicly the newer and more important role which the maintenance of international peace.

Delegations were present from over 50 of the 54 states composing the League, while unofficial delegates were present from virtually every state that is not a member, notably the United States, Germany and Russia.

Argentine May Return.

The Argentine seats which have been vacant ever since the Argentine delegation withdrew from the first assembly, continued to stare the president "vacantly' in the face, but assurances were received that before the next Assembly Argentine will in all probability be represented by a full delegation such as she already sent this year to the Internationl, Labor Bureau, which makes up part of the League.

In honor of the three Allied prime ministers, who constitute the highest heads of governments that have ever come to a League assembly, except for te presence last year of President Cosgrave of the Irish Free State, Geneva was a fairyland of banners and flags of virtually every nation in the world. Although the United States is not a member of the League, the American flag rivaled those of other nations for the frequently it displayed. The Assembly delegations for the first time in going to the Secretariat also passed along the new "Quai du President Wilson," which Geneva inaugurated the past year, with its tablet walled into the Secretariat terrace announcing that the name of the quai had been changed in honor of President Wilson, "Founder of the League of Nations."

Many Americans Present.

Incidentally, Americans, comprising not only tourists but representatives of the Foreign Policy Association, the Carnegie Foundation, the Rockefeller Endowment, the World Peace Foundation, the Non-Partisan Association of the League of Nations and other American societies interested in the League, outnumbered by far the foreign visitors of any other nation.

Geneva turned out en-masse to welcome the notables gathered for the assembly.

Epoch-Making Gathering.

That the present assembly will mark definitely the turning point in the League is the declaration of every delegation present. MacDonalds' declaration that the whole future foreign policy of England will be based upon the League! with France openly declaring that she will endeavor to settle her greatest question—namely, that of national security—through the League, and with Italy seeking also a new field international importance through the League, Leaguers declare that the present assembly will be epoch making in the history of the world.

In addition, the present assembly is also scheduled to perfect the arrangements whereby the League will take over from the Allies the military control of Germany, Austria, Hungary and Bulgaria, which alone, it is declared, places largely in the hands of the League and increases immensely the prestige and international importance of the latter.

Most Important Agenda.

Besides the above elements, the agenda of the present assembly is cone of the most important that the League has had to act upon to date. The principal question will be that of disarmament on which a hard fight is expected, especially between England and France.

After four years of investigation and study and effort by the world's leading experts, the League has prepared a treaty of mutual guarantee which it regards as offering the only possible basis on which a reduction of armaments is possible at the present time. While France has come out openly for this project, England on the other hand has declared that it cannot be recommended for adoption, but that she will offer an even better plan.

THE FIRST PRESBYTERIAN CHURCH

Music—Choir
Sermon: "The Lordship of Christ"
Hymn
Benediction

"Loyalty to Opportunity" will be the subject of the sermon this evening at 7:30 o'clock.

"Serving the Sunday School" will be discussed by the C. E. Society at 6:30.

"Readiness for Service" will be the subject for the prayer meeting Wednesday evening, 7:30.

The Women's Auxiliary will meet Monday in the Church at 4:00 p. m.

Get ready: for Church Visitation Day, Sept. 28; for Rally Day, Oct. 5.

The Lordship of Jesus is the basis of Christian life and hope. He is:

Lord of Life—"I am come that ye might have life."

Lord of Mind—"Bring every thought into captivity unto Him."

Lord of Conduct—"Keep my commandments."

Lord of Possessions—"Ye are stewards."

Lord of the Church—"One is your Master, even Christ."

Lord of Heaven—"The Lord He is God."

If you do not crown Him Lord of ALL, You do not crown Him Lord at all.

The State convention in Austin last week was attended very largely by "wets," but they all left the capitol city "dry," due to the thoughtfulness of Gov. Neff and his ranger force.—Kosse Cyclone.

Not Stupid—Handicapped

He *always* failed in school. Yet he seemed a bright boy.

An eye examination disclosed that his vision was faulty. With the right glasses he was speedily promoted.

Is *your* child making all the progress he should?

Have Your Child's Eyes Examined Now.

The good looking and sturdily constructed Wallworth Windsor is especially suitable for children.

TEXAS

My native State! How rich in native lore!
Whose inspired deeds the hearts of men hath found
In other lands, and caused them to adore
Thy broad and matchless realm as hallowed ground:
For Texas hills and dales doth all resound
With tread of heroes feet that made thee great;
Whose sons abide that martyr's blood hath bound
To all the glories of the Lone Star State.

Almighty God gave thee more starry skies
And sent a fresher breeze for summer days
To make thy realm an earthly paradise
Where dreams of wanderer forever strays:
Of all thy sister states, the envied praise,
That nature gave thee more than all combined,
Whose landscape scenes enthrall the eager gaze
With bursts of glad surprise in thee confined.

Old missions breathe that epoch of the past
When o'er thee waved the flag of Mexico,
But patriots broke the tyrant rule at last
And furled that flag of treachery and woe;
For martyr's blood spilled at the Alamo
And Goliad's inhuman butchery
Thy sons are pledged since days of long ago
To make their lives the price of liberty.

My Lone Star State! The glory of thy name
Inspires the noble breast in ev'ry clime
And patriots yearn to emulate the fame
That thou hast won by sacrifice sublime:
Let Freedom's song be Texans sweetest chime
And melody to swell the ardent breast;
Where nature built her masterpiece of time
To bless thy happy homes with joy and rest.

—Owen Friend Watkins.

"DAWN O' THE MOUNTAINS" OPENS THEATRICAL SEASON OPERA HOUSE

When the curtains are raised at the Opera House Monday night the theatrical season will be on in Mexia. Manager Box has secured the Edna Park Players who will present "Dawn O' The Mountains" for three days beginning Monday night. From the telegram which we are reproducing below, Mr. Box is to be congratulated for securing these high class artists for the opening of the season. The telegram is as follows

San Antonio, Tex.

P. W. BOX,
Mexia, Tex.

You are indeed fortunate in securing Edna Park Players for your theater. They are just closing a most successful 58 weeks engagement at our theater. A company of ladies and gentlemen and every one an artist. We wish them luck and hope to have them back again.

Manager,
ROYAL THEATER.

This is the first company visiting Mexia for any period of time to carry their own stage crew, scenic artists and building every bill as a production. A rare treat is promised all who visit the Opera House during the stay of these famous players.

SPARKS PAINTS 2 NEW HOUSES AT COTTON MILL

The work at the new textile mills has been curtailed a couple of days on account of rain. However, satisfactory progress is being made on the buildings. Two cottages have already been completed, for use while the mill proper is being built. These have both been painted and papered by C. H. Sparks, local painter and decorator.

Loafers Get Free Bed In City Jail

Loafers on the streets after midnight, without visible means of support, usually wake up the next morning in the Mexia city bastile. One night recently, night watchman Jackson picked up eight men who had "put up" for the night in Central Park. They protested against changing rooms but he insisted and they accepted the invitation. It is believed that this procedure and alert officers are adding much to the safety of Mexia homes when all is quiet in the business streets and nothing going on but lights for electric lights.

Some Interest Here In Big Fist Fight

Considerable interest was shown here in the fight between Firpo and Wills Thursday night. The radios had difficulty in connecting up with Doyles Thirty acres and The Mexia Daily News supplied first news of the fight and the results to the public, the balleting being posted at the Cox-Forrest Drug Company where scores of fight fans had assembled for the information.

Great Evangelistic Company begins revival at First Christian Church next Friday evening at 730.

C. R. L. Vawter is an evangelist of more than national reputation and he has with him three talented helpers. Mr. Howard T. House is a real musician, not only at the Piano, but also with the Organ Chimes, and the Marimba-Xylophone. Mr. Will D. Reaves is Baritone Soloist, and Miss Clarkie Reaves is Soprano Soloist. Mr. Vawter will direct the music, and while the music will be inspiring and appreciated, yet it will not overshadow the other part of the service, but rather prepare the hearts of the people for the great Gospel messages that Dr. Vawther will deliver in his appealing and convincing way.

Remember that the first service is next Friday evening at 7:30.

G. T. REAVES, Minister.

Miss Betsye Jane Walters who has just finished a course in Dramatic Art and Expression in Cumnock School of Expression will open her classes September 15th. For information call 306-J.

LONGHORN COACH EXPECTS WET FALL FOR FOOTBALL

By MOULTON COBB

AUSTIN, Texas, Sept. 12.—Doleful Doc Stewart, Longhorn football coach, expects a wet fall. The vanguard of his football squad arrived Sunday, and he gave the athletics their first exercise Monday afternoon by taking them out to Barton Springs and making them swim for an hour. This is the first time a University football coach ever started off the season with a swimming match.

Although fall training did not start until Wednesday, many of the enthusiastic athletes came down early to get off to a good start. Blue Smith, who has been reported as not returning to the University, was here eagerly Monday morning hunting for his new equipment. He is being counted upon to be a regular backfield performer if he can develop his defensive playing.

Frank Dayvault, who also was not expected to return, was in Austin Monday afternoon, but did not announce whether he would return to school. This will be his last season if he decides to come into the fold.

Matt Newell, who was laid up with injuries in the Thanksgiving games, is back in the best of condition. He may play an end position this fall.

Clint Slover, a six foot four member of last year's freshman team, came in Sunday night. He is off about fifteen pounds in weight, but otherwise in good condition.

Lester Settegast, a member of last year's squad; Bertie Foster, who will try for the quarterback position, and Harry Pfannkucke, a big center, were among the early arrivals.

Ed Bluestein, star of last year's team; Alex Waite, who came here last fall from South Carolina, and E. J. Stewart, who comprise the Longhorn coaching staff, are all here with players.

WESLEY-WESTMINSTER GAME TO BE PLAYED ON SATURDAY

The game between Wesley College and Westminster which has been reported to be played here on Friday Sept. 26, will be played on Saturday, Sept. 27th. instead.

The High School will probably have a game arranged for Friday the 26th. of this month but as yet it has not been decided.

L. E. KOLLMAN MOVED TO WESTERN TEXAS

L. E. Kollman and family left Saturday for Hondo, about forty miles west of San Antonio, where they will make their home. We are loser by the removal of this good family from our city, but wish for them prosperity in their new home.

Rain Washes Mud From New Alleys Into Main Streets

Following the paving of several blocks of alleys in the business district, the early part of this week, when there was nary a cloud in sight and the fierce rays of Sol were unobstructed, the Uvalde paving company had workmento scatter dirt over the concrete and then moisten down with an all night stream. Friday night about the time the work of wetting down the mud on top of the contract in Womack Lane, the rain took up the work and has carried in on ever since. Mud from practically all the alleys has washed in great heaps out in the streets from these alleys, many spots are left with no sand coating. It is thought that the alleys that have been paved may be opened to traffic in a few more days, while the work of paving in alleys South of Commerce street will proceed as soon as weather permits.

Tom Walker of Fallon states that his community received a drenching Friday and that turnips are going to be fine this fall.

Charlie Mason was a Groesbeck visitor Friday.

ON WITH THE HUNT!

THE WORLD is full of hunters running down facts, capturing facts, taming facts, making facts work for them—and for you. Edison setting traps for voices . . . Marconi stabbing at the sky . . .

You, too, are hunting facts. Theories won't light your home, burn in your furnace, tick off time for you, clothe you, feed you, grow in your garden, carry you to work.

Facts will. You are hunting facts when you read the advertisements. Facts about products, what they are, their worth, how long, how willingly they will slave for you.

When you buy, you want to buy facts—certainties of satisfaction.

Advertisements contain no vague theories or dreams. In their frankness is nothing to confuse. They give you facts. They give you your best ammunition for getting hold of more facts.

Use them. Read them every day.

Advertising removes all risk from buying.

WEEKLY HIGHWAY REPORT OF ROAD CONDITIONS IN STATE

Showers throughout the State, but State Highways passable at all points. Few heavy rains reported.

Texarkana to Gainesville.

Take State Highway No. 5 from Texarkana to Detroit through New Boston, DeKalb and Clarksville this highway is graveled and passable at all times. From Detroit to the Lamar County line, under construction, detours to be expected. From the Lamar County line to a point 1 mile west of High concrete pavement. From this point to the Fannin County line, graded black land road impassable after continuous rains.

From the Fannin County line to a point 2 miles west of Dodd City, concrete pavement. From a point 2 miles west of Dodd City for 1.2 miles there is a gap of graded black land road between the concrete and old gravel road. West of Dodd City 3.2 miles through Sherman to Southmayd, gravel road. From Southmayd 4 miles west, No. 5 is a well graded land road passable except after continuous rains. From a point 4 miles west of Southmayd to the Cook County line, gravel road, passable at all times.

From the latter County line through Woodbine to Gainesville the highway is sand and clay soil, which is rough in places but passable at all times.

Gainesville to Ft. Worth.

Take State Highway No. 5 via Lindsay to Ringgold. Then take State Highway No. 2 to Ft. Worth.

From Gainesville to Lindsay is a graveled road in good condition at all times. From here to Montague County line through Myra and Muenster unimproved black land road, muddy after rains. At the present time it is fair condition. From the Cook County line to Saint Jo in Montague County the highway is unimproved and becomes heavy during the rainy weather. From the latter place to Nocona the highway is unimproved and is impassable to heavy loads during continuous dry weather due to the deep sand. From here through Ringgold there is a clay soil, passable at all times.

State Highway No. 2 gravel via Decatur to Tarrant County line. Construction work between Wise County line and Decatur. Hard surfaced road from Tarrant County line to Ft. Worth.

Gainesville to Amarillo.

Take State Highway No. 5 over gravel road to Lindsay. Black land unimproved roads from here to the Montague County line through Myra and Muenster, impassable after heavy rains. From the Cook County line to Saint Jo in Montague County the highway is unimproved and is heavy after rain. To Nocona the highway is unimproved at times impassable to heavy loads during dry weather or after continuous heavy rains. From here to Ringgold good clay soil, passable at all times.

From Montague County line to Henrietta the road is an earth road fair except after heavy rains. West of Henrietta to Vernon after heavy rains. Through Wichita Falls, Iowa Park and Electra a concrete highway is in first class condition. Thorugh Harrell and Oklaunion road is graded dirt, passable except after heavy rains. Through Vernon to the Pease River bridge concrete road. Highway under construction to Tolbert. A detour is necessary here. Unimproved road from here to the Hardeman County line; this is passable at all times but heavy after rains.

The highway through Chillicothe, Quanah, Acme and Goodlet unimproved, but passable, except after heavy rains.

Thirty-three miles across Childress County graded and in a fair condition. The same condition exists in Hall, Donley and Armstrong Counties. From the east County line of Potter County asphalt road to Amarillo.

Amarillo to Texline.

Hard surfaced highway out of Amarillo on State Highway No. 5. For 22 miles south of the County line graveled and dirt road fair—always passable. The highway across Hartley and Dallam Counties, distance of 42 and 37 miles respectively is a graded dirt road in good condition.

Austin to Cisco.

Take State Highway No 2 as far as Waco, over hard surfaced highway, except for a few miles of gravel roads. From Waco to Meridian take State Highway No. 67 and continue on this highway as far as Eastland. Then take hard surfaced road, State Highway No. 1 to Cisco. Rough roads will be encountered between Meridian and Dublin, but this is graded road and passable at all times.

San Antonio to Medina Lake.

Take State Highway No. 3 over 23 miles of asphalt. Balance of road good gravel.

TWENTY-FIVE YEARS AGO.

While going through some old papers at Bighill Saturday, Murray Darwin ran across a copy of the Mexia Herald-Echo of date Sept. 29, 1899, A. M. Kennedy, editor. The paper contains an account of the killing of Mr. Darwin's father (T. C. Darwin) by Emmet Davenport, a cousin, the trouble coming up over some cotton pickers, and which occurred a few miles northwest of town. The matter is well remembered by all of our older citizens and it would serve no good end to go into the details of the said affair at this time. In looking over the paper this editor finds several items that he remembers well. One is, William Jennings Bryan was the Democratic candidate for president; John McDonald was tax assessor; H. E. Ellis was candidate for theater; Major N. P. Houx got married; Will Dennis was stabbed by Luther Herod; W. O. Ferry sold the Herald-Echo to A. M. Kennedy. An advertisement offered men's suits at from $1.00 to $10,000. Cotton was selling in Mexia for 6.60 cents and was thought it would go to 7c by week end Cotton seed were selling for $8.50 per ton.—Thornton Hustler.

American Education Week will be observed this year November 17-23. Copies of programs may be had by addressing the Commissioner of Education, Washington, D. C. A leaflet containing suggestions regarding the observance of the week will be issued by the Bureau of Education in September.

Furs to Win Miladys Favor

The fur coat each year becomes a more indispensable part of the well dressed woman's wardrobe. Its cozy warmth imparts such a luxurious feeling of well being to the wearer. And how becoming are soft rich furs wrapped tight about the throat! They seem to lend a certain radiance and delicacy of feature to every face.

Nowadays to be smartly dressed is to appear and to be most suitably dressed for any occasion. Surely nothing could be more suitable with which to meet the bleak cold winds than warm soft fur fastening close about the neck.

New Requirements.

But for the very reason that it is worn so much—as much for smartness as for comfort the fur coat must meet certain requirements. It must be as supple and graceful as a cloth wrap, and it must conform to every whim of fashion's dictates.

Lines of slendor youthful grace are the keynote of this winter's smartest furs. It is perfectly wonderful how furriers have learned to handle furs and make them into the exquisitely shapely models which the fall mode demands.

As a fur coat is usually chosen for more than one season's wearing, it is safer to select it for its graceful elegance of line rather than a too startling novelty of detail, though doubtless it must express the very spirit of the mode.

The Jacquette.

The well dressed woman favors the smart, youthful jacquette for daytime wear. After all there is something so swagger about it as one walks jauntily down the avenue on a frosty morning. This year's jacquette has a tendency to have just a little more flare than formerly.

The Long Coat.

Doubtless the coat which reaches to the bottom of the skirt or within a few inches of it is the very newest and smartest for winter wear. After all, if one can afford only one fur coat, the long model is probably the safest choice. For the long model is the only one which is suitable for luncheon or afternoon wear over more elaborate frocks. And, of course, for evening it is indispensable.

These long coats are most popular in straight line wrappy models. These wrappy models give such a delightfully slender grace that their popularity is far from surprising. Now and then a slight circular flare is introduced at the hemline, particularly in the front. The shawl collar is making an appearance on many newer coats, but its vogue is by no means great enough to threaten the smartness of the choker which is so comfortable and which outlines the face so becomingly.

New Sleeves.

Perhaps the most interesting development in the new fur coat mode is the fascinating variation which is to be found in the newer sleeves. The gracefully flowing bishop sleeve is still at the heighth of favor, but it is a bishop sleeve with variations. The little silk inner cuff which has been a useful but far from beautiful windshield is now made of fur with a tight little fur cuff. Sometimes the sleeve is slit on the outside from the wrist almost to the shoulder and a charming puff of a contrasting fur is introduced.

However, the very smartest new sleeve is the puff sleeve. The sleeve is about as loose as a bishop sleeve from the shoulder to the elbow. Then a few inches below the elbow it widens into a puff to be caught into a cuff at the wrist. Though some of these cuffs are tight many of them leave a few inches to spare.

The Favored Pelts.

The short haired furs are enjoying great popularity this season. Broadtail, mink, summer ermine, squirrel and seal perhaps head the line but countless others are worn by many well dressed women.

Long haired furs—fox, in particular, are used for trimming, but they are used with more restraint. Frequently they are seen in narrow bands that will not detract from the slender silhouette. Now and then bands of a contrasting fur are found at line.

For Evening.

In the evening the whit wrap or cape is quite the We may well hope that thi will not change for white err flattering and so richly luxu. It is utterly charming.

Three-Quarter Lengt

Now and then some exc smart new coats are thre length. If you are just th wear this coat you will b heigth of fashion. Howeve dangerous type, for many wo very ungamly in it.

SWEET CARGO.

(By United Press)

GALVESTON, Sept. 5.—With one ship in port unloading 20,000 bags of sugar and three others due with 60,000 bags more, the Sugarland Industries apparently wil exceed last years import record through Galveston and Texas City. Last year's imports, totalling 622,000 bags up to September 15, established a high record, officials said. This seasons importations covering the same period total 623,000 bags.

David Murphy was a Groesbeck visitor Friday.

R. F. Babb left Friday night on a brief business trip to San Antonio.

Ben B. Hunt was a Groesbeck visitor Friday.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

LONGHORN SQUAD TO SCRIMMAGE MONDAY SAYS STEWART

By MOULTON COBB.

AUSTIN, Texas, Sept. 13.—After three days of strenuous training on Clark Field, Coach Doc Stewart gave his squad of seventy players a much needed rest Saturday. The team will be called together early Monday morning, when scrimmage will be engaged in for the first time this year.

Realizing that many new men must be developed within the next few weeks, the University athletic council has employed a large number of coaches to assist gloomy Doc Stewart. Clyde Littlefield the regular track coach; Alex Waite, an assistant football and track coach; Curtis Alderson, with Austin high school last year; Ed Bluestein, a star of last year's team who was graduated in June, George Luhn, another member of last season's squad, and big Tom Dennis, former Longhorn player but more recently dean of Meridian College, are all assisting in coaching the team. Alderson and Dennis will be in the University this year, but are ineligible for intercollegiate games.

When the Longhorns line up for their game with Southwestern University September 27, many new faces will be on the team. Many players who heretofore have never been on a University team are showing promise of making the team this fall. Clint Slover of Whitesboro, who is the tallest man on the squad, measuring six feet and four inches, probably will be used in the backfield or at end. He is a transfer from Austin College and last year was on the freshman eleven. Fred Thompson, a member of last year's freshman baseball team, is going out for football for the first time here, and is a likely looking prospect for the backfield. Vernon Schuhardt, who taught school last year, will give somebody a race for a backfield job. Stuart Wright of Dallas, a transfer from Dartmouth, has a good chance to make the grade. Maurice Wastallter of Eastland and Tom Young of Beaumont, members of the freshman team last year, are showing up well in the backfield.

K. L. Berry, who was with the Longhorns before the war, is trying for a tackle position, but it is doubtful if he can come back and compete with the younger boys. Murray Moore of Electra, another 1923 freshman, may earn a guard position. Other linesman who are new to Longhorn fans include John Terrell of Austin, Norman Henne of New Braunfels, Jack Mobley of Houston, Henry Grun of Yorktown, Clarence Rundell of Austin and Bob Waite of Reynoldsville, Pa.

Three of the experienced players, Lester Settegast of Houston, Hubert Foster of Waco, and Bruce Shearer of Houston, were injured d first week's practice. Sette Shearer were injured only but Foster, counted upon by the fans to be a regular qu this season, may be out for s

GOOD NEWS FOR PEOPLE WITH BLEMISHED FACES

No better news could be given people who suffer the embarrassment and disappointments which disfigured faces subject them to than that the use of Black and White Ointment, and Soap, are causing a positive decline in such skin diseases as pimples, blotches, eczema, rash, tetter, etc.

Black and White Soap, and Ointment, are already selling at the unprecedented rate of more than two million packages a year, and dealers everywhere are enthusiastically recommending them to their friends and customers. Black and White Ointment, and Soap, are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size.—(Adv.)

NEW LAMP BURNS 94% AIR

BEATS ELECTRIC OR GAS.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. T. Johnson, 609 W. Lake St., Chicago, Ill. is offering to send a lamp on 10 days' FREE trial or even to give one FREE to the first user in each locality who will help him introduce it. Write him for full particulars. Also ask him to explain how you can get the agency and without experience or money make $250 to $500 per month.—(Adv.)

Twelve Southern States Enroll In Modern Crusade To Complete Work for Orphans of Near East

OLIVER J. SANDS, RICHMOND VA. — ALICE HEGAN RICE, LOUISVILLE, KY. — J. B. IVEY, CHARLOTTE, N.C.

DEAN R. L. McCREADY, LOUISVILLE, KY.

REPRESENTATIVE committees from twelve Southern states have completed a study of the humanitarian work done by the American public in the Near East during the post-armistice period. Their reports, based on personal observation abroad, emphasize economy and efficiency as the keynote of this relief and orphanage work, and they recommend the organization of special crusades in every Southern state for the purpose of carrying it to completion.

Mrs. Alice Hegan Rice of Louisville, Ky., author of "Mrs. Wiggs of the Cabbage Patch," reports: "The Near East Relief is not only America's greatest philanthropy, but the greatest single achievement in philanthropy ever accomplished in the world. A unique experiment in practical Christianity is now being tried out in the world with results that may be epochal. For the first time in history a day has been set apart in which Christendom is to put in practice what has been taught for over eighteen centuries. A day has been set apart, Dec. 7, named Golden Rule Sunday, for the strengthening of international friendship and the practical application of the Golden Rule." The money raised on this day will go for the completion of the American orphanage work in Bible Lands. The twelve Southern states are organizing to do their share toward making this movement a success.

Oliver J. Sands, president of the American National Bank of Richmond, Va., makes this report: "I visited Turkey, Greece and Palestine, for the purpose of seeing the American work there, and to consult with representative people regarding the character of the work and method of administration, as well as the necessity for its continuance. I was tremendously impressed with the magnitude of the work and with the wonderful efficiency of the organization. The work in the orphanages, schools and hospitals was of the highest order. Not only myself but other business men who accompanied me came back determined to assist in every way until the last of these little ones has been permanently cared for. The American people must not relinquish this job until it is finished.

Organization of the new "crusade" idea, for carrying through this orphanage work, has been completed in Kentucky, Virginia, North Carolina and several other Southern states. The chairman for North Carolina is J. B. Ivey of Charlotte, while the chairman for Kentucky is Dean R. L. McCready of Louisville. The state of Virginia has pledged itself to the entire support of an industrial training school for 2,500 children, located at Syra, Greece.

Beans Is Beans May Be The Decision

(By United Press)

HOUSTON, Sept. 13.—Canned beans, millions of 'em—the kind that made Boston and the army famous—will play the leading role in a case filed in federal court here.

The Fremont Canning company of Fremont, Mich., is suing Gordon, Sewall Company, Inc., Houston, for $5,000 alleging that they shipped several consignments of beans to the company for which they never received payment.

Canned goods are not new in federal court here, however. More than a year ago certain canned salmon was condemned as being overture for healthful consumption. The salmon was opened in the court room and submitted to the judicial nose of Judge Hutcheson. Whether the court will dine on the contested beans remains to be seen.

ANTS AND BOOTLEGGERS.

(By United Press)

SAN ANTONIO, Sept. 13.—Texas ants have entered a trust with the bootleggers. Millions of the little pests attacked city detectives and prohibition agents here recently as they lay in wait for a brew vendor. After a brief battle the officers capitulated with 87 bottles of beer but minus the manufacturer.

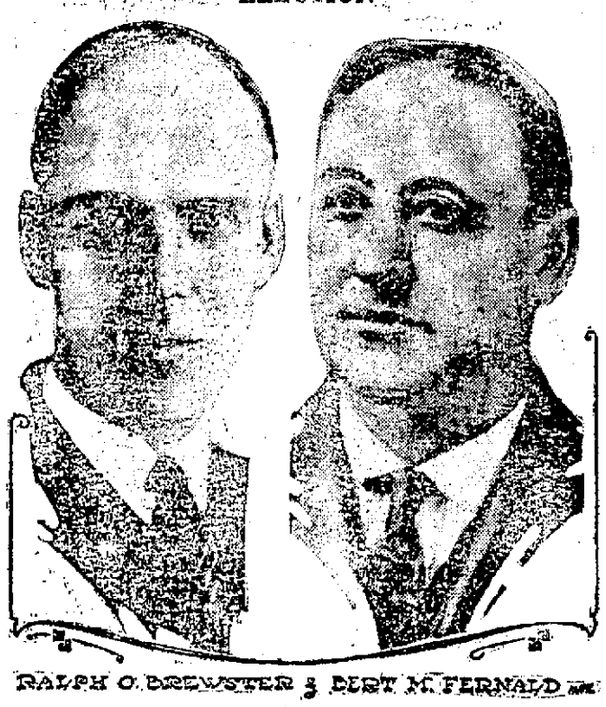
REPUBLICANS SWEEP MAINE OFFICES IN ELECTION



RALPH O. BREWSTER & BERT M. FERNALD

The Republicans drew first blood in annual elections when the State of Maine, long regarded as a barometer of national trend, returned United States Senator Bert Fernald to the Senate and elected Ralph O. Brewster as Governor. The Republican majority was comfortable. Brewster had been endorsed by the Ku Klux Klan.

The NEW THINGS for FALL

HIGDON-McELROY COMPANY

Mexia's Most Popular Department Store

Men's Wear For Fall

WE HAVE THE MOST COMPLETE LINE OF MEN'S WEAR TO BE FOUND IN THIS PART OF THE COUNTRY. FEATURING NATIONALLY ADVERTISED LINES OF MODERATELY PRICED MERCHANDISE.

Mens - Boys Clothing

New Ready-Tailored Suits and Over Coats.

—"READY-TAILORED" is the word for our Men's Clothing is not the kind usually termed Ready-made Clothes. Each and every garment is carefully tailored, from the best of fabrics, on up-to-the-minute models, embracing all that is new for Fall 1924.

—IN GRIFFON CLOTHES, we offer you a splendid selection in both Worsted and Cashmere Fabrics, each suit bearing this label is guaranteed to be All-Wool and to give satisfactory service to the wearer, some with 2 pair pants, and priced this season—

$27.50 - $35.00 - $39.50 - $45.00 - $49.50

—SILVERSTRYPE CLOTHES. Perhaps you never heard of this brand, but whether you have or not if you are a judge of merchandise you will agree with us this is the best suit for the money on the market today. Only one fabric, three colors, all at one price—$39.50. Quantity production on one cloth, that's why the low prices.

—MEN'S TWO-PANT SUITS made of all wool fabrics and a good range of patterns—$29.50.

—Other Suits to show you, priced $25.00 - $20.00 and down to $14.95.

—OVERCOATS, heavy and light weight, Gabardines, top coats, priced $15 - $20 - $25 - $30 and up.

—OUR BOYS' CLOTHING DEPARTMENT OFFERS YOU SOME EXCEPTIONAL VALUES AT VERY LOW PRICES, $5.95 TO $25.00.

Furnishings

—New Neckwear, the kind you'll admire and like to wear. Prices $1, $1.50, $2.00, and up to $3.50.

New Shirts, with or without collars, $1.25 to $10.

—New Gloves, "Hansens", of course, Dress Gloves, Driving Gloves, and Work Gloves.

—New Underwear, Vassar, none better, few as good in light or medium weights for Fall. Union Suits, priced $1.50 and up.

—New Hats and Caps, see our window display of the new things in headwear. Hats as low as $2.50. Campus Caps. See them.

—Traveling Goods, Suit Cases, Gladstones, and Hand Bags, from $1 to $50. Surely there's one in the line you'll like.

Ladies Ready-to-wear

WE HAVE ALWAYS BEEN LEADERS IN MEXIA IN THIS LINE AND THIS SEASON WE'RE BETTER STILL!

—As each succeeding fashion season comes around, women the world over are found anxiously waiting to welcome the New Things in Wearing Apparel.

—Tomorrow, we extend a cordial invitation to the women of this vicinity to view at their leisure, the dominating style trend for Fall '24. Every department of our store is radiant with the New Things for the coming season. And now that the long drouth is broken we can but expect cooler weather, hence the summer wardrobe can now be locked for several months, and each fair lady may very comfortably don out in a new costume.

—CO-ED DRESSES, a snappy line of Dresses for girls and small women in the season's favorite styles and fabrics. Prices $15.00, $16.75, $22.50, and up to $35.

Did you get a CO-ED Style Book?

—BETTY WALES DRESSES need no recommendation in Mexia, the many satisfied wearers talk for them, and this season the special School-Girl collection of 12 Dresses, nationally advertised in leading magazines, at one low price—$25. is the winner of the season.

—HOUSE OF YOUTH DRESSES, for the woman who wants something just a little better in Silk and Wools. Priced $45.00 and up.

—Other Dresses to show you, prices $19.75, $16.75, $12.75 and down to $6.75.

—Though the weather may still seem a bit warm to talk or thing about Coats, yet the most discriminating shoppers are making their selection early. Don't you think your shold, too?

—MILLINERY. An unusually comprehensive showing of Fall Millinery, each hat exclusive, and the line as a whole hard to beat. Priced as low as $2.95 and up to $25.00.

—MEADOWBROOK SPORT HATS can be found at our store, Love Bird Hats, Normandy Hats, and many other well known makes.

—A visit to our millinery dept. will convince you.

New Fall Fabrics

—Our big well assorted stock of Piece Goods enables you to most always find what you are looking for, whether it be an expensive fabric, or something for an inexpensive frock.

—FALL WOOLENS are beautiful, just a bit more coloring, brought out in Stripes, Checks, and Plaid effects, in widths 36-in., 40-in., 45-in., and 54-in. and at prices—$1.50 to $3.95. Before you buy out of town, mail order houses or elsewhere, see what we have to show you.

COOLIDGE THANKS PERSHING FOR HIS SERVICES

COMMITTEES NAMED FOR SYNOD TO MEET IN THIS CITY

PLANS PERFECTED IN LARGE WAY FOR GREAT SESSION

Plans are being carefully worked out to insure real hospitality for the Synod of Texas while that body is in annual session in Mexia October 8-13.

The Rotary club, the Lions club and other civic clubs and organizations have pledged their whole hearted cooperation and enthusiastic support of plans for the entertainment of this important assemblage of leading laymen and ministers of the Presbyterian Church, U. S. A.

The Chamber of Commerce assisted in bringing the 1924 meeting to Mexia, the invitation being extended by H. L. Hall, who pushed the cause to success.

The Retail Merchants Association the Manufacturers and Jobbers Association and the Chamber of Commerce are all interested in the success of the city in taking care of the delegates and visitors, several hundred of whom are expected to be here the week of the Synod and who will widely advertise Mexia to hundreds of thousands of citizens throughout the jurisdiction of the Synod and beyond its borders wherever there are Presbyterians. In pulpit and press, the event here will be given wide publicity.

Every section of Texas will be represented at the conference, as well as parts of other states.

The accessibility of Mexia and the reputation of the city will bring more than the usual number of delegates and visitors, it is thought.

The following committee chairmen have been appointed from the local church: General Chairman, R. F. Babb; Arrangements, H. L. Hall; Reception, Roy Jordan; Finance, Phil Karner; Women's Synodical, Miss Mamie Kennedy. Under the leadership of the Chamber of Commerce headed by Jere Cason, Secretary, the following General Committee representing the community interests has been appointed:

General Committee:

Jere Cason, Chairman.
N. Hollingsworth
R. F. Babb
B. W. Simmons
H. L. Hall
Phil Karner
V. K. Aubrey
Miss Mamie Kennedy
J. I. McElroy
Paul Harper
Roy A. Jordan
V. B. Gardner
Dr. T. F. Oates
Mrs. S. S. Cox
Mrs. Jack Womack
Mrs. John Sweatt
Mrs. W. B. Kendrick
Mrs. Val Horn
Mrs. Carl Davis
Mrs. W. M. White
Mrs. Ab Steele
Mrs. Jim Patton
Mrs. W. W. Barnett
Mrs. R. J. Ellington
Mrs. J. P. Reynolds
Miss Catherine McGrail
A. H. Berry
F. P. Huchingson

An Executive Committee composed of:

J. H. Cason
V. K. Aubrey
R. F. Babb
B. W. Simmons
H. L. Hall
Roy Jordan
Phil Karner
Miss Mamie Kennedy

A preliminary conference was held Friday at the Chamber of Commerce. Mr. Cason has called another meeting of this Executive Committee at his office Monday afternoon at 3:30 p. m.

The General Committee will be called together in the near future to carry out plans outlined.

Fires Are Raging In Many Places In Timber Land

SAN FRANCISCO, Sept. 13.—Six distinct forest fires are raging in California timber, dry from six months drouth. It is estimated that 5000 volunteers and ranchers are battling the blazes.

Limestone County Institue Held The Past Week

Mrs. Cora Ferguson of Groesbeck, county school superintendent and re-elected for the next term, states that she was much pleased with the County Institute which was held in Groesbeck this past week. The attendance was very gratifying and the program included features presented by experts in their line from all over Texas. Mrs. Ferguson announces that another institute will be held early in September next year and it is hoped that it will be as great a success as the one held this year.

EFFORTS START TO SAVE BOY FROM DEATH PENALTY

(By United Press)

CHICAGO, Sept. 13.—Public interest here is being focussed on a slight, 19-year-old boy, with prematurely white hair, who sits in "death row" in the county jail, under sentence to hang on Oct. 17. The boy is Barnard Grant, from "Back of the Yards" Chicago, who was forced to give up school at the age of 14 to help support his family, and who can't see why Nathan Leopold and Richard Loeb, millionaires sons, escaped the death penalty, to a confessed murder, while he is sentenced to hang on what his attorney terms very flimsy evidence.

Attorney Thomas E. Swanson is preparing to go before Governor Small with a request for a commutation of sentence. Swanson said he would point to the Leopold-Loeb case as the latest precedent of Chicago court against hanging boys under the age of 21.

"If this boy Grant hangs it will convince many people that we really have one law for the rich and one law for the poor," Swanson told the United Press today. "This boy was convicted on very flimsy evidence which has been largely repudiated since the trial and our vain appeal to the Supreme Court. In December of 1922 two boys held up a cler kin a chain grocery store. Patrolman Ralph S. Couder, who was in back of the store, came out and was ordered to hold up his hands. This he did but he attempted to seize the gun pointed by one of the boys and was shot and killed.

"A little later Walter Kraused and Bernard Grant were arrested. Krauser pleaded guilty to the murder. Grant denied having been with Krauser. But Krauser's confession implicated Grant. Grant stood trial.

The clerk of the store testified that Grant looked something like the boy who with Krauser. The only other witness was a man who said he had seen a person resembling Grant in the neighborhood of the store earlier in the day.

The jury returned a verdict of guilty and ordered a sentence of death. Since then Krauser has made a statement denying Grant was with him.

"Here is a boy born back of the yards, raised back of the yards, with no advantages of education and refinement, who was taken from school after finishing the seventh grade to help support his family, who was found guiltly on evidence so transparent as to be ridiculous and ordered hanged.

"We will now see whether there is such a thing as justice.

"We will now see whether money is one thing."

Grant's shock of hair has turned white.

"I don't want to die," Grant said. "I don't have a hand in this, "I'm innocent."

WORLD BIRDMEN ON THE HOPE ONCE MORE

(By United Press)

WASHINGTON, Sept. 13.—The round the world flyers hopped off from Bolling Field for Dayton, Ohio, 400 miles away, at 10:30 this morning. Final reports indicated unsettled weather along the way. Under ordinary conditions the flight should take five or six hours. No stops are contemplated.

MAN KNOWN HERE CHARGED WITH CRIMINAL LIBEL

(By United Press)

OKLAHOMA CITY, Ok., Sept. 13. The third charge of criminal libel to be filed within three months against Howard A. Tucker, editor of The Record, former Governor J. C. Walton's publication was on file here today.

The charge was made by William A. McClaren, former linotype operator at The Record. He alleged that a story under the caption "Millionaire Involved in Corrupt Ku Klux Plot to Hi-Jack Editor," accused MacClaren and Dutch Utterback, another former employe of attempting to criminally extort $1,500 from Tucker and his mother, Charlotta I. Tucker.

Tucker is alleged to have charged in the story that McClaren attempted to gain control of The Record to throw its support in favor of C. J. Wrightsman, Tulsa millionaire, then a candidate for the Democratic United States senatorial nomination against the impeached governor.

Tucker was formerly engaged in the oil business at Mexia, the head of what was known as the Mexia Fish Pond Syndicate.

LARGE ESCORT TO MEET U. S. FLIERS

DAYTON, Ohio, Sept. 13.—Headed by a gigantic Barling bomber twelve airplanes left McCook Aviation Field here this morning to meet and escort the world flyers to Dayton. Present plans are for the flyers to remain here until Monday, while a new motor is being installed in Lieut. Wade's plane.

SMITH KENNEDY TEST IN AREA THAT LOOKS GOOD

The T. Frank Smith test on the Kennedy tract, southwest of Mexia and in the Groesbeck territory has reached a depth below 1300 feet.

This is the second test for Frank Smith et al in that area. The first was made on the Arnett.

The Texas Company and Pure Oil Company also made tests in that region. The Arnett well was several thousand feet west of the Texas Stroud 1. The Kennedy location was made with the aid and information gleaned from these other tests.

FRIENDS TO TRY TO KEEP BUTTE OUT OF THE CAMPAIGN

AUSTIN, Texas, Sept. 13.—Dr. George Butte, republican nominee for governor, is scheduled to arrive here Sunday. A move is on foot, according to close friends, to have him reconsider the acceptance of the nominatin and decline. The plea will be based upon the grounds that he can better serve the state by remaining with the University as dean of the Law School, it was said. Dr. Butte said yesterday in New York that he would resign his post and accept the nomination.

Brotherhood In Michigan Favors The Third Party

(By United Press)

LANSING, Mich., Sept. 13.—The Michigan Brotherhood of Railroad Trainmen, through the legislative meeting here, unanimously endorsed Senator Robert LaFollette and Burton as the independent party leaders.

Butte's Resignation May Be Received By Faculty on Tuesday

AUSTIN, Texas, Sept. 13.—It is announced that the regular meeting of the board of regents of the University of Texas will be held next Tuesday in the office of the president of that institution. This will be the frist meeting of the board since Dr. W. M. Splawn assumed the duties of president. So far as publicly known only routine matters will be considered. It is asserted, however, that there is a possibility that the resignation of Dr. George C. Butte as dean of the law faculty of the University, in order that he may enter upon an active campaign for governor as the nominee of the Republican party, may be presented and considered. There are also a number of new appointments to the instruction staff which will be acted upon.

RAIN GENERAL IN ALL LIMESTONE COUNTY LAST FRIDAY

Rains fell generally throughout Limestone County practically all day Friday, the largest that has fallen in this immediate section since last Spring.

Cotton picking has been retarded several days as a result.

The cotton crop has not been helped by the rain, according to farmers of the county, however, they speak gladly of the downpour, claiming it will be of much help othrewise.

The precipitation at Mexia for Friday and Friday night was 4.05.

ELECTROCUTION TRIED OUT BY GEORGIA ON SATURDAY

MILLEDGEVILLE, Ga., Sept. 13. Georgia's first legal electrocution is scheduled to take place at the state prison farm here late this afternoon, when Howard Hinton, negro, will be put to death for attacking a white woman. The electric chair succeeds the noose as a means of inflicting capital punishment.

Germany May Have Another Cabinet

BERLIN, Sept. 13.—Germany is confronted with the making of still another cabinet. Foreign Minister Stressman's insistence upon sending a note to the powers denying Germany's war guilt, plus his disinclination to permit this country to join the League of Nations, has caused fresh talk of dissolution of the Reichstag, and new elections. The breach is widening between Stresseman and Chancellor Marx.

TEXAS COMPANY PLANNING NEW WAREHOUSE HERE

J. W. Elliott of the Texas Company offices here states that the company is planning at present to build a new sales station building in the railroads yards, south of the compress. Efforts are being made to secure a lot near the T. & B. V. on which to build the station and warehouse and also on which will be located the new storage tank. The tank will have a two car capacity.

When this move is made, the station now used south of the Pure Oil Company's yard ierses will be abandoned. Material out of the plant now accommodating the company will be utilized in the new quarters.

DEFENSE DAY IS DISAPPOINTING TO OFFICIALS OF ARMY

By LUDWELL DENNY.
(United Press Staff Correspondent)
(By United Press)

WASHINGTON, Sept. 13.—A general shake up of the reserve organization of the army seemed probable today as a result of certain disappointments in the defense test.

Although War Department termed the general results satisfactory it is understood that the turn out of "one day" volunteers and the number of communities participating were not entirely what was hoped for.

Out of the 16,792,672 persons who participated," in the test throughout the country, only 838,000 actually offered themselves for one day service with any of the regular military organizations.

With 30,000 regular army troops and 272,000 National Guard troops, the actual military mobilization was only 1,220,000 men.

Inasmuch as the War Department's plans for the defense test emphasized a desire that participants in the test offer themselves to parade for the day with one of the regular organizations the result was not wholly pleasing.

Another feature of the test that was disappointing was the relatively small proportion of American communities which held services.

Though all the large ones held imposing demonstrations, the total numberof communities engaged was only 6,535, or about one-eighth of the 52,000 in corporated communities of the country.

TEXT BOOKS TO BE SHORT FOR A WHILE IN TEXAS

AUSTIN, Texas, Sept. 12.—There will be a shortage of free text books with the opening of the school term, the State Department of Education indicated. Delayed deliveries and confusion resulting from litigation recently on final decision for text revision, will throw the children without complete texts temporarly.

Wet Spell Causes Farmers To Lose On Cotton Baled

(By United Press)

DALLAS, Texas, Sept. 13.—Farmers will lose from ten to fifteen dollars a bale on cotton wet by rain the past 36 hours, John T. Orr, president of the Texas Farm Bureau Cotton Association, estimated here after receipt of rain reports throughout the state. Rain over a large part of the state Saturday and Saturday night is in prospect, the weather bureau here indicated.

GIRL THREATENS DOCTOR'S LIFE BUT PISTOL FAILS

CHICAGO, Sept. 13.—A psychothic examination was made today of Miss Rosalie O'Reilly, pretty 21-year-old graduate of the University of Chicago who last night attempted to kill Dr. Alexander C. Weiner, 62, staff physician at the West Shore Hospital.

Miss O'Reilly said she wanted to avenge the death of her mother who was treated by Dr. Weiner.

Dr. Weiner was seated in his office when the girl walked in, pointed a revolver at him and pulled the trigger twice. The weapon failed to go off and the girl fled but was captured by Dr. Weiner after a short chase.

"I meant to torture him," Miss O'Reilly told police.

"In her bag was found an assortment of poisons, which she said she had planned to use on the doctor. Doctor Weiner explained that he treated the girl's mother for an incurable disease and that she died about three years ago.

Miss O'Reilly is librarian at a public library branch here.

The girl is a brilliant student and has distinguished herself in Latin and Greek, her father, Attorney George B. O'Reilly stated.

JIMMIE'S CAFE GETS NEW COAT OF PAINT

Jimmie's Cafe has received an attractive coat of paint and interior decorations that add much to the attractiveness of the place. The walls are cream colored, with a border of orange and black, so popular at this time, and is indeed striking judged by the attention they draw and comments made.

EUBANKS ACKNOWLEDGES WITH THANKS $100 CHECK AND ENCOURAGING LETTER FROM HUGHES FOR DEMOCRATIC FUND

A. H. Eubanks, Chairman of Limestone County Finance Committee of the Democratic party, is receiving much encouragement in his work of raising the county's quota for the campaign of the party this fall. Several letters have been received by him during the past few days and within a few days, he states he will be ready to announce precinct chairmen all over the county.

"The cry of the masses for relief from the oppression of Republican misrule," Mr. Eubanks stated Sat., is to be heard so diligently above all other campaign clamors that every loyal Democrat should be aroused to contribute his bit to a worthy cause."

Continuing, he voiced the opinion that the statement of the party were correct in their belief and statments that only the Democratic parties can offer the relief needed.

"The Democratic party, since the days of Thomas Jefferson, has been found to be the real friend of the toilers of all classes in this nation, while the Republican party has been recognized as the political denomination, the faith of which is subscribed to only by those who believe in government for the special interests at the expense of the real wealth producers of the land."

He further stated:

"Right now, when the world is crying from war wounds, when unrest and strife are so common, a change of administration is needed in national affairs and the feeling that this is true is so rampant among the sovereign voters of this country that Democrats everywhere with their ears to the ground and their hands on the pulse of the people see a wonderful opportunity for the Democratic party to triumph in November."

Just before he left for New York this morning, J. K. Hughes sent Mr. Eubanks a check for $100 to be added to the Democratic fund, together with a letter congratulating Democrats for having such splendid candidates to present to the nation in November. Mr. Eubanks expresses much appreciation to Mr. Hughes for his check and for the words of encouragement and is expecting to see the fund grow rapidly within the next few days.

The letter of Mr. Hughes, which was given to the press by Mr. Eubanks Saturday was as follows:

Dear Sir:

I am very glad indeed to have an opportunity to contribute to the National Democratic Campaign Fund and it is with pleasure that I hand you herewith my check as my contribution to the fund.

I think the Democratic Party is very fortunate inded in having as its candidates for President and Vice President two such strong and able men as the Hon. John W. Davis and the Hon. Charles Bryan and I feel that all true and loyal Democrats should put forth every effort to bring about their election.

Very truly yours,
J. K.HUGHES.

PERSHING IS NO LONGER ON THE ACTIVE ARMY LISTS

(By United Press)

WASHINGTON, Sept. 13.—President Coolidge, today issued the order which retired General John J. Pershing from active service with the army and at the same time extended to him "the thanks of the nation for his eminent services."

Though Pershing's connection with the army was automatically severed at midnight last night, the President gazetted his retirement to the army today with a detailed review of Pershing's career. A tribute rarely received by an army officer from his commander-in-chief.

The order follows:

"The White House, Washington Sept. 13, 1924.

"General John J. Pershing, General of the Armies, having this day reached the age of 64 years, is retired from active service in conformity with requirement of an act of Congress approved June 30, 1882.

"In announcing the termination of this distinguished soldier's active military career, it is deemed appropriate to remind the country of his eminent services and of the nation's obligation to one whose accomplishments contributed so largely to the defense of the world's liberties.

"Entering the army as a commissioned officer, after graduation at the United States military academy in 1866 he endured the hardships of the Indian campaigns then necessary for the pacification of the western frontier. In the war with Spain he participated in the Santiago campaign in Cuba. In the Philippine Islands. After their acquisition by the United States it fell to his lot to assist in the suppression of the native insurrection and his remarkable success in bringing under control some of the most turburient tribes is a matter of history.

"Becoming a general officer in 1906, he was entrusted with many important commands and when the unsettled conditions on the border of Mexico in 1916 made it necessary to send a military expedition into that country he was selected for its command. In exercising this command, as well as in the others that had fallen to him, he demonstrated his capacity for the highest military functions and his selection as the commander of the American expeditionary forces in the World War was a natural consequence.

"His conduct of that high command fully justified the selection as well as his elevation to the highest rank in our military service which was conferred upon him permanently, under authority of a special act of congress, in recognition of his fulfillment of his country's expectations.

"The American troops under his command, by their presence, high qualities and skilful management, assisted materially in the defeat of the central powers of Europe which resulted in the freedom of civilization from autocratic rule.

"He is one of the very few officers who have held the rank of General in the permanent military establishment and the one who has exercised supreme command over much the largest body of troops ever called into action by the United States Government. His services to the world in the the greatest conflict in which military forces have ever been engaged have been recognized through the award of the highest decorations by the governing authorities of Belgium, Great Britain, China, Czecho-Slovakia, France, Greece, Italy, Japan, Montenegro, Panama, Poland, Rumania and Serbia.

"General Pershing has already received from the Congress the thanks of that body and of the American people and now I extend to him anew the thanks of the nation for his eminent services and feel certain that I voice the sentiment of the entire citizenry of the republic in wishing him long life, happiness and prosperity in the retirement he has so richly earned.

(Signed) CALVIN COOLIDGE.

WESTMINSTER TO OPEN SESSION WEDNESDAY MORNING

Westminster College at Tehuacana opens its doors for the session of 1924 25 next Wednesday, September 17.

The frist chapel exercises will be held at ten o'clock that morning, according to Dr. E. R. Biggs, President of the institution.

He issues a cordial invitation to the public to be present on that occasion.

The session bears the promise of being the best in the history of the institution, judged by the number who have signified their intention to attend this year.

The faculty is said to be most creditable and the equal of any set of professors and teachers in any Junior college in Texas. The faculty is as follows:

Ernest R. Biggs, M. A., B. D., President, Economics Ph. B., 1911, Kansas City University. M. A., 1921, University of Texas. B. D., 1916, Westminster Theological Seminary. Additional studies in Economics, University of Texas.

John Ardis Phipps, A. B., D. D., Dean, Bible. A. B., 1908; D. D., 1919, Westminster College. Dean and Prof. of Pedagogy and Psychology, Westminster College, 1908-11.

Rena Rae VanFossen, A. B., M. A., English A. B., 1901; M. A., 1923, University of Michigan. Fourteen years successful experience as a teacher of English.

Louise Bryan, A. B., M. A., History A. B., 1923; M. A., 1924, Southern Methodist University.

James G. Willis, A. B., B. S., Mathematics and Education. A. B., 1912, Westminster College. B. S., George Peabody College for Teachers. Graduate study in George Peabody College.

Wayland Moody, A. B., Modern Languages. A. A., 1921, Westminster College, A. B., 1923, University of Texas. Graduate study, George Peabody College.

Mary Allen, A. B., Science. A. B., University of Texas. Graduate study in University of Colo.

Lillian Pierce, Piano and Musical Sciences. Special student, Ward-Belmont College and Southern Methodist University. Three years teaching experience.

Lydia Moody Scott, Instructor in Voice. Diploma in Voice, Westminster College. Special study in Baylor University and Southern Methodist University.

Allie Bounds Floyd, A. A., Expression. A. A., 1916, Westminster College. Diploma in Expression, 1920, Westminster College. Special study, Currie School of Expression.

Alma Johnston, Secretary to President. Commercial subjects. Diploma in Bookkeeping and Stenography, Monroe Business College. Special work in Conway, Arkansas School of Teachers.

Mrs. P. A. Phipps, Librarian.

Charles L. Lewis, Coach, Supt. of Moody Hall.

Mrs. Minnie Reck, Matron, Louisiana Hall.

No Professional Wanted In Game

(By United Press)

SAN ANTONIO, Sept. 13.—The death knell for professionalism in high school athletics has been sounded.

Changes in eleigibility rules in the Texas interscholastic league are explained at a recent gathering of coaches, athletic directors, and principals of southwest Texas schools by Roy Bedichek, head of the league.

The most important and strictest rule is that in which an athlete becomes ineligible by playing with or against professionals or semi-professionals whether he accepts money or not.

Jazz May Be Useful For Something Yet

(By United Press)

TEXARKANA, Sept. 13.—Proof that the bovine family is susceptible to the charm of music is put forth by D. C. Welty, dairyman here, and may lead to the installation of a jazz band to dairy equipment hereafter.

Welty conducts dances for the young social set in his barn loft regularly. When the cows are "juiced" at midnight after an evening of music, they give an average of a quart more than upon musicless evenings, Welty says.

HONOLULU HAS EPIDEMIC OF AUTOMOBILE THEFTS

(By International News Service.)

HONOLULU, Sept 13.—Sheriff David K. Trask will ask the Supervisors for twenty additional policemen to patrol the city as plain-clothes men, in an effort to stop an epidemic of auto thieving. The sheriff is of the belief that most of the thefts are by boys who want to use the cars for joy riding.

Students Scale Lofty Peaks In The Canadian Rockies

Five peaks in the Canadian Rockies have just been conquered for the first time by three Harvard and Hotchkiss students who were accompanied by their Swiss guides. The students who climbed and named the new peaks in the famous Columbia ice field are Osgood Field, Frederick Field and Lemond Harris of Boston. They were led by the noted Canadian Pacific Railway guide, Edward Feuz, the oldest guide in point of service in the Canadian rockies. Two of the newly conquered peaks have been named Mount Harvard and Mount Hotchkiss after the two American universities.

The party made five first ascents including the hitherto unconquered Mount Patterson, 10,400 feet, Mount Sir James Outram 10,700 feet, the South Twin, 10,600 feet and the unnamed peaks, Harvard and Hotchkiss. Besides all this they discovered a new route to the top of the second highest peak in the Rockies, Mount Columbia, 12,000 feet, which was made in a return journey of twenty-three hours. The aim of the exploring party, to conquer the South Twin, was successfully attained.

The Field-Harris party left Lake Louise accompanied by two guides, five packers and nineteen horses, and travelled 200 miles into the Columbia ice field. Their progress was halted several times by the terrific winds from the ice fields and once they were forced to halt a day at Mistayah lake in order to make rafts with which to get their horses across. Here, at the foot of Mount Patterson, they put up a bivouac camp and accompanied by the weird howling of the wild ice winds of this district spent most of their night thrumming a ukelele and singing warm southern songs.

Lemond Harris had his own Swiss guide with him, Joseph Biner, who has guided him for many years in the Swiss Alps. Edward Feuz who has been guiding in the Canadian Rockies since 1903 was the man who successfully maneuvered this valuable expedition. The greatest novelty of the trip, he stated on his return, was the meeting of fourteen American girls on the lonely forks of the North Saskatchewan River, who were travelling alone with their packers. The girls insisted that the party stop off for dinner with them that night, following which a note of civilization was added to their wild northern environment by the sound of the ukelele and the swish of dancing feet over pine needles dimly lighted by a blazing log camp fire.

JUDGE HAS SET OF RULES FOR BOTH SEXES TO DECREASE DIVORCE SUITS

(By International News Service.)

SAN FRANCISCO, Sept. 9.—Judge Thomas F. Graham, famous as "the great reconciler" through his success over many years in divorce courts in bringing estranged couples together, believes that a policy of "look before you leap" would do much to prevent marital smashups.

From his twenty years' study of the divorce problem and handling thousands of divorce and annulment cases he has evolved a set of warnings for both girls and young men. If these are followed "the great reconciler" believes the divorce courts will have less business in the future. Here are his suggestions:

"Bewares" For Girls.

1.—Never marry a man who does not read the sport section of the newspapers. Young fellows who profess no interest in manly, outdoor athletic sports are not apt to be interested in anything or anybody but themselves. They make poor husbands.

2.—Never marry a man who plays cards for money. Love for games of clance is almost certain to supplant all other loves, greater than love for home, wife and children.

3.—Never marry a man who says he has no bad habits. He is pretty sure to have a vice much worse than smoking or even drinking. If he's of the "holier than thou" variety he soon will become a pest.

4.—Never marry a man your parents object to, unless your parents are most unreasonable. It is court history that 65 per cent of all elopements end in the divorce courts.

5.—Never marry a man who says he does not care for children. He's an unnatural, selfish man and not to be trusted.

6.—Never marry a man because he is a good dancer. Perhaps that is the only thing he can do well. Men who have intelligent feet seldom have anything in their heads.

7.—Never marry a man who detests dogs. If you do you'll find he is incapable of loving anything, even himself. Something is wrong with that sort of man.

8.—Never marry a man who drinks on the sly. If he isn't fair and square on that subject, he'll deceive you and cause you many a heart break on other accounts. The "silent drinker" never makes a good husband. He can't.

9.—Never marry a man who speaks slightingly of your parents or of old people. He's not the man for any woman. He'll neglect you when you begin to get wrinkled and gray.

10.—Never marry until you are old enough to know what you are doing. Sixteen-year-old brides too often are 17-year-old grass widows.

"Bewares" For Men.

1.—Never marry a girl who has lily white hands when her mother's are calloused and roughened by hard work. That girl won't be a good helpmate.

2.—Never marry a girl who wants you to take her to a show every night and is never content to let you "sit up" with her in her own home. She's not the type that will make a home for you.

3.—Never marry a girl who keeps her room or the parlor littered with signed photographs of former or present beaux. She's a collector of heart throbs and she, more than likely, won't stop flirting after she marries you.

4.—Never marry a girl who is ashamed of her parents and does not want you to meet them. She's the wrong sort of a girl for any man.

5.—Never marry a girl whose only thought is clothes. If that is the calibre of her brain she'll never be a real wife or mother. Always she will be a clothes hanger and she'll keep you broke.

6.Never marry a girl who insists that you take her to places of amusement that are beyond your means. If she is that thoughtless before marriage, she will not bother about your financial affairs after your marriage.

7.—Never marry a girl who is immodest in her dress. No man wants to blush because of his wife's appearance. And never marry a girl who is slovenly and untidy. That, in a short time, will kill even the most ardent love.

8.—Never marry the promiscuous kisser. She'll cause you lots of grief and heart pangs later on.

9.—Never marry a girl several years older than yourself or many years younger. The difference in ages will cause many a "spat" later on and "spats" are the harbingers of alimony.

10.—Never marry a girl who is not fond of children. That sort of girl is not natural. Childless homes, except in unusual cases, are not enduring.

GATHERED CROP OF COTTON IS MUCH SHORT OF 1923

The cotton crop now in the bale in Limestone county is less than half as large as it was this time last year. Tom L. Cox of this city, special agent for the Census Bureau in the county states that there have been 12,126 less ginned this season than last. His statement is as follows:

Mexia Evening News,
Mexia, Texas.
Dear Sir:

There were 8,330 bales of cotton ginned in Limestone County, from the crop of 1924 prior to Sept. 1st, 1924, as compared with 20,456 to the same date last year.

Very respectfully,
TOM L. COX,
Special Agent.

Episcopal Ladies Organize Guild.

The ladies of the Episcopal church met Thursday afternoon with Mrs. Pipkin to organize a Guild. Mrs. Givens was elected president and Mrs. Floyd Miller secretary-treasurer. The work outlined for guilds three out the diocese and a study of church history and church activity will be pursued.

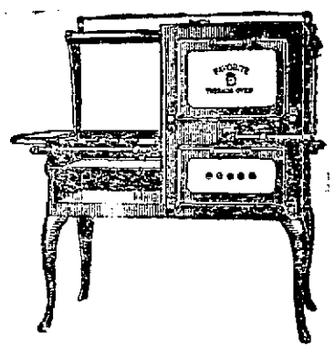
The membership consists of Mrs. Richard McGowan, Miss Fern Massie, Mrs. Givens, Mrs. Pipkin, Mrs. Hicks Allen, Miss Whitaker, Mrs. Pluger, Mrs. Brown and Mrs. Floyd Miller.

The next meeting will be with Mrs. Givens at 714 E. Titus St. Monday, Sept. 23 at 3:30 o'clock.

FURNISHED room close in also light housekeeping rooms. See them 401 E. Palestine or call 592W.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

Favorite Thermos Oven



A Revelation in Gas Cooking!

—You must see this wonderful stove to appreciate its beauty and utility. We have both the full enamel and semi-enamel styles.

—The Thermos Oven simply means that the oven is lined with one and one-half inches of a heat resisting compound which holds the heat.

—This oven will cook for an hour and a half after the gas has been turned off. This feature alone saves one-fourth the gas.

—We will gladly show this wonderful stove and explain the many advantages if you will only drop in to see us. There is no obligation on your part.

—Remember—we take your old stove.

105 South Sherman St. Mexia, Texas

Karner-Phillips
MEXIA, TEXAS

In The Height of Fashion

Dame Fashion has decreed fur collars and trimmings on the Coats this season, the more fur—the more stylish the coat.

And you will find us ready with an unusually large assortment of the season's newer cloth Coats, with trimmings of Beaver, Squirrel, Muskrat, Marmink, and Jap Mink.

Some have only fur collars—others have bands of fur around cuffs and bottom, some have sleeves trimmed with 6 to 10 inch insert of fur—others have fur trimmed lapel.

The Cloths that are in popular favor this season are Downywool, Flamingo, Monticello, Delucia, Lustrosa, Velnewvo, Suava and Rubiat Larmen.

Colors run to Brown and Tan, with the new names as:: Corona, Pheasant, Perry, Sepia, Penny, also we are showing the new shades of grey, and the ever popular black and navy.

As to prices of coats—we show a complete line at every price range from $19.50 to $145.00, so whatever price you may wish to pay, you will find a coat to meet your requirements from among our large assortment.

Each Day The New Dresses Arrive

Each day we receive the New Dresses, always, you will find the very newest here—for no sooner are the new styles brought out in New York, than they are forwarded to us in Mexia.

Complete lines are shown at all prices from $12.50 and up to $65.00.

nt individual negroes have declared for John W. e Klan issue, but the Association for the Advance- ored People has officially endorsed La Follette. To the rank and file will vote the Republican ticket, remains to be seen.

The heads of the Society of Mayflower Descendants are said to be worried because the membership has increased 710 in three years and now numbers 5077. Unless the race has long been dying out it is likely that there are several times that number of unknown descendants of the Pilgrims landing from that one small ship.

✣ ✣ ✣ ✣ ✣

We read of "a daily $5 award" for the best letter in answer to this question: "If you were a young lady sitting alone at a dinner table in a restaurant and from three tables simultaneously Rudolph Valentino, Jack Dempsey and the Prince of Wales should beckon to you, whose table would you honor?" It seems to have been quite forgotten that a "lady" in the old-time sense could not be "beckoned" by any one of these or other potentates and would allow no man to come to her own table in a public place unless he had been properly introduced. Obviously the Prince of Wales is less likely than the prize ring champion or the movie favorite to be greatly flattered by this extraordinary inquiry.

CENTRAL TEXAS PRESS
By N. P. Houx

WITHOUT COMMENT

The Republican carried Maine by an increased majority, yet the Republicans opposed by the anti-Klansmen. Now will Coolidge come out and denounce the Klan, as Davis has asked him to do? We know not, but we have our suspicion that Cal will continue to keep silent. There are close states Cal needs where a fight on the Klan would result disasterously.—Bonham Favorite.

—o—

An east Texas girl married five years ago and went into another state She came back home this summer with four little girls, all with double names. The local editor got his wires crossed and lost the good will of the entire family when he noted that she was home again with her little girls, Betty, Ann, Martha, Lou, Peggy, Jane, Mary and Elizabeth. —Sam Miller in Mineral Wells Index.

—o—

The prince of Wales gives evidence of being quite a likable young chap and would be thoroughly democratic in his habits were it not for the sychophancy displayed by a lot of Americans who persist in dogging his footsteps wherever fancy leads him. The toadyism manifested by some people in the presence of royalty and of nobility is nauseating to the true American who regards his soverignty equal to that of any king, prince or potentate.—Denison Herald.

—o—

The folks here are too busy right now to talk politics. There is lots of time for that between now and the general election in November, and there will not be any warm campaign down here.—Riesel Rustler.

—o—

Former Governor Cole L. Blease of South Carolina won the nomination for United States Senator in the primary held Tuesday. Coal Blaze has been a stormy petrel in South Carolina politics for years. He gained fame when, replying to a critic that the constitution forbade some intended act, he boldly declared, "To hell with the constitution." Strange things have happened in politics this year.—McKinney Courier-Gazette.

—o—

It is said that Henry Ford "layed aside" twenty four million dollars recently that he had no particular urgent need for at this time. Well, if Henry has more cash than he knows what to do with, he might divide with all us 4rd owners who spend all we can get trying to keep the flivvers going. Franklin Texan.

Every man owes a part of his time to the development of the community in which he lives. There are many people in Bryan who give many hours of overtime on community work, but there are others who would have to work every day for a long time to get even. All together—let's pull and pay our debt to our community.—Bryan Eagle.

—o—

One farmer in the section around Groesbeck has this year demonstrated that two crops can be grown where one was grown the year before. Mr. J. S. Gayden this year plantend a crop of onions. When cotton planting time came he planted a crop of cotton on the same land just as if no onions were there and as a result he made just as good a cotton crop as he otherwise would have and at the same time made a fine onion crop. What Mr. Gayden did can be done by every cotton farmer in Limestone county.—Grosbeck Journal.

—o—

We want the political correspondents to quit sending their stories about our candidate being a "good mixer" to these parts. This is dry territory, and to call a man a good mixer makes the drys suspicious, and exasperates the wets.—Geo. Bailey in Houston Post-Dispatch.

—o—

RULE PATRONS MAY PICK AT FRUIT STAND'S WARES

LOS ANGELES, Sept. 13.—This city's Aldermen have ruled it is proper to pick and peck at wares displayed in fruit stores.

"People pick and sneeze over my fruit!" Peter Harrison complained to the City Council; but the Aldermen refused to pass an ordinance prohibiting these alleged actions.

A DEED to a HOME

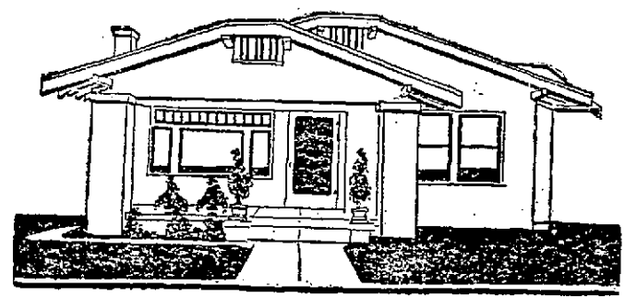
—If you have, the world bows to your success and your are rightfully entitled to the proud position you occupy and the happiness you enjoy.

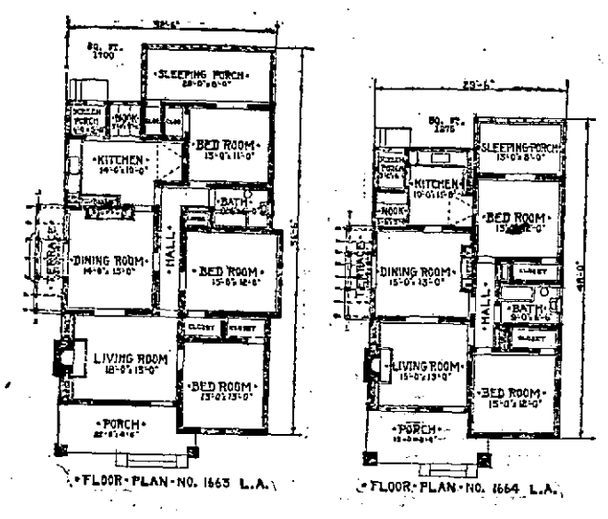
—For Home Ownership made a reality by consistent thoughts, ,tireless efforts and willing sacrifices represents the fulfillment of life's greatest ambition, an achivement worthy the name of Success.

—A deed to Home is more than title deed to property; this instrument fails to recite Americanism ... gressiveness,Thrift,Honor,Contentment, Protection, Environment, Etc. They are all a part of ideal homes that come with home ownership.

—This love for home has and always will be the most dominating force to spur men on to continuous success, for Home Ownership instills new thoughts, desires, determination and fires ambition to a point of action that cannot help but be productive, and when home is warmed by embers of love, devotion and affection, it is an inspiration for man to do his best, and is a haven for those who call it Home.

—When two hearts are joined in love and life the home instinct is liberated and false indeed is love's dream where the planning and building of an ideal home is not paramount. There is no other possession or desire that we can aspire to in this world that means so much to us as Home Ownership and the things Ideal Homes stand for. Appreciating this we should all give immediate consideration to acquiring or building a home.





PLAN NO. 1663-1664

—We know you will welcome the opportunity of studying the exterior illustration and alternate floor plans featured this week because it shows one of the most compact and convenient arrangements that is possible for you to have incorporated into a home. The exterior is more attractive and to those who are able to find in the room arrangement sufficient space in meeting their individual needs will want to adopt this practical plan for their new home. We are going to endeavor each week to feature a home that will meet with the requirements of the public. We appreciate the fact that most people have pet ideas they are desirous of incorporating into the home they are to build, but we are sure, with minor alterations, the changes you have in mind can easily be applied to one of the homes we will show you. Remember, this campaign is being conducted for your convenience and we will welcome the opportunity of assisting you in any reasonable way.

Woman Wept Seven Years For A Dog Grave That Was Empty

(By International News Service.)

NEW YORK, Sept. 13.—The dog is man's best friend. He comforts us in our trouble and when we have no trouble he goes out and digs up some for us.

There's the case of Mrs. Margaret E. Green. Seven years ago a bull pup on which she had been lavishing a lot of high priced affection climbed the golden stairs of the canine New Jerusalem and Mrs. Green was disconsolate.

She had the body buried in the Hartsdale Canine Cemetery, in Hartsdale, N. Y., in a rosewood box with a metall lining, and every week, rain or shine, she journeyed to Hartsdale to go over the years and daily hand in hand with sadeyed memory, at the dog's grave.

Recently rs. Green thought it would be a touching and appropriate thing to have the defunct pet laid out in a more pretentious resting place. So she went to the cemetery with a friend recently and sat on a rustic seat near the grave while the workmen were digging. When the pick of one of the excavators struck the top of the coffin with a hollow sound she approached the grave and gave close attention to the rest of the work; but when Superintendent Hunt removed the top from the little box it was found to be empty.

Mrs. Green is too well bred a woman to make a scene, but to say she was incensed was putting it mlidly.

She has joined with other Hartsdale Cemtery plot owners and an investigation is under way to ascertain how many widowed and orphaned pet owners have been weeping over wrong graves in the last ten years.

t's a solemn and substantial thing to place a wreath and drop a tear over the grassy mound of a deceased animal and then come to find out that through a clerical error or a misplaced lograithm you've got your graves mixed.

There are 4,000 pets buried in the Hartsdale Cemetery, not all dogs. A lion, several monkeys, a parrot, cats, pet hens, two horses and other anicals and birds sleep side by side.

It's the biggest place of its kind in the wrold. Plots have sold at the rate of $.250 a square foot, and the five acres which comprise the cemetery, at that rate, net the owners of the project more than $500,000. There's a charge of $3 for digging a grave and a charge for upkeep that runs anywhere from $5 to $500 a year.

Ethel Barrymore has a plot there. So has Irene Castle, whose collection consists of four pets, including one whose marble headstone is inscribed: "Rastas, the smartest, most lovable monkey that ever lived."

One of the most elaborate plots is owned by James S. Sherman, former Vice-President of the United States. Other lot owners include the Schuyler family, the Everard family, the Meseroles, Elbridge Gerry Snow, Mrs. M. Orme Wilson, Mrs. Ada Van Tassel Billington, William Primrose, minstrel, and Florence Reed.

HOOVER AND DAVIS TO DISCUSS SAFETY

(By International News Service.)

LOUISVILLE, Sept. 13.—Secretary of Commerce Herbert Hoover and Secretary of Labor James J. Davis will be two of the principal speakers ath the Thirteenth Annual Safety Congress of the National Safety Council to be held here from September 29 to October3. Many loaders in American public, industrial and educational life, bent on the correlation of efforts to rid the country of the 80,000 fatalities caused by avoidable accidents each year, will be present.

For the first time in accident prevention history there will be brought together all national bodies which have been devoting efforts toward minimizing the 20,000 annual automobile accident death rate.

The trend of public accidents during the last year will be dwelt on at length at the various sessions of the congress. Recent analyses of automobile and other public accidents have resulted in the general conclusion that most accidents were due to mental causes and this general conclusion will be reflected in addresses and discussion.

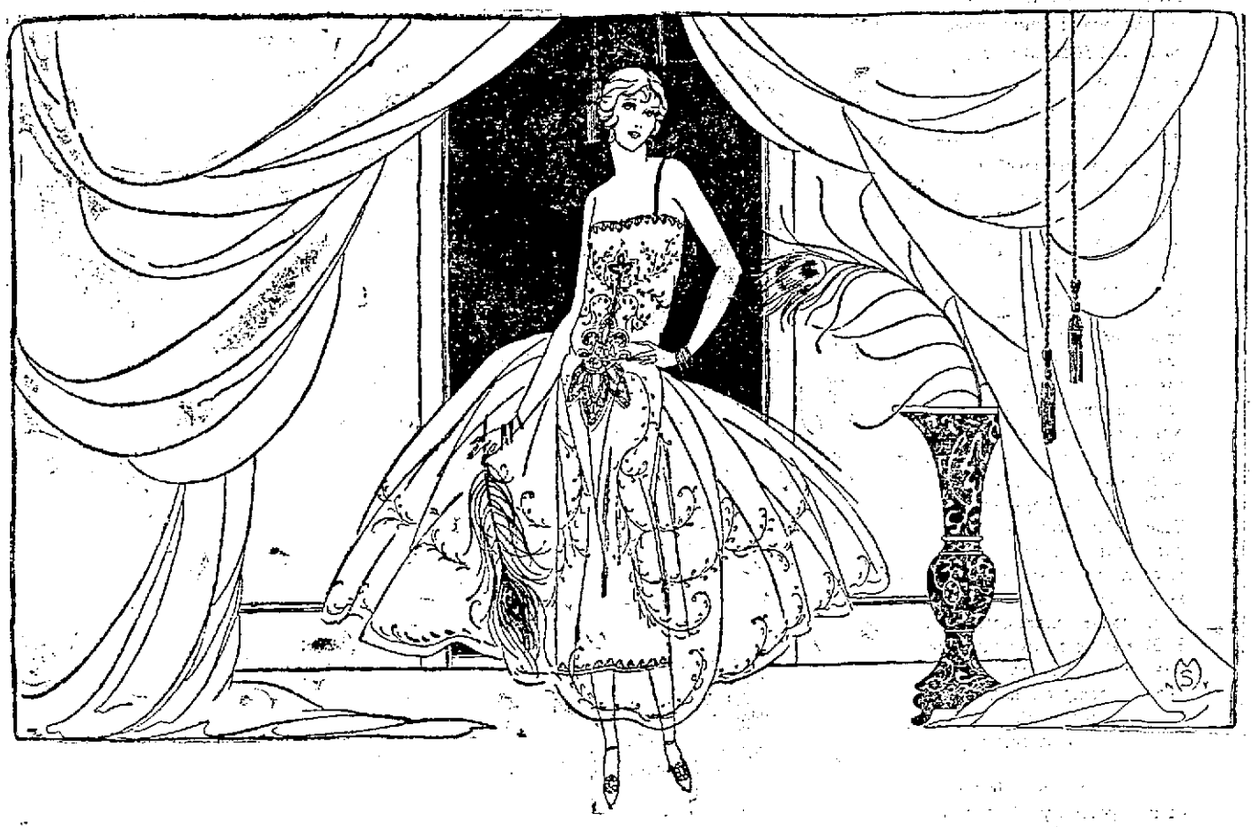
Announcing—



The Opening
Of Our Ladie's Ready-to-Wear Department

—For months we have been planning this addition to our store. Our buyer has just returned from New York where he spent 3 weeks making purchases for this department and for many days loads of express has been piling into our store. We are now ready for you. We show beautiful lines of—

Dresses == Coats == Suits

—We invite you to attend our opening and view the many garments which we have on display.

NEW MILLINERY DEPARTMENT

We now have on display a complete line of ladies and misses hats for Fall wear. These lines have just been added and are very attractive indeed. All hats moderately priced.

NEW PIECE GOODS DEPARTMENT

—In this department we will handle all the staple lines of Cotton and Wool Goods. We will also handle the finer grades of Silks, Linens, Crepes, Tissues, etc.

—When in need of anything in this line drop in to see us. Our prices are very moderate.

NEW BOYS' DEPARTMENT

—Yes, we have added a Boys' Department. Suits, Overcoats, Blouses, Overalls, Stockings, Underwear, Shoes, in fact, everything that a boy needs — for school, work or dress. Bring him in and let us fit him up.

—We have new lines of Shoes for every member of the family. Also a full line of Ladies', Men's and Children's Hosiery.

The BOSTON STORE
"Buy It Here for Less"

FIVE GAMES ALREADY SCHEDULED BY BLACK CA

THIRTY ONE MEN WORKING FOR PLACES ON ELEVEN

The 1924 football season has become a reality in Mexia. The Black Cats promise to have one of the most successful years in the history of the institution under the able direction of Coach Ernest Poteet. Like all early season "dope" furnished to football fans the squad does not look the best in the world right now, but it is early and difficult to predict anything at this time.

The thirty one boys reporting for workout with the High School squad are all determined, and willing to obey training rules. They realize that they have a hard schedule to buck up against and are all willing to do their best. Of course there are some of the squad that will be disappointed in not being able to make the treasured "M" this season, but those boys should realize that even though they never play in a game this season the training and experience will be worth many times more than the effort put forth, and they will be first in consideration in next years squad.

The twenty boys who attended the Black Cat training camp at Lampasas just before school opened derived much benefit in a physical way as was shown when they were given a thorough examination by Dr. C. P. McKenzie on two afternoons of the past week. Captain of the squad Wane Thompson had the distinction of being the most perfect physically on the squad as selected by Dr. McKenzie.

Six out of the thirteen letter men of last years squad have reported for training. These men are: Capt. Thompson, Bennett, Buford, Lucas, Perkinson, and Clover. Others with aspirations of wearing the coveted "M" are: Corley, Arrington, Storey, Wesson, Aulds, Karner, Beason, McKenzie, Wright, Knox, Walker, Byrd, Davis, Dupuy, Cox, Murphy, Felz, Skeen, Robinson, Colgin and Parker.

Jim Karner is coming along fine at punting and will handle most of the toe work this year. Marvin "Bozo" Bennett is hard to beat at center and Wane Thompson is still playing his tackle position like a veteran.

The two Seelys will be missed from the squad this year, they have moved to Rio Hunda. Herman Adames was scheduled to show up this year but finished out his course in summer school and will not return. Barney Treadway has not shown up as yet and will be missed. Jack Mills has moved to Mart.

Perkinson will be moved from end position to the backfield. Glover and Beason will beat quarter, and Dick Buford will hold down full back position. Karner will also be in the backfield and some of the new material will be tried out behind the line. The whole squad will average about 133 pounds.

Five games have been scheduled so far for the High School and others are almost a sure thing.

Mart vs Mexia at Mexia Oct. 3.
Coolidge vs Mexia at Mexia Oct. 10.
Mexia vs Mexia at Mexia Oct 24.
Open date Oct 31.
Corsicana vs Mexia at Mexia Nov. 7
Open date (possibly Teague) Nov. 14.
Open date Nov. 21.
Open date Nov. 27.

PROMINENT FIGURES IN DAY'S NEWS

Above: FREDERICK H. GILLETT & COUNTESS GLADYS SZCHENYI.
Below: RHINELANDER WALDO & VERA MILNE HALL. INT'L.

Frederick H. Gillett, Speaker of the national House of Representatives, has been nominated by Republicans of the State of Massachusetts as their choice for the United States Senate. The Countess Szechenyi, formerly Gladys Vanderbilt, of New York, may become Queen of Hungary. Her husband is prominent as pretender to the throne. Vera Milne Hall, New York actress, wielded a horsewhip on Eddie Hurley, press agent, in his office on Broadway because, she says, he made disparaging remarks concerning her. Rhinelander Waldo, Deputy New York Police Commissioner, has resigned to take part in the national Presidential campaign.

Macedonians Thrive On American Dollar

(By International News Service.)

BELGRADE, Sept. 13.—American dollars have given new life to the ancient Macedonian district of Ressen, according to the newspaper "Vremy."

"The entire district has been Americanized, thanks to the return of many of its inhabitants with pocketsful of dollars," says a dispatch published in the "Vremy."

"With American dollars these inhabitants have renovated their dilapidated estates and managed to enlarge and beautify them.

"Many a poor fellow who went to America ragged is now lord of his own little farm, with a cozy cottage perched at the head of it. The "lord" is often seen smoking an American pipe in his American overalls, and with his American-shaved face beaming with a broad but self-contented American smile. The Macedonian loves the soil. He is happiest when adding another patch to his old one. No matter where he goes he is sure to return to his old homestead as soon as he has swelled his purse to a proportion which he has thought big enough. And, what is more interesting still, is that he comes home with a stock of new ideas about modern farming which he had eagerly picked up, usually in the United States. One can easily tell a locality peopled by such modernized farmers from the older ones who evidently had no American dollars or American science to back them. Its houses are far better and bigger and more elaborately fitted. There you will notice the American stove, the American lamp, the American axe and shovel and, last but not least, what seems to be the greatest pride of all—the American willing plow. The street are clean, the shops more respectable looking, and the schoolhouse and the church are freshly painted. In front of many homesteads there stand up boldly the American artesian well instead of the old oaken bucket that used to emrge from a nasty and foul-smelling, dilapidated well. Yes, Ressen is a veritable American outpost in Southern Macedonia."

Paul Lobbitt, manager of the Mexia Drug Company, has returned from a few weeks spent in Galveston and other coast cities.

The New Studebaker Standard Six Five-Passenger Duplex-Phaeton

very finest closed cars are present in all the new Studebakers.

Three of the closed models in the Standard Six chassis introduce an innovation in beautiful colors. The lower panels are in light gray and the upper panels in dark gray. The separation is marked with parallel hair line red striping.

All of the Studebaker closed bodies are made by the Studebaker Corporation in its gigantic new body plant, the last of which, costing ten million dollars, was finished in 1923. It is claimed that these modern plants with the very latest modern machinery are responsible for great savings effected in manufacture and this accounts for the obvious splendid quality of Studebaker cars at the prices offered—the prices for the Standard Six three-passenger Coupe roadster to $2860 for the Big Six seven-passenger Berline.

Real Balloon Tires Regular Equipment.

Studebaker was among the very first of automobile manufacturers to introduce genuine balloon tires as regular equipment. Instead of the compromise on low pressure cord tires Studebaker has gone all the way and offered the public big genuine balloon tires on 20 in. and 21 in. wheels.

Lines Designed to Harmonize With Big Tires.

Studebaker probably is the first American manufacturer to design a car, not only mechanically but from the standpoint of appearance for genuine balloon tires. Big wide fenders which deeply crown over the tires are the first designed by any manufacturer for balloon tires, so Studebaker claims. Body lines are low and massive and doubtlessly balloon tire equipment was held in mind by the designer in shaping the new Studebakers. Wood wheels in especially light natural finish, together with full nickel plated radiators, are in bright and sparkling contrast with jet black fenders and the dark blue of the bodies and they blend especially well with the light gray and jet black bodies of the Standard Six models.

Suedebaker Hedges On Four-Wheel Brakes.

Although the new Stuebakers are regularly equipped with bigger and better two-wheel brakes than ever and with an entirely new emergency brake which operates on the propeller shaft, there is optional equipment offered in four-wheel brakes.

The new Studebaker four-wheel brakes are not only of the hydraulic type but hydraulic power is developed by engine power and not by the driver's foot. Great braking force can be applied instantly and almost without effort by operating a valve which turns on the hydraulic power. The brakes are unique in this respect and different from anything on any other American Car. Inasmuch as the braking power instantly stops when the wheels stop turning, the rear wheels cannot remain locked and the front wheels cannot lock at any time. There are no adjustments necessary for the front wheels and only two points which require lubrication. Undoubtedly a tremendous amount of interest will be created by the new Studebaker four-wheel brakes.

Studebaker advises its public, however, that two wheel brakes are all that is required. But in the event four-wheel brakes are demanded it is able to give,so it claims, the simplest, most effective and most durable and safe system ever put on an American Car.

Changes in Stubaker Engines

Of course Studebaker has made a great many minor changes, betterments and refinements in all the mechanical parts of its car.

Notably the engine now is in unit with the clutch and transmission, but even more important than that a new force feed oiling system has been designed introducing an entirely new feature. The returning oil is strained before it goes back to the crank case; thus the pump has the entire crankcase supply of oil strained and cleaned. There is no possibility of clogged screens or a lack of supply of oil for the highest speeds.

The entire amount of oil is pumped through the motor thre times for every mile of travel under a varying pressure of fifteen to twenty-five pounds, according to the speed.

Studebaker still retains the medium compression low speed design the same as that employed by practically all of the leading makers of this country. There has been an increase in the weight crank shafts on all models. There are bigger bearing and longer connecting rods in two models. Studebaker is one of the very first manufacturers of medium priced cars that uses the expensive system of machining its crank shafts on all surfaces. By this process it secures perfect balance and thus reduces vibration to the lowest possible minimum.

It is expected that the Studebaker display rooms throughout the country will be the mecca for thousands of people who are interested in new and unusual designs in motor cars for the next several weeks.

AUTO ACCIDENT ON ROSS AVE. FRIDAY NIGHT

An old Overland automobile occupied by two boys and two girls from a neighboring town, collided with a cut down Ford car containing two Mexia boys, the accident took place early Friday night near the intersection of the Teague pike with Ross avenue The Ford was turned over two or three times but fortunately neither of the boys were injured.

It is reported that the Overland car was coming down the wrong side of the street and in an attempt to get out of the way of the big car, the Ford was hit broadside.

Several incidents of the same nature in regard to driving were reported on the Reunion ground road Friday night and in every case the description answered to that of the Overland car. Such driving as this should not be tolerated on the streets of Mexia, and if such is witnessed it is the duty of the citizens to report it to the proper authorities.

NOTICE, I will dip cattle at Reunion Grounds Tuesday, Sept. 16th., Springfield, Wednesday 17th., L. C. Estes Vat Friday. For the convenience of those who are too busy to dip on above dates I will leave the vat charged for three or four days. Will give any one a special dipping at any vat not included in quarantine. 15 New Studebakers

Including an entirely new type of car—the DUPLEX-PHAETON

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before.

Three completely new chassis!.. 15 completelv new bodies!
Completely new lines! . . . Marvelous new performance
Completely new *open-closed* car!

Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines

Real balloon tires, not low-pressure cords. Sizes—21"x 5.25" to 20"x 7.30".

New Studebaker automatic hydraulic 4-wheel brakes—optional.

New values, never before equaled—even by Studebaker!

TODAY Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American body designers without following precedent or imitating or adapting what has been done before.

Today Studebaker proves that a practical and beautiful type of car can be made to combine the pleasure and performance of the open car and the comfort and protection of the closed car—and this without excessive price or compromised quality—a car "duplex" in open car smartness and convenience and closed-car elegance and comfort—and at a price no higher than that of an open car!

Today Studebaker proves, in its new Standard Six Duplex model, that six-cylinder car of fine quality, great power, plenty of room and impressive appearance can be made and marketed at a price of $1145.

Today Studebaker proves in its new Special Six and its Big Six Duplex models that the ultimate in all the essential features of quality in five- and seven-passenger cars can be made and marketed at a price of $1495 and $1875 respectively.

And this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in the country, 70 per cent of which is new within the past six years.

Every modern method of manufacture and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the highest grade closed car bodies—framed in selected hard woods, cushioned with the best cushion work, upholstered in fine mohair fabrics and fitted with expensive appointments—can be made and marketed on superlatively good chassis at moderate prices.

This is now possible by the new $10,000,000 Studebaker closed body plants. Studebaker designs and builds all of its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis

THE STUDEBAKER STANDARD SIX—113 in. wheelbase, 5-passenger. Engine, 3⅜x4½, 50 b.h.p.—with 5 different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe-Roadster, Coupe, Sedan, and Berline.

THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, 5-passenger. Engine, 3½x5, 65 b.h.p.—with 5 different bodies, including Duplex-Phaeton, Duplex-Roadster, Victoria, Sedan, and Berline.

THE STUDEBAKER BIG SIX—127 in wheelbase, 7-passenger. Engine, 3⅞x5, 75 b.h.p.—with 4 different bodies, including Duplex-Phaeton, Coupe, Sedan and Berline.

The Ten New Closed Bodies

COMPLETELY NEW BODIES—each car a masterly expression of modern style, yet distinctly original in beautiful lines—individual, conservative, impressively elegant, but crisp enough in its departure from imitation to be entirely distinctive.

The Five New Duplex Bodies

(A new type of car originated by Studebaker to take the place of the open car)

SO ENTIRELY NEW and so different from any other body ever made before that a new name had to be created—the DUPLEX.

The upper structure is shaped in pressed steel and covered with the finest water-proof fabric. The steel construction permits the use of another radical Studebaker creation, the new roller enclosing curtains. There is the permanent beauty and durability of the steel top plus the instant convenience of the roller curtains.

Thus Studebaker engineers have solved the open-closed car problem.

The buyer who wants the airiness and practical convenience of the open car and who also wants the comfort, protection and beauty of the closed car can now get both in one car and at the price of an open car.

One moment the new Studebaker Duplex is a beautiful open car—a touch of the hand to the overlapping roller curtains and it is a snug weather-tight closed car.

Balloon Tires

Genuine and full size balloon tires on all models. Every part that functions with the tires has been specially designed for balloon tire equipment—steering gear, steering knuckles, spindles and springs, even the fenders.

New Lacquer Finish

The Standard Six closed bodies are beautifully finished in semi-glaze, satin lacquer. The hood and lower panels are in light gray, the upper panels in darker gray. Hairline parallel striping in oriental red. Burnished nickel radiators, jet black fenders, light golden finished, natural wood wheels and big balloon tires are contrasting touches.

The Standard Duplex Models are finished in glossy jet enamel—lasting, lustrous and wear-resisting.

The Special Six and the *Big Six* Duplex models are in soft satin lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the sparkle is added with burnished nickel radiators and light, natural wood wheels in contrast with jet black fenders and big, black balloon tires.

More Power

The universally famous Studebaker engine is more than ever a peer among power plants. The crankshaft is heavier. ALL surfaces are perfectly machined to exact dimensions and balance. The bearings are larger.

The engine is in unit with the clutch and transmission. There is a force feed lubrication system with clean, strained oil always in reserve. There are many changes and improvements which result in MORE POWER, MORE QUIETNESS and SMOOTHNESS and STILL BETTER PERFORMANCE in every way.

New Brakes

Larger, more powerful, simpler and much easier operated two-wheel brakes. An entirely new emergency brake is operated from the instrument board, instantly convenient to the driver's hand where it simplifies the control and frees the floor board from the old style lever. It acts on the propeller shaft. There is uniform pressure at each wheel—equalized through the rear axle.

The regular two-wheel Studebaker brakes with their simplicity, safety and great braking power are entirely adequate.

But Studebaker 4-Wheel Hydraulic Brakes (with disc wheels) can be furnished as optional equipment on all models at extra charge if desired.

Studebaker 4-Wheel Brakes have three exclusive features not found on any other system in this country.

1. Braking pressure is furnished by hydraulic power automatically developed. A light touch to the braking pedal controls its great force like a touch to the throttle controls the power of the engine. This feature will appeal instantly to women.
2. The front wheels cannot lock.
3. There are only two adjustments required—one at each rear wheel. The front brakes are permanently adjusted at the factory. The oil in the transmission is used to generate the hydraulic power; the action of the gears and the pump keep it in circulation: it cannot congeal or freeze. Braking power is always instantly ready—in winter as well as in summer!

New Ease of Operation

New Ease of Gear Shifting—New power in braking, a touch to the pedal exerts a giant's strength at the rear wheels—New clutch action, soft as velvet—A new steering gear and steering knuckles designed for balloon tires—A new grouping on the dash, including ALL the usual instruments plus a gasoline gauge that always works accurately.

Lighting Control Switches—all on the steering wheel—instantly handy.

Automatic Spark Control—No manual attention required, so the lever is eliminated. Automatically governed to all speeds with the precision of machinery.

And the Details

The new cars are longer and lower to the ground. The line from the radiator to the rear is nearly straight. The wheelbase of all models is increased.

The fenders are much wider and deeper crowned to cover the width of the tires. They fit more closely over the wheels. The rear fenders are long and gracefully curved into the running boards.

The radiators are high and set low in the frames and convex curved just below the filler cap. The design is strikingly original and beautifully distinctive.

Entirely new head lamps and cowl parking lamps designed by Studebaker—artistically appropriate and in perfect keeping with the originality of the body and fender design.

Deeper, stiffer frames, more cross members; shorter, flatter springs for balloon tires. All bodies lower, all roomier, better and more comfortably cushioned. Seats are lower, backs and sides are higher.

Look Forward Into Next Year

The new Studebaker is here today! And no matter how sweeping your ideas of what a new model should be this car will satisfy you. It will thrill you with the very newness and originality of its beautiful lines!

You may not be in the market now, or even this year. But to see the new Studebaker is to look forward into next year—and the year after! **SEE IT TODAY!**

LIMESTONE CO. TEACHERS MEET IN GROESBECK PAST WEEK

(Groesbeck Journal.)

More than 225 Limestone county teachers have been in Groesbeck since Monday attending the annual meeting of the Limestone County Teachers' Institute. For the past several years the institute has been held in Waco jointly with several other counties. At the meeting last year an effort was made by County Superintendent Mrs. Cora Ferguson and Mr. J. E. Farrow, Secretary of the Groesbeck Chamber of Commerceto have the institute meet in this city in 1924. The teachers accepted the invitation of Groesbeck at their meeting last year and have spent the entire week here.

A very interesting program was arranged for the meeting which included several prominent speakers, chief among whom were: Mr. Camp, representatives of the Texas Outlook, the state teachers publication; Mr. Woodruff of Texas university and Rev. Murray A. Travis who spoke Wednesday on the subject "Community Center."

Perhaps the most important action taken by the institute this year was the organization Wednesday of the Limestone County University interscholastic League. The following directors for the league were elected:

Director General—Supt. Puckett, Mexia.

Director of Athletics—Supt. D. M. Major, Groesbeck.

Director Declamation—Miss Agnes Unger, Forest Glade.

Director of Essay—Mrs. M. H. Martin, Groesbeck.

Director of Spelling—Mr. Dupree, Personville.

Director of Music Memory—Mrs. W. W. Brown, Groesbeck.

Director of Debate—J. O. Black, Tehuacana.

Mexia was selected as the place for holding the meet next year and date was set for the fourth Friday and Saturday in March. Every school in the county will be represented at this meet.

The following is the faculty holding the institute:

Mr. W. I. Woodson, M. A., Professor of Education, Southwest Texas Teacher's College, San Marcos, Director.

Miss Mamie Patrick, B. A., Primary Education, North Texas State Teachers College, Denton, Primary Supervisor.

Mr. O. B. Douglas, M. A., Professor of Educational Psychology in State University, Austin, High School Supervisor.

Mrs. Maud W. Gordon, Intermediate Supervisor of Houston Schools, Houston.

Entertainment for the visitors has been provided by the different civic organizations of the city under the direction of Mr. J. E. Farrow, Secretary of the Chamber of Commerce and among other things has consisted of free passage to the Yale Theatre, a visit to Limestone County's new court house now under construction, and a big barbecue at the new municipal park now under construction.

WARNING.

Postmaster Isidore Newman has been requested to warn the public against the practice of mailing letters at the trains, because in many cases the mail is delayed from 12 to 24 hours by being carried beyond the place for which it was intended, the train men do not have time to work up the drop mail between stations.

The public is requested to mail all letters and parcels at post office, 30 minutes before train time and attention is again called to the fact that all night mails should be deposited in post office by 9 o'clock.

From the People

DOES A HEN SIT OR DOES SHE SET?

Mexia, Sept. 12, 1924.

Editor Mexia News:

In my letter in Thursday's News, in referring to the peculiar "logic" of Robin and Bob, I dramatically exclaimed, "O, Solomon! O, Socrates! O, Robin and Bob!" but through an oversight you had it "O, Robin and rob." You no doubt sub-consciously had in mind the chief characteristic of the methods used by the "delegate grabbers" at the Austin convention, which probably accounts for the error.

Where I referred to a certain noted Texas politician as "wishy washy Mac," meaning of course that he is unstable politically, you set it up as "whiskey mash Mac." Now, I never would call anybody that—after an election is over—and I am at a loss to know what could have suggested such a radical error as that, unless you were sub-consciously thinking of some of the "full democrats" who are now in real control!

But worst of all, your version of my original text said "they sat a bad example for the rest of us." I did not say "sat." I said "set." Set means to place or put in any position; to fix; to place a thing aside or up, as a standard; to compose, as type; but sit means to rest on the lower part of the trunk of the body.

Sat is the past of sit. A man never sat an example for us, unless by example we mean "the lower part of the trunk of his body." Our Groesbeck friends, for whom I have a warm friendship in spite of good humored thrusts at one another, frequently sit down; and by sitting down they set us an example. They sat down on us at Austin, and by so doing they bolted the Groesbeck convention and thereby set up—not sat up—a bad example for us to follow. Let's not set a bad example for them by saying sat when we mean set. Your linotypist sits down, whenver he can, but he sets type. He is caller a typesetter, not a type. He is called a typesetter, not a eggs but she sits down on them to set them. By sitting down she sets us an example—which we frequently follow.

I am writing this to set—not to sit—the record straight.

Yours truly,
BEN B. HUNT.

Tonsils and Adenoids
Letter No. 6

Giving the Child a Better Chance.

IS YOUR CHILD HANDICAPPED?

Does your child's nose run or is it sore? Does the child snuffle?

Are the eyes red? Are there fever sores or eczema around the nose and mouth?

Does the child seem dull? Does it stand and look at you with open mouth?

Does it put its hands to its head as though it had earache? Does it take cold easily?

Does the child sleep with its mouth open? Does it snore?

If the answer to any of these is Yes, ask the doctor if the child has adenoids or large tonsils.

Tonsils

Tonsils often become diseased and stick out into the throat. Sometimes they do not get any larger but become diseased and contain little cups filled with infection. These diseased tonsils often hold poisonous germs which may cause throat trouble or may be carried to other parts of the body and cause sickness.

Adenoids

Adenoids look like a little head of cauliflower, colored red. They grow in the back part of the throat where the nose and throat join, and can be seen only by the doctor with a special mirror. They stop up the nose and make the child breathe through its mouth.

When the child breathes through the mouth, much dust and many germs get into the body.

Adenoids should always be removed.

Earache

Earache often means that the child has adenoids. Earache always means that the child is in danger of getting deaf. Also the child is in danger of getting a running ear and there is danger of the disease reaching the brain. A running ear should always be treated by an ear doctor, it will not get well without good care.

Large Glands

Often poison gathers in the nose, throat or ears. The glands of the neck try to carry this poison away. This overwork makes the glands enlarge and lumps often form.

Other Diseases

Diseased tonsils and adenoids hold poisonous germs which frequently are carried to other parts of the body and cause sickness. Rheumatism and heart disease often come in this way. These germs also cause stomach, bowel or lung diseases.

A child with adenoids and diseased tonsils can get diptheria, scarlet fever, measles and whooping cough very easily. Such a child will have the disease worse than a child who has had adenoids and diseased tonsils removed.

Stupid Children

Often children who seem stupid and who do not learn rapidly can be made healthy and normal by the removal of diseased tonsils and adenoids.

It is wrong to blame children for backwardness when they cannot hear, see or smell properly or are suffering from pains from diseased tonsils or adenoids.

Have Them Removed

Adenoids and diseased tonsils can be removed at any time of the year. Don't wait, thinking they will get better. It is dangerous. The child may lose its hearing if you put it off.

Watch carefully for the danger signals—mouth breathing and earache.

Always go to a good doctor at once.

Will be glad to make examination free and explain in detail.

Groesbeck Working To Beautify Park Near County Seat

J. E. Farrow, Secretary of the Groesbeck Chamber of Commerce, speaks with considerable pride over the Groesbeck city park about two miles southwest of the county seat. The spot he declares to be unrivalled in scenic beauty in this section of the state the rustic advantages having been utilized well in the plans for further beautification by the park committee. The citizens of Groesbeck, he says, are expending quite a sum in park improvements and when they finish, the site will have adjuncts necessary to a wo amusement center.

MEXAI SCHOOL ADVANTAGES OFFERED TO ENTIRE COUNTY

TRIP THROUGH THE HI SHCOOL INSPIRES ONE WITH THE BEAUTY AND EFFICIENCY OF INSTITUTION

Leta Mae McCravey.

The Mexia Public School System, which consists of two complete grammar schools and one high school of first rank, is guided in its progress by a superintendent of marked ability, who is supported by a board of education of progressive ideals, and followed by an executive and teaching staff of loyal, intellectual men and women. Mr. C. A. Puckett, ex-student of Harvard University and a man whom the educators of Texas recognize as an authority as an executive, serves as superintendent. He is aided in carrying out his plans by the Mexia Board of Education; W. M. White, President; A. D. McDonald, Vice-President; David Murphy, Secretary; A. H. Berry, Gene Sinclair, R. B. Bass and Jack Womack. The principals who have been so well chosen by these men are: G. W. Perkins, Principal of McKinney Street Grammar School; Mrs. Georgia Bergerson, Principals of the Sumpter Street Grammar School; and R. M. Andrews, Principal of the Mexia High School. Before a teacher can qualify for a position in the elementary school system, he must have had two years of college work and at least two years of experience, while all High School teachers have had teaching experience and possess at least one college degree.

In each grammar school all grades from the first through the seventh are taught in comfortable, well equipped buildings. All work is carefully supervised, and the student completes his work in the grammar school well qualified for entrance into the high school. Here he finds himself matriculated in a school which has to its credit at present thirty-one affiliated units:

When one considers the beautiful, well equipped, modern school building in which the high school work is carried on, he does not find the figures given here at all surprising. When one makes a tour of the main floor and inspects the home nursing room, the sewing laboratory, the cooking laboratory and dining room, the science laboratories, and the mechanical drawing room, he is not surprised that girls leave Mexia High School perfectly capable of taking care of family illnesses, planning their own and their family wardrobes, and planning and preparing the proper foods for their consumption, and that the boys are able to analyze the seeds and soils of their farms and plan their own and other people's homes.

If he will go on down into the basement and inspect the shops, he will also find that the boys are not only making plans, but are carrying them out. On this floor, in close juxtaposition to the shops, will be found the school cafeteria, where each student may purchase warm, wholesome food for lunch at a very nominal cost. Thus, he is stimulated for better and more thorough work for the remainder of the day.

If the visitor would then continue his progress to the third floor and enter the spacious library decorated with pictures to please the most refined taste and contained upon its shelves two thousand volumes of the best reference books, including poetry, fiction, biography, history, and drama. He will consider it only the natural thing for such a school to possess the only honor unit in the high school curriculum, a fourth unit in English, and to find inspiration sufficient for successfully sponsoring three school publications: The Me Hi News, the school magazine, and the annual. He would also find ample reasons for the present standing in mathematics, history, and the language (Latin and Spanish).

In another section of the building is found the gymnasium, one of the most prized possessions of the school. It is here that the girls get some of their most valuable training for physical development. Before they take up this work, however, they are given a thorough physical examination free of charge. In this way, any undiscovered physical defect may be brought to light, and, by careful training, corrected.

The interested person might then walk into the beautiful auditorium, seat himself in student assembly, listen to the music from the baby grand piano which graces the stage, bow his head in devotional service, listen to a rousing lecture, or witness the enthusiasm of a student pep meeting. Any one of these experiences would cause himto go away with a keener insight into the spirit of the institution.

It is the desire of the Superintendent, the Board of Education, the teachers, and the patrons of the town to share these advantages with the people all over the county. It is their dream for the Mexia High School to serve as a stepping stone between the elementary grade work taken in the rural districts and college just as surely as it is the stepping stone between their own grammar schools and college. Any student interested in taking advantage of these opportunities may obtain all desired information by writing in to the Superintendent's office and securing the bulletin which will be supplied him there.

Turkey Wins New Place In The Sun

NEW YORK, Sept. 12.—Dr. James I. Vance of Nashville, Tenn., former Moderator of the Presbyterian church in America, returnedtoday aboard the steamship California from a four months' study of conditions in Bible Lands. He visited eight countries on behalf of the Near East Relief and is one of the first Americans since the war to be permitted freely to tour across the whole breadth of Turky-in-Asia. Summing up his impressions, Dr. Vance said:

"I made a special study of the Armenian question and its relation to Turkey. Turkey is coming strong. Armenia is fading out. Turkey is a nation with its face toward the morning. Armenia is a nation without a country. Turkey is Moslem, Armenia, is Christian. Turkey has won, whether by fair means or foul, a new place for itself in the sun.

"On one occasion I traveled by train for three days across Turkey. The trains have no diners or sleeping cars, and there are great inconveniences and discomforts. But the trip is worth all its risks and dangers. I have rarely seen scenery more picturesque and terrifying.

"While I was in Adana I saw an Armenian who was shot down in the market-place by a Turk. Three bullets went through his stomach and his condition was precarious. A Turk was asked why he was shot, and with a shrug of the shuolders and a lift of his palms replied, 'He is an Armenian!'

"What should be America's attitude to Turkey? Shall we continue to put the 'unspeakable Turk' outside the pall and say he has a bloody heart and a black creed that admit of nothing short of anathemas? One's answer to this depends largely on the people with whom he talks, and I have talked with hundreds.

"Certainly there can be no apology for the Turks' past, and there are those who despair of any sincere and permanent change of heart. Nevertheless, he seems now to be making a desperate effort for a place in the fellowship of nations. It would seem that the Turk might be given a chance, with the understanding that he must bring forth fruits meet for repentance before he can expect the fatted calf to be killed.

"Meanwhile, what of the Armenians? If the Turk is to be given a chance, shall the Armenian be denied a chance?

"If one thinks that the Armenians are a people without a future, he will grievously err. True today they are down and out. They have no country and no nation wants them. In Syria and Russia they have a meagre industrial opportunity; in America only 100 can be admitted each year; and already there are 50,000 too many in Greece. Like Noah's weary dove, the poor Armenian seems to find no place on which to rest the sole of his foot.

"But if you think you can keep him down, you need to think again. He has his faults. He is stubborn and individualistic, but he is industrious, capable, clever in skilled trades, self-respecting, saving and deeply religious. He does not beg and he does not despair. You cannot keep him down.

"The Armenians are a great race, with a fiery-furnace history of 2,000 years during which the common ore has been acquiring the temper of finest seel. I saw a boy drawing a portrait of Washington in one of our Near East Relief orphanages. It was not a bad portrait. The boy is 12 years old and speaks five languages. He is entered for the American University in Beirut next year. There are many others as gifted. The 100,000 Armenian children Near East Relief has been caring for are not the scum but the cream of a great race. They are the survival of the fittest. As I have spoken to thousands of these boys and girls and watched them at their work, I have said 'Thanks to America is far from dead.'

"Their future is not a thing to be settled by theorists. They will settle it themselves, and they will probably be a long time settling it, but in the long sweep of time, they will prove to the world that the greatest American effort in their behalf has been throughly worth while. The completion of this task of training the future Armenian nation confronts America today the real task is just emerging. Near East Relief has become one of the biggest and most pressing humanitarian opportunities in the world today."

FIRST METHODIST CHURCH.

The pastor will preach at 11 a. m., and 8 p. m. Is God real to you? Then worship Him in the sanctuary.

Interest in the Sunday School is growing. It meets at 9:45. Be on time.

ELEANOR MOORE CHOSEN MISS MEXIA FOR FAIR

In a spirited election held this week at the High School to determine which young lady should represent Mexia in the magnificent Pageant of Texas, a crowning feature of the Freestone County Fair, Miss Eleanor Moore received a majority of the votes. "Lady Eleanor" will select from among her friends a "Knight" who will attend her at the coronation ceremony of the Queen, a dazzlingly beautiful culmination of the Pageant. Visiting knights and ladies from every neighboring city and county will make up the royal assembly of which Miss Moore has been chosen a member, and the affair will be staged in the huge pavilion newly enlarged for the occasion. Thousands of spectators will come from far and near to view the beautiful spectacle many cars of Mexiaites among the number. Miss Moores many friends are enthusiastic over her approaching appearance in the Pageant and will attend the performance in large numbers.

New Type Car By Studebaker Is Real Sensation

Rumors confirmed Studebaker will bring out open-closed car entirely new principle and design. To be called "Duplex Phaeton."

SOUTH BEND, Ind., Sept. 14.—A sensational development in motor car design it is now definitely known will be announced by Studebaker this coming Sunday. The car, which is said to be entirely unlike anything ever offered before, is solution which the open-closed car problem which motorists have known since the "horseless carriage" first came into being.

The name of this revolutionary car, it is known, will be the Duplex Phaeton, and there will also be Duplex Roadsters, combining the outstanding advantages of present-type open cars with the snug comfort and all-weather protection of the closed car.

Besides this new-type car, reliable sources confirm the rumors that Studebaker will announce a new Six and 15 all new body styles.

It is the first far-reaching announcement to be made by this famous manufacturer of fine cars since 1918.

Studebaker, ever noteworthy for its innovations in motor car building, offered several revolutionary changes in automobiles in 1902. Then, in 1918, after a series of gradual refinements in its models, Studebaker gave to the world another entirely new model.

Now, in 1924, comes the third cycle in Studebaker progress—which has maintained an important influence on the automobile industry as a whole, and on the benefits in which the public has shared.

News Carefully Guarded

From a high Studebaker official came advance word today of jealously guarded innovations that should prove the outstanding automotive event of 1924.

Exact information regarding the secretly-designed new Studebaker is being carefully withheld until Sept. 14. And Studebaker officials declared today that they will rely on newspaper advertisements exclusively to inform the motoring public of the new motor cars.

While whispers in motor car circles for several months have connected the Studebaker Corporation with some unusual activity in the way of new types of cars, the statement today is the first intimation by the corporation, and comes as a surprise to the general public.

However, it was admitted by Studebaker officials that the amazing new type of car, which is already in process of quantity production at the huge plants here and in Detroit, will be called the "Studebaker Duplex Phaeton". Those who have seen pre-exhibition models say it is the most advanced achievement in motordom, and feel confident that it will supercede the present touring car. Nothing like it has ever been seen on the streets of America before.

Instant closed-car comfort

Imagine riding in an open car, that, in five seconds, at the first hint of rain or snow—becomes a snug, dry, luxurious closed automobile! Women motorists it is believed will be the first to sing the praises of this new accomplishment in motor car designing and construction.

For rumor has it that the new "Studebaker Duplex Phaeton" combines the advantages of the open and the closed in motor cars. Quantity production—plus remarkably efficient engineering and the remarkable Studebaker facilities in modern plants and equipment—will keep the cost low, the price being that customary for open cars.

Besides, it is reported that the new Studebaker Standard-Six will be another instant success. It is a powerful vehicle—bigger and more roomy, with many charming new features. Besides the Standard-Six, there will be introduced handsome new models of the Special-Six and the Big-Six.

"For two years the great Studebaker creative staff of designers, engineers and production executives have worked intensively toward this achievement, said a Studebaker official today. "The fifteen new Studebaker cars to be announced in a few days will make history in the automobile industry, we sincerely believe.

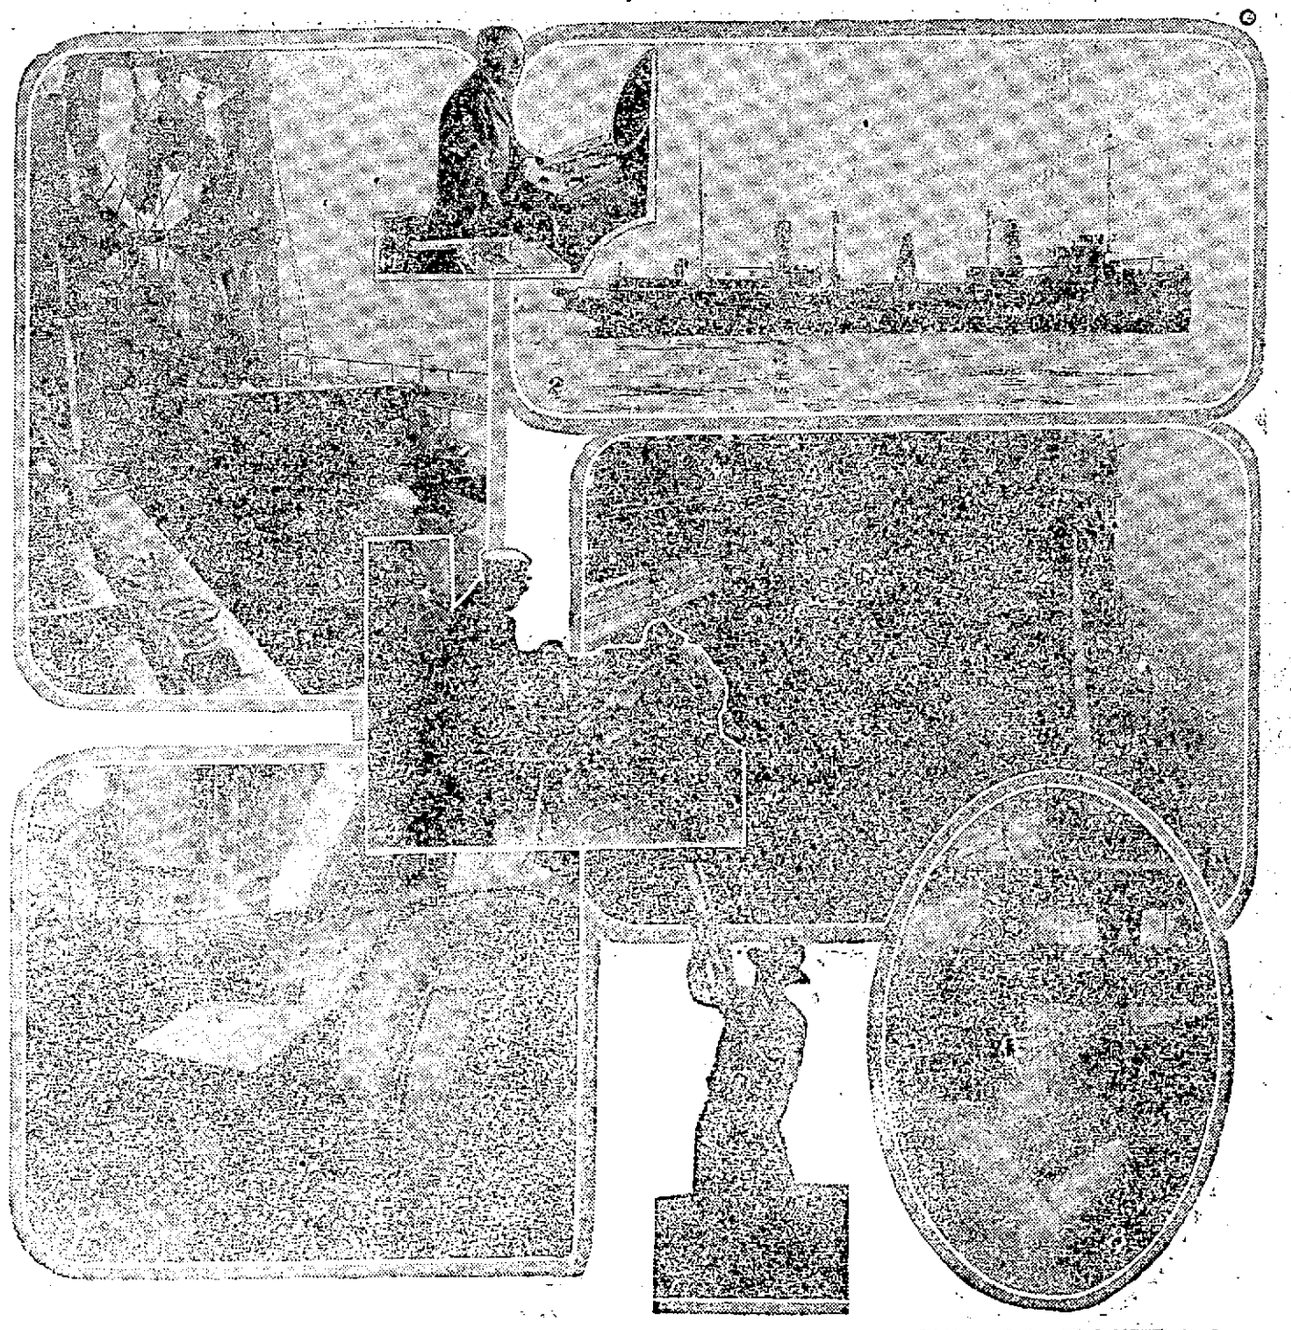
"In design, materials, workmanship, beauty, mechanical efficiency, and durability they set new standards of quality and value. Moderate prices on the new models are made possible by $52,000,000 invested in plants and equipment, 70 per cent of which are new since the War. Hence the savings of most modern methods and operations are made possible."

Fifteen bodies, it is reported, have been designed by Studebaker. All will be built complete in the modern new $10,000,000 body plants here in South Bend. Significant of the new trend in motorcars is the fact that all the new cars weigh from 100 to 200 pounds more than previous models, are longer and lower.

By those who have seen the new models, their beauty is said to be of the most unusual character. Straighter lines, higher radiators of new and distinctive design, higher, body-sides, new lights, curves that are extraordinary graceful, with unusual effects in new colors and finishes are said to be the more outstanding details of appearance that many judges pronounce the most distinguished ever offered here or abroad.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

Four All-Electric Seagoing Dredges Will Soon Be in Operation to Help Keep Principal American Channels Open for Commerce



THE four all electric sea-going hopper dredges that will soon be operated by the U. S. S. Engineers' Corps from the various ports, namely, "A. Mackenzie," at Mobile, Ala.; "W. L. Marshall," at New York; "Dan C. Kingman," at Savannah, Ga., and "William T. Rossell," at Seattle, Wash., to help keep the principal channels open in the North Atlantic, South Atlantic, Gulf and Pacific ports for coastwise and sea-going commerce, and the first of their kind ever built, are illustrated above as follows:

(1) The Ward-Leonard electrical system of pilot house control that enables the master of the dredge to have direct control over the Diesel Electric propulsion equipment, which consists of twin screw Westinghouse 800 hp. propulsion motors supplied with power by three McIntosh and Seymour Diesel engines directly connected to three 700 KW Westinghouse generators which individually or collectively supply power for the propulsion and dredging operations. By turning the wheels mounted on the control station in front of the master and by operating the lever at his right hand the loaded dredge can be operated at any speed up to full speed and maneuvered as required for dredging and safe navigation.

(2) One of the dredges during a dredging test. These dredges move slowly along under their their own power during the dredging operation, and when loaded with about two thousand tons of sand and mud speed at 11½ knots to the deep sea for dumping and at a greater speed when returning. They are designed to operate at congested and distant points of channels where this form of dredging is the safest and most economical.

The principal dimensions and particulars of all the four dredges are the same, namely, overall length, 268 ft. 5 in.; length between perpendiculars, 254 ft.; breadth molded, 46 ft.; depth molded, 22 ft. 6 in.; dead weight, 2,000 tons on a draft of 19 ft. 6 in.; capacity of hoppers, 1,250 cu. yards (usually weighs about 2,000 tons), and a loaded speed of 11½ knots. All four dredges were built by the Sun Shipbuilding and Dry Dock Corporation at Chester, Pa.

(3) The drag, in the mid-ship section of the dredge raised by an electric motor for inspection. During the dredging operations this drag is pulled through the sand, mud etc., at the bottom of the channel, and a motor driven centrifugal pump pumps the dredgings into the four hoppers, or bins, which have doors at the bottom for dumping the dredgings at sea.

(4) Opening the door at the bottom of the filled hopper to dump the sand, gravel, mud and goodness knows what into the deep sea. Sometimes money, relics, skeletons, etc., are recovered.

(5) Two of the hoppers filled with dredgings taken from a shallow channel and ready to be dumped into the deep sea to a depth of a mile or so.

(6) The 800 hp. Westinghouse motor driving the 26 in. centrifugal suction pump that can fill up the four hoppers with water in several minutes and with dredgings, depending upon the class of material, in fifteen minutes to several hours.

(7) Sampling the dredgings for estimating weight, density of material and classification.

(8) Where the sand, gravel, etc., mixed with water flow into the hoppers. The water quickly drains off and flows back into the channel, leaving only the solid matter for conveyance into the deep sea.

DELEGATIONS FROM MORE THAN FIFTY NATIONS; IS TURNING POINT IN LEAGUE

By HENRY WOOD.
(United Press Staff Correspondent)

GENEVA, Sept 2.—With MacDonald, Herriot and Mussolini as headliners, to say nothing of Prince Ras Taffari of Ethiopia, and minor notable to fill in the bill, the Fifth Assembly of the League of Nations convened here today for what is scheduled to mark the turning point in the League.

From the tribune of the assembly in the famous Reformation Hall, built to commemorate the 400 anniversary of Calvin, three prime ministers of England, France and Italy have announced their intention of declaring publicly the newer and more important role which the maintenance of international peace.

Delegations were present from over 50 of the 54 states composing the League, while unofficial delegates were present from virtually every state that is not a member, notably the United States, Germany and Russia.

Argentine May Return.

The Argentine seats which have been vacant ever since the Argentine delegation withdrew from the first assembly, continued to stare the president "vacantly' in the face, but assurances were received that before the next Assembly Argentine will in all probability be represented by a full delegation such as she already sent this year to the Internatioonal Labor Bureau, which makes up part of the League.

In honor of the three Allied prime ministers, who constitute the highest heads of governments that have ever come to a League assembly, except for te presence last year of President Cosgrave of the Irish Free State, Geneva was a fairyland of banners and flags of virtually every nation in the world. Although the United States is not a member of the League, the American flag rivaled those of other nations for the frequently it displayed. The Assembly delegations for the first time in going to the Secretariat also passed along the new "Quai du President Wilson," which Geneva inaugurated the past year, with its tablet walled into the Secretariat terrace announcing that the name of the quai had been changed in honor of President Wilson, "Founder of the League of Nations.'

Many Americans Present.

Incidentally, Americans, comprising not only tourists but representatives of the Foreign Policy Association, the Carnegie Foundation, the Rockefeller Endowment, the World Peace Foundation the Non-Partisan Association of the League of Nations and other American societies interested in the League, outnumbered by far the foreign visitors of any other nation.

Geneva turned out en-masse to welcome the notables gathered for the assembly.

Epoch-Making Gathering.

That the present assembly will mark definitely the turning point in the League is the declaration of every delegation present. MacDonalds' declaration that the whole future foreign policy of England will be based upon the League! with France openly declaring that she will endeavor to settle her greatest question—namely, that of national security—through the League, and with Italy seeking also a new field international importance through the League, Leaguers declare that the present assembly will be epoch making in the history of the world.

In addition, the present assembly is also scheduled to perfect the arrangements whereby the League will take over from the Allies the military control of Germany, Austria, Hungary and Bulgaria, which alone, it is declared, places largely in the hands of the League and increases immensely the prestige and international importance of the latter.

Most Important Agenda.

Besides the above elements, the agenda of the present assembly is cone of the most important that the League has had to act upon to date. The principal question will be that of disarmament on which a hard fight is expected, especially between England and France.

After four years of investigation and study and effort by the world's leading experts, the League has prepared a treaty of mutual guarantee which it regards as offering the only possible basis on which a reduction of armaments is possible at the present time. While France has come out openly for this project, England on the other hand has declared that it cannot be recommended for adoption, but that she will offer an even better plan.

THE FIRST PRESBYTERIAN CHURCH

Corner Bonham and Milam Sts.

Music—Choir
Sermon: "The Lordship of Christ"
Hymn
Benediction

"Loyalty to Opportunity" will be the subject of the sermon this evening at 7:30 o'clock.

"Serving the Sunday School" will be discussed by the C. E. Society at 6:30.

"Readiness for Service" will be the subject for the prayer meeting, Wednesday evening, 7:30.

The Women's Auxiliary will meet Monday in the Church at 4:00 p. m.

Get ready: for Church Visitation Day, Sept. 28; for Rally Day, Oct. 5.

The Lordship of Jesus is the basis of Christian life and hope. He is:

Lord of Life—"I am come that ye might have life."

Lord of Mind—"Bring every thought into captivity unto Him."

Lord of Conduct—"Keep my commandments."

Lord of Possessions—"Ye are stewards."

Lord of the Church—"One is your Master, even Christ."

Lord of Heaven—"The Lord He is God."

If you do not crown Him Lord of ALL, You do not crown Him Lord at all.

The State convention in Austin last week was attended very largely by "wets," but they all left the capitol city "dry," due to the thoughtfulness of Gov. Neff and his ranger force.—Kosse Cyclone.

Not Stupid—Handicapped

He *always* failed in school. Yet he seemed a bright boy.

An eye examination disclosed that his vision was faulty. With the right glasses he was speedily promoted.

Is *your* child making all the progress he should?

Have Your Child's Eyes Examined Now.

The good looking and sturdily constructed Wellsworth Windsor is especially suitable for children.

TEXAS

My native State! How rich in native lore!
Whose inspired deeds the hearts of men hath found
In other lands, and caused them to adore
Thy broad and matchless realm as hallowed ground:
For Texas hills and dales doth all resound
With tread of heroes feet that made thee great;
Whose sons abide that martyr's blood hath bound
To all the glories of the Lone Star State.

Almighty God gave thee more starry skies
And sent a fresher breeze for summer days
To make thy realm an earthly paradise
Where dreams of wanderer forever strays:
Of all thy sister states, the envied praise,
That nature gave thee more than all combined,
Whose landscape scenes enthrall the eager gaze
With bursts of glad surprise in thee confined.

Old missions breathe that epoch of the past
When o'er thee waved the flag of Mexico,
But patriots broke the tyrant rule at last
And furled that flag of treachery and woe;
For martyr's blood spilled at the Alamo
And Goliad's inhuman butchery
Thy sons are pledged since days of long ago
To make their lives the price of liberty.

My Lone Star State! The glory of thy name
Inspires the noble breast in ev'ry clime
And patriots yearn to emulate the fame
That thou hast won by sacrifice sublime:
Let Freedom's song be Texans sweetest chime
And melody to swell the ardent breast;
Where nature built her masterpiece of time
To bless thy happy homes with joy and rest.

—Owen Friend Watkins.

"DAWN O' THE MOUNTAINS" OPENS THEATRICAL SEASON OPERA HOUSE

When the curtains are raised at the Opera House Monday night the theatrical season will be on in Mexia. Manager Box has secured the Edna Park Players who will present "Dawn O' The Mountains" for three days beginning Monday night. From the telegram which we are reproducing below. Mr. Box is to be congratulated for securing these high class artists for the opening of the season. The telegram is as follows

San Antonio, Tex.

P. W. BOX,
Mexia, Tex.

You are indeed fortunate in securing Edna Park Players for your theater. They are just closing a most successful 58 weeks engagement at our theater. A company of ladies and gentlemen and every one an artist. We wish them luck and hope to have them back again.

Manager,
ROYAL THEATER.

This is the first company visiting Mexia for any period of time to carry their own stage crew, scenic artists and building every bill as a production. A rare treat is promised all who visit the Opera House during the stay of these famous players.

SPARKS PAINTS 2 NEW HOUSES AT COTTON MILL

The work at the new textile mills has been curtailed a couple of days on account of rain. However, satisfactory progress is being made on the buildings. Two cottages have already been completed, for use while the mill proper is being built. These have both been painted and papered by C. H. Sparks, local painter and decorator.

Loafers Get Free Bed In City Jail

Loafers on the streets after midnight, without visible means of support, usually wake up the next morning in the Mexia city bastile. One night recently, night watchman Jackson picked up eight men who had "put up" for the night in Central Park. They protested against changing rooms but he insisted and they accepted the invitation. It is believed that this procedure and alert officers are adding much to the safety of Mexia homes when all is quiet in the business streets and nothing going on but bills for electric lights.

Some Interest Here In Big Fist Fight

Considerable interest was shown here in the fight between Firpo and Wills Thursday night. The radios had difficulty in connecting up with Boyles Thirty acres and The Mexia Daily News supplied first news of the fight and the results to the public, the bulleting being posted at the Cox-Forrest Drug Company where scores of fight fans had assembled for the information.

Great Evangelistic Company begins revival at First Christian Church next Friday evening at 730.

C. R. L. Vawter is an evangelist of more than national reputation and he has with him three talented helpers. Mr. Howard T. House is a real musician, not only at the Piano, but also with the Organ Chimes, and the Marimba-Xylophone. Mr. Will D. Reaves is Baritone Soloist, and Miss Clarkie Reaves is Soprano Soloist. Mr. Vawter will direct the music, and while the music will be inspiring and appreciated, yet it will not overshadow the other part of the service, but rather prepare the hearts of the people for the great Gospel messages that Dr. Vawther will deliver in his appealing and convincing way.

Remember that the first service is next Friday evening at 7:30.

G. T. REAVES, Minister.

Miss Betsye Jane Walters who has just finished a course in Dramatic Art and Expression in Cumnock School of Expression will open her classes September 15th. For information call 306-J.

LONGHORN COACH EXPECTS WET FALL FOR FOOTBALL

By MOULTON COBB

AUSTIN, Texas, Sept. 12.—Doleful Doc Stewart, Longhorn football coach, expects a wet fall. The vanguard of his football squad arrived Sunday, and he gave the athletics their first exercise Monday afternoon by taking them out to Barton Springs and making them swim for an hour. This is the first time a University football coach ever started off the season with a swimming match.

Although fall training did not start until Wednesday, many of the enthusiastic athletes came down early to get off to a good start. Blue Smith, who has been reported as not returning to the University, was here eagerly Monday morning hunting for his new equipment. He is being counted upon to be a regular backfield performer if he can develop his defensive playing.

Frank Dayvault, who also was not expected to return, was in Austin Monday afternoon, but did not announce whether he would return to school. This will be his last season if he decides to come into the fold.

Matt Newell, who was laid up with injuries in the Thanksgiving games, is back in the best of condition. He may play an end position this fall.

Clint Slover, a six foot four member of last year's freshman team, came in Sunday night. He is off about fifteen pounds in weight, but otherwise in good condition.

Lester Settegast, a member of last year's squad; Bertie Foster, who will try for the quarterback position, and Harry Pfannkucke, a big center, were among the early arrivals.

Ed Bluestein, star of last year's team; Alex Waite, who came here last fall from South Carolina, and E. J. Stewart, who comprise the Longhorn coaching staff, are all here with players.

WESLEY-WESTMINSTER GAME TO BE PLAYED ON SATURDAY

The game between Wesley College and Westminster which has been reported to be played here on Friday Sept. 26, will be played on Saturday, Sept. 27th. instead.

The High School will probably have a game arranged for Friday the 26th. of this month but as yet it has not been decided.

L. E. KOLLMAN MOVED TO WESTERN TEXAS

L. E. Kollman and family left Saturday for Hondo, about forty miles west of San Antonio, where they will make their home. We are loser by the removal of this good family from our city, but wish for them prosperity in their new home.

Rain Washes Mud From New Alleys Into Main Streets

Following the paving of several blocks of alleys in the business district, the early part of this week, when there was nary a cloud in sight and the fierce rays of Sol were unobstructed, the Uvalde paving company had workmento scatter dirt over the concrete and then moisten down with an all night stream. Friday night about the time the work of wetting down the mud on top of the contract in Womack Lane, the rain took up the work and has carried in on ever since. Mud from practically all the alleys has washed in great heaps out in the streets from these alleys, many spots are left with no sand coating. It is thought that the alleys that have been paved may be opened to traffic in a few more days, while the work of paving in alleys South of Commerce street will proceed as soon as weather permits.

Tom Walker of Fallon states that his community received a drenching Friday and that turnips are going to be fine this fall.

Charlie Mason was a Groesbeck visitor Friday.

ON WITH THE HUNT!

THE WORLD is full of hunters running down facts, capturing facts, taming facts, making facts work for them—and for you. Edison setting traps for voices . . . Marconi stabbing at the sky . . .

You, too, are hunting facts. Theories won't light your home, burn in your furnace, tick off time for you, clothe you, feed you, grow in your garden, carry you to work.

Facts will. You are hunting facts when you read the advertisements. Facts about products, what they are, their worth, how long, how willingly they will slave for you.

When you buy, you want to buy facts—certainties of satisfaction.

Advertisements contain no vague theories or dreams. In their frankness is nothing to confuse. They give you facts. They give you your best ammunition for getting hold of more facts.

Use them. Read them every day.

Advertising removes all risk from buying.

WEEKLY HIGHWAY REPORT OF ROAD CONDITIONS IN STATE

Showers throughout the State, but State Highways passable at all points. Few heavy rains reported.

Texarkana to Gainesville.

Take State Highway No. 5 from Texarkana to Detroit through New Boston, DeKalb and Clarksville this highway is graveled and passable at all times. From Detroit to the Lamar County line, under construction, detours to be expected. From the Lamar County line to a point 1 mile west of High concrete pavement. From this point to the Fannin County line, graded black land road impassable after continuous rains.

From the Fannin County line to a point 2 miles west of Dodd City, concrete pavement. From a point 2 miles west of Dodd City for 1.2 miles there is a gap of graded black land road between the concrete and old gravel road. West of Dodd City 3.2 miles through Sherman to Southmayd, gravel road. From Southmayd 4 miles west, No. 5 is a well graded land road passable except after continuous rains. From a point 4 miles west of Southmayd to the Cook County line, gravel road, passable at all times.

From the latter County line through Woodbine to Gainesville the highway is sand and clay soil, which is rough in places but passable at all times.

Gainesville to Ft. Worth.

Take State Highway No. 5 via Lindsay to Ringgold. Then take State Highway No. 2 to Ft. Worth.

From Gainesville to Lindsay is a graveled road in good condition at all times. From here to Montague County line through Myra and Muenster unimproved black land road, muddy after rains. At the present time it is fair condition. From the Cook County line to Saint Jo in Montague County the highway is unimproved and becomes heavy during the rainy weather. From the latter place to Nocona the highway is unimproved and is impassable to heavy loads during continuous dry weather due to the deep sand. From here through Ringgold there is a clay soil, passable at all times.

State Highway No. 2 is gravel via Decatur to Tarrant County line. Construction work between Wise County line and Decatur. Hard surfaced road from Tarrant County line to Ft. Worth.

Gainesville to Amarillo.

Take State Highway No. 5 over gravel road to Lindsay. Black land unimproved roads from here to the Montague County line through Myra and Muenster, impassable after heavy rains. From the Cook County line to Saint Jo in Montague County the highway is unimproved and is heavy after rains. To Nocona the highway is unimproved and is impassable to heavily loaded cars during dry weather or after continuous heavy rains. From here to Ringgold good clay soil, passable at all times.

From Montague County line to Henrietta there is an earth road fair except after heavy rains. West of Henrietta's creek overflows after heavy rains. Through Wichita Falls, Iowa Park and Electra a concrete highway is in first class condition. Thorugh Harrell and Oklaunion road is graded dirt, passable except after heavy rains. Through Vernon to the Pease River bridge concrete road. Highway under construction to Tolbert. A detour is necessary here. Unimproved road from here to the Hardeman County line; this is passable at all times but heavy after rains.

The highway through Chillicothe, Quanah, Acme and Goodlet unimproved, but passable, except after heavy rains.

Thirty-three miles across Childress County graded and in a fair condition. The same condition exists in Hall, Donley and Armstrong Counties. From the east County line of Potter County asphalt road to Amarillo.

Amarillo to Texline.

Hard surfaced highway out of Amarillo on State Highway No. 5. For 22 miles south of the County line graveled and dirt road fair—always passable. The highway across Hartley and Dallam Counties, distance of 42 and 37 miles respectively is a graded dirt road in good condition.

Austin to Cisco.

Take State Highway No 2 as far as Waco, over hard surfaced highway, except for a few miles of gravel roads. From Waco to Meridian take State Highway No. 67 and continue on this highway as far as Eastland. Then take hard surfaced road, State Highway No. 1 to Cisco. Rough roads will be encountered between Meridian and Dublin, but this is graded road and passable at all times.

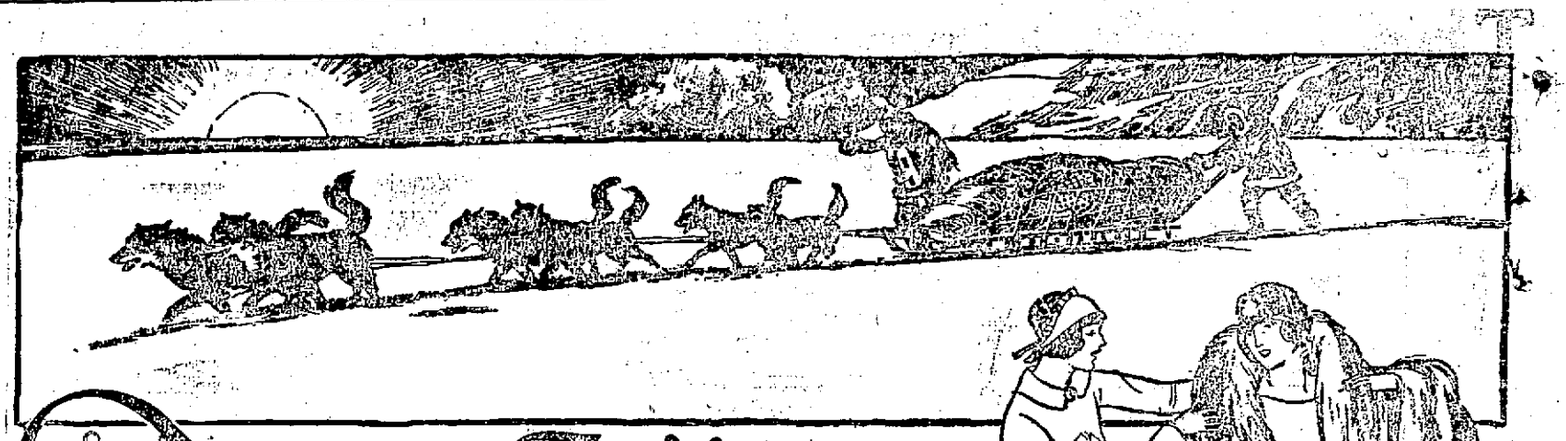
San Antonio to Medina Lake.

Take State Highway No. 3 over 23 miles of asphalt. Balance of road good gravel.

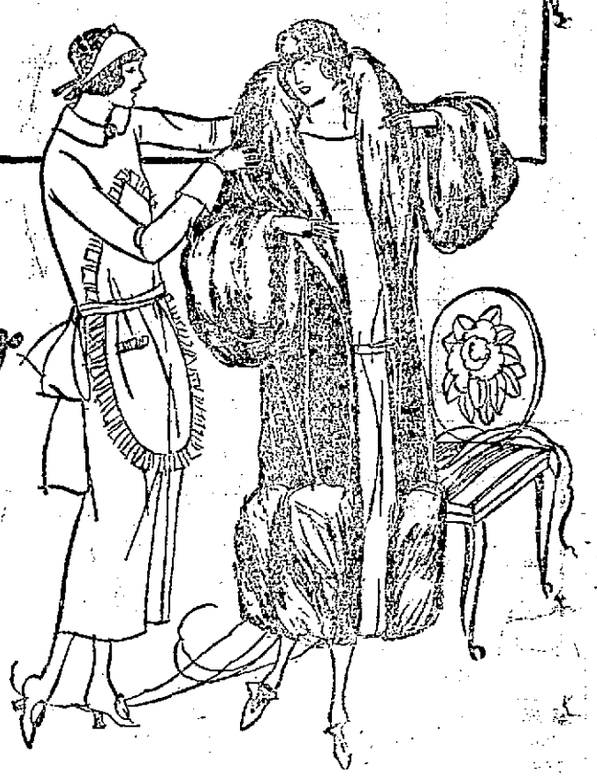
TWENTY-FIVE YEARS AGO.

While going through some old papers at Bighill Saturday, Murray Darwin ran across a copy of the Mexia Herald-Echo of date Sept. 29, 1899, A. M. Kennedy, editor. The paper contains an account of the killing of Mr. Darwin's father (T. C. Darwin) by Emmet Davenport, a cousin, the trouble coming up over some cotton-pickers, and which occurred a few miles northwest of town. The matter is well remembered by all of our older citizens and it would serve no good end to go into the details of the said affair at this time. In looking over the paper this editor finds several items that he remembers well. One is, William Jennings Bryan was the Democratic candidate for president; John McDonald was tax assessor; H. E. Ellis was candidate for floater; Major N. P. Houx got marrie; Will Dennis was stabbed by Luther Herod; W. O. Ferry sold the Herald-Echo to A. M. Kennedy. An advertisement offered men's suits at from $1.00 to $10,000. Cotton was selling in Mexia for 6.60 cents and was thought it would go to 7c by week end. Cotton seed were selling for $8.50 per ton.—Thornton Hustler.

American Education Week will be observed this year November 17-23. Copies of programs may be had by addressing the Commissioner of Education, Washington, D. C. A leaflet containing suggestions regarding the observance of the week will be issued by the Bureau of Education in September.



Furs to Win Miladys Favor



The fur coat each year becomes a more indispensable part of the well dressed woman's wardrobe. Its cozy warmth imparts such a luxurious feeling of well being to the wearer. And how becoming are soft rich furs wrapped tight about the throat! They seem to lend a certain radiance and delicacy of feature to every face.

Nowadays to be smartly dressed is to appear and to be most suitably dressed for any occasion. Surely nothing could be more suitable with which to meet the bleak cold winds than warm soft fur fastening close about the neck.

New Requirements.

But for the very reason that it is worn so much—as much for smartness as for comfort the fur coat must meet certain requirements. It must be as supple and graceful as a cloth wrap, and it must conform to every whim of fashion's dictates.

Lines of slendor youthful grace are the keynote of this winter's smartest furs. It is perfectly wonderful how furriers have learned to handle furs and make them into the exquisitely shapely models which the fall mode demands.

As a fur coat is usually chosen for more than one season's wearing, it is safer to select it for its graceful elegance of line rather than a too startling novelty of detail, though doubtless it must express the very spirit of the mode.

The Jacquette.

The well dressed woman favors the smart, youthful jacquette for daytime wear. After all there is something so swagger about it as one walks jauntily down the avenue on a frosty morning. This year's jacquette has a tendency to have just a little more flare than formerly.

The Long Coat.

Doubtless the coat which reaches to the bottom of the skirt or within a few inches of it is the very newest and smartest for winter wear. After all, if one can afford only one fur coat, the long model is probably the safest choice. For the long model is the only one which is suitable for luncheon or afternoon wear over more elaborate frocks. And, of course, for evening it is indispensable.

These long coats are most popular in straight line wrappy models. These wrappy models give such a delightfully slender grace that their popularity is far from surprising. Now and then a slight circular flare is introduced at the hemline, particularly in the front. The shawl collar is making an appearance on many newer coats, but its vogue is by no means great enough to threaten the smartness of the choker which is so comfortable and which outlines the face so becomingly.

New Sleeves.

Perhaps the most interesting development in the new fur coat mode is the fascinating variation which is to be found in the newer sleeves. The gracefully flowing bishop sleeve is still at the heighth of favor, but it is a bishop sleeve with variations. The little silk inner cuff which has been a useful but far from beautiful windshield is now made of fur with a tight little fur cuff. Sometimes the sleeve is slit on the outside from the wrist almost to the shoulder and a charming puff of a contrasting fur is introduced.

However, the very smartest new sleeve is the puff sleeve. The sleeve is about as loose as a bishop sleeve from the shoulder to the elbow. Then a few inches below the elbow it widens into a puff to be caught into a cuff at the wrist. Though some of these cuffs are tight many of them leave a few inches to spare.

The Favored Pelts.

The short haired furs are enjoying great popularity this season. Broadtail, mink, summer ermine, squirrel and seal perhaps head the line but countless others are worn by many well dressed women.

Long haired furs—fox, in particular, are used for trimming, but they are used with more restraint. Frequently they are seen in narrow bands that will not detract from the slender silhouette. Now and then bands of a contrasting fur are found at line.

For Evening.

In the evening the whit wrap or cape is quite the We may well hope that thi will not change for white err flattering and so richly luxu it is utterly charming.

Three-Quarter Lengt

Now and then some exc smart new coats are thre length. If you are just th wear this coat you will h heigth of fashion. Howeve dangerous type, for many w very ungamly in it.

SWEET CARGO.

(By United Press)

GALVESTON, Sept. 5.—With oneship in port unloading 20,000 bags of sugar and three others due with 60,000 bags more, the Sugarland Industries apparently wil exceed last years import record through Galveston and Texas City. Last year's imports, totalling 622,000 bags up to September 15, established a high record, officials said. This seasons importations covering the same period total 623,000 bags.

David Murphy was a Groesbeck visitor Friday.

R. F. Babb left Friday night on a brief business trip to San Antonio.

Ben B. Hunt was a Groesbeck visitor Friday.

LOST—Saturday morning in the business part of the town a diamond bar pin. Finder return to box office of NATIONAL THEATER and receive reward.

LONGHORN SQUAD TO SCRIMMAGE MONDAY SAYS STEWART

By MOULTON COBB.

AUSTIN, Texas, Sept. 13.—After three days of strenuous training on Clark Field, Coach Doc Stewart gave his squad of seventy players a much needed rest Saturday. The team will be called together early Monday morning, when scrimmage will be engaged in for the first time this year.

Realizing that many new men must be developed within the next few weeks, the University athletic council has employed a large number of coaches to assist gloomy Doc Stewart. Clyde Littlefield the regular track coach; Alex Waite, an assistant football and track coach; Curtis Alderson, with Austin high school last year; Ed Bluestein, a star of last year's team who was graduated in June; George Luhn, another member of last season's squad, and big Tom Dennis, former Longhorn player but more recently dean of Meridian College, are all assisting in coaching the team. Alderson and Dennis will be in the University this year, but are ineligible for intercollegiate games.

When the Longhorns line up for their game with Southwestern University September 27, many new faces will be on the team. Many players who heretofore have never been on a University team are showing promise of making the team this fall. Clint Slover of Whitesboro, who is the tallest man on the squad, measuring six feet and four inches, probably will be used in the backfield or at end. He is a transfer from Austin College and last year was on the freshman eleven. Fred Thompson, a member of last year's freshman baseball team, is going out for football for the first time here, and is a likely looking prospect for the backfield. Vernon Schuhardt, who taught school last year, will give somebody a race for a backfield job. Stuart Wright of Dallas, a transfer from Dartmouth, has a good chance to make the grade. Maurice Wastallter of Eastland and Tom Young of Beaumont, members of the freshman team last year, are showing up well in the backfield.

K. L. Berry, who was with the Longhorns before the war, is trying for a tackle position, but it is doubtful if he can come back and compete with the younger boys. Murray Moore of Electra, another 1923 freshman, may earn a guard position. Other linesman who are new to Longhorn fans include John Terrell of Austin, Norman Henne of New Braunfels, Jack Mobley of Houston, Henry Grun of Yorktown, Clarence Rundell of Austin and Bob Waite of Reynoldsville, Pa.

Three of the experienced players, Lester Settegast of Houston, Hubert Foster of Waco, and Bruce Shearer of Houston, were injured d first week's practice. Sett Shearer were injured only but Foster, counted upon by the fans to be a regular qu this season, may be out for s

GOOD NEWS FOR PEOPLE WITH BLEMISHED FACES

No better news could be given people who suffer the embarrassment and disappointments which disfigured faces subject them to than that the use of Black and White Ointment, and Soap, are causing a positive decline in such skin diseases as pimples, blotches, eczema, rash, tetter, etc.

Black and White Soap, and Ointment, are already selling at the unprecedented rate of more than two million packages a year, and dealers everywhere are enthusiastically recommending them to their friends and customers. Black and White Ointment, and Soap, are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size.—(Adv.)

NEW LAMP BURNS 94% AIR

BEATS ELECTRIC OR GAS.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. T. Johnson, 609 W. Lake St., Chicago, Ill. is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him for full particulars. Also ask him to explain how you can get the agency and without experience or money make $250 to $500 per month. —(Adv.)

Twelve Southern States Enroll In Modern Crusade To Complete Work for Orphans of Near East

OLIVER J. SANDS
RICHMOND, VA.

ALICE HEGAN RICE
LOUISVILLE, KY.

J. B. IVEY
CHARLOTTE, N.C.

DEAN R. L. McCREADY
LOUISVILLE, KY.

REPRESENTATIVE committees from twelve Southern states have completed a study of the humanitarian work done by the American public in the Near East during the post-armistice period. Their reports, based on personal observation abroad, emphasize economy and efficiency as the keynote of this relief and orphanage work, and they recommend the organization of special crusades in every Southern state for the purpose of carrying it to completion.

Mrs. Alice Hegan Rice of Louisville, Ky., author of "Mrs. Wiggs of the Cabbage Patch," reports: "The Near East Relief is not only America's greatest philanthropy, but the greatest single achievement in philanthropy ever accomplished in the world. A unique experiment in practical Christianity is now being tried out in the world with results that may be epochal. For the first time in history a day has been set apart in which Christendom is to put in practice what has been taught for over eighteen centuries. A day has been set apart, Dec. 7, named Golden Rule Sunday, for the strengthening of international friendship and the practical application of the Golden Rule." The money raised on this day will go for the completion of the American orphanage work in Bible Lands. The twelve Southern states are organizing to do their share toward making this movement a success.

Oliver J. Sands, president of the American National Bank of Richmond, Va., makes this report: "I visited Turkey, Greece and Palestine, for the purpose of seeing the American work there, and to consult with representative people regarding the character of the work and method of administration, as well as the necessity for its continuance. I was tremendously impressed with the magnitude of the work and with the wonderful efficiency of the organization. The work in the orphanages, schools and hospitals was of the highest order. Not only myself but other business men who accompanied me came back determined to assist in every way until the last of these little ones has been permanently cared for. The American people must not relinquish this job until it is finished.

Organization of the new "crusade" idea, for carrying through this orphanage work, has been completed in Kentucky, Virginia, North Carolina and several other Southern states. The chairman for North Carolina is J. B. Ivey of Charlotte, while the chairman for Kentucky is Dean R. L. McCready of Louisville. The state of Virginia has pledged itself to the entire support of an industrial training school for 2,500 children, located at Syra, Greece.

Beans Is Beans May Be The Decision

(By United Press)

HOUSTON, Sept. 13.—Canned beans, millions of 'em—the kind that made Boston and the army famous—will play the leading role in a case filed in federal court here.

The Fremont Canning company of Fremont, Mich., is suing Gordon, Sewall Company, Inc., Houston, for $5,000 alleging that they shipped several consignments of beans to the company for which they never received payment.

Canned goods are not new in federal court here, however. More than a year ago certain canned salmon was condemned as being overture for healthful consumption. The salmon was opened in the court room and submitted to the judicial nose of Judge Hutcheson. Whether the court will dine on the contested beans remains to be seen.

ANTS AND BOOTLEGGERS.

(By United Press)

SAN ANTONIO, Sept. 13.—Texas ants have entered a trust with the bootleggers. Millions of the little pests attacked city detectives and prohibition agents here recently as they lay in wait for a brew vendor. After a brief battle the officers capitulated with 87 bottles of beer but minus the manufacturer.

BIBLE COUPON

Two distinct styles of this wonderful Book of Books have been adopted for this great newspaper Bible distribution. One is the far-famed Red Letter Bible (Christ's sayings printed in red for immediate identification), and the Black Print Bible for those who prefer that style.

Only Three Coupons and the Mere Nominal Cost of Manufacture and Distribution

Clip this coupon and two others and present or mail them to this paper with the sum set opposite either style, and come into possession of your Book of Books at once.

Style A—Red Letter Bible, overlapping limp seal grain cover, red edges, round corners, gold lettering, large, clear print, three coupons and only $1.98

Style B—Black Print Bible, flush limp black seal grain cover, red edges, medium large type, strong and durable, three coupons and only 98c

Mail Orders: Send amount for Style A or Style B, with three of these coupons, and include 23 cents additional for postage and packing.

Every Reader Should Have a New Bible

The Mexia Daily News

Easy wisdom!

HERE'S a simple rule for learning about everything modern.

All you need do is turn a few illustrated pages and run your eye over entertaining reading. You glean all the facts you must cope with daily. How to dress correctly, furnish your home, prepare and serve food, maintain health, recognize the best in music, literature, art; enjoy ingenuities that make life easy and pleasant.

Intimate news in advertisements touch every modern phase. Their friendly chats interest, assist. As sharer in modern comforts, you can't afford to miss them. Since you buy anyway, why not buy the best?

You'll find advertisements a generous help. They are authorities about everything that touches your daily life.

You can depend on advertised goods—a sound reason for reading advertisements.

The NEW THINGS for FALL

HIGDON-McELROY COMPANY

Mexia's Most Popular Department Store

Men's Wear For Fall

WE HAVE THE MOST COMPLETE LINE OF MEN'S WEAR TO BE FOUND IN THIS PART OF THE COUNTRY. FEATURING NATIONALLY ADVERTISED LINES OF MODERATELY PRICED MERCHANDISE.

Mens - Boys Clothing

New Ready-Tailored Suits and Over Coats.

—"READY-TAILORED" is the word for our Men's Clothing is not the kind usually termed Ready-made Clothes. Each and every garment is carefully tailored, from the best of fabrics, on up-to-the-minute models, embracing all that is new for Fall 1924.

—IN GRIFFON CLOTHES, we offer you a splendid selection in both Worsted and Cashmere Fabrics, each suit bearing this label is guaranteed to be All-Wool and to give satisfactory service to the wearer, some with 2 pair pants, and priced this season—

$27.50 - $35.00 - $39.50 - $45.00 - $49.50

—SILVERSTRYPE CLOTHES. Perhaps you never heard of this brand, but whether you have or not if you are a judge of merchandise you will agree with us this is the best suit for the money on the market today. Only one fabric, three colors, all at one price—$39.50. Quantity production on one cloth, that's why the low prices.

—MEN'S TWO-PANT SUITS made of all wool fabrics and a good range of patterns—$29.50.

—Other Suits to show you, priced $25.00 - $20.00 and down to $14.95.

—OVERCOATS, heavy and light weight, Gabardines, top coats, priced $15 - $20 - $25 - $30 and up.

—OUR BOYS' CLOTHING DEPARTMENT OFFERS YOU SOME EXCEPTIONAL VALUES AT VERY LOW PRICES, $5.95 TO $25.00.

Furnishings

—New Neckwear, the kind you'll admire and like to wear. Prices $1, $1.50, $2.00, and up to $3.50.

New Shirts, with or without collars, $1.25 to $10.

—New Gloves, "Hansens", of course, Dress Gloves, Driving Gloves, and Work Gloves.

—New Underwear, Vassar, none better, few as good in light or medium weights for Fall. Union Suits, priced $1.50 and up.

—New Hats and Caps, see our window display of the new things in headwear. Hats as low as $2.50. Campus Caps. See them.

—Traveling Goods, Suit Cases, Gladstones, and Hand Bags, from $1 to $50. Surely there's one in the line you'll like.

Ladies Ready-to-wear

WE HAVE ALWAYS BEEN LEADERS IN MEXIA IN THIS LINE AND THIS SEASON WE'RE BETTER STILL!

—As each succeeding fashion season comes around, women the world over are found anxiously waiting to welcome the New Things in Wearing Apparel.

—Tomorrow, we extend a cordial invitation to the women of this vicinity to view at their leisure, the dominating style trend for Fall '24. Every department of our store is radiant with the New Things for the coming season. And now that the long drouth is broken we can but expect cooler weather, hence the summer wardrobe can now be locked for several months, and each fair lady may very comfortably don out in a new costume.

—CO-ED DRESSES, a snappy line of Dresses for girls and small women in the season's favorite styles and fabrics. Prices $15.00, $16.75, $22.50, and up to $35.

Did you get a CO-ED Style Book?

—BETTY WALES DRESSES need no recommendation in Mexia, the many satisfied wearers talk for them, and this season the special School-Girl collection of 12 Dresses, nationally advertised in leading magazines, at one low price—$25. is the winner of the season.

—HOUSE OF YOUTH DRESSES, for the woman who wants something just a little better in Silk and Wools. Priced $45.00 and up.

—Other Dresses to show you, prices $19.75, $16.75, $12.75 and down to $6.75.

—Though the weather may still seem a bit warm to talk or thing about Coats, yet the most discriminating shoppers are making their selection early. Don't you think your shold, too?

—MILLINERY. An unusually comprehensive showing of Fall Millinery, each hat exclusive, and the line as a whole hard to beat. Priced as low as $2.95 and up to $25.00.

—MEADOWBROOK SPORT HATS can be found at our store. Love Bird Hats, Normandy Hats, and many other well known makes.

—A visit to our millinery dept. will convince you.

New Fall Fabrics

—Our big well assorted stock of Piece Goods enables you to most always find what you are looking for, whether it be an expensive fabric, or something for an inexpensive frock.

—FALL WOOLENS are beautiful, just a bit more coloring, brought out in Stripes, Checks, and Plaid effects, in widths 36-in., 40-in., 45-in. and 54-in. and at prices—$1.50 to $3.95. Before you buy out of town, mail order houses or elsewhere, see what we have to show you.
